SECTION 1

PRELIMINARIES

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

Meaning of terms "Tender" and "Tenderer"

Any reference to the words "Tender" or "Tenderer" herein and/or in any other documentation shall be construed to have the same meaning as the words "Bid" or "Bidder"

Preliminaries and agreement

The JBCC Preliminaries Code 2103, May 2005 edition for use with the JBCC Principal Building Agreement, Edition 4.1, Code 2101, March 2005 is taken to be incorporated herein. The tenderer is deemed to have referred to these documents for the full intent and meaning of each clause. These clauses are referred to by number and heading only. Where standard clauses or options are not applicable to the contract such modifications or corrections as are necessary are given under each relevant clause. Where an item is not relevant to this specific contract such item is marked "NOT APPLICABLE"

Pricing of preliminaries

Should Option A, as set out in clause B10.3.1 hereinafter be used for the adjustment of preliminaries then each item priced is to be allocated to one or more of the three categories with the applicable amount entered against each relevant category, where "Fixed" denotes a fixed amount (amount not to be varied), "Value Related" denotes an amount variable in proportion to value and "Time Related" denotes an amount in proportion to time

Items not priced in these Preliminaries shall be deemed to be included elsewhere in these Bills of Quantities

General

i) Tenderers are referred to the above-mentioned documents for the full intent and meaning of each clause thereof (hereinafter referred to by heading and clause number only) for which such allowance must be made as may be considered necessary

ii) Where standard clauses or alternatives are not entirely applicable to this contract such modifications, corrections or supplements as will apply are given under each relevant clause heading

SECTION A: JBCC PRINCIPAL BUILDING AGREEMENT

Definitions (A1):

1 Definitions and interpretation (clause 1)

Clauses 1.1 is amended by adding the following definitions:

- Definition of "**commencement date**" is added:

  "**COMMENCEMENT DATE**" means the date that the **agreement,** made in terms of the Form of Offer and Acceptance, comes into effect

- Definition of "**construction guarantee**" is amended by replacing it with the following:

  "**CONSTRUCTION GUARANTEE**" means a guarantee at call obtained by the **contractor** from an institution approved by the **employer** in terms of the **employers** construction guarantee form as selected in the **schedule**

- Definition of "**construction period**" is amended by replacing it with the following:

  "**CONSTRUCTION PERIOD**" means the period commencing on the **commencement date** and ending on the date of **practical completion**

- Definition of "**corrupt practice**" is added:

  "**CORRUPT PRACTICE**" means the offering, giving,receiving or soliciting of anything of value to
  influence the action of a public official in the procurement process or in contract execution

- Definition of "**fraudulent practice**" is added:

  "**FRAUDULENT PRACTICE**" means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of any tenderer and includes collusive practice among tenderers (prior to or after the tender submission) designed to establish tender prices at artificial non-competitive levels and to deprive the tenderer of the benefits of free and open competition

- Definition of "**interest**" is amended by replacing it with the following:

  INTEREST means the interest rates applicable on this contract, whether specifically indicated in the relevant clauses or not, will be the rate as determined by the Minister of Finance, from time to time, in terms of section 80(1)(b) of the Public Finance Management Act, 1999 (Act No 1 of 1999)

- Definition of "**principal agent**" is amended by replacing it with the following:

  "**PRINCIPAL AGENT**" means the person or entity appointed by the **employer** and named in the **schedule**. In the event of a **principal agent** not being appointed, then all the duties and obligations of a **principal agent** as detailed in the **agreement** shall be fulfilled by a representative of the **employer** as named in the **schedule**

Carried to Collection R

- Definition of "**security**" is amended by replacing it with the following:

  "**SECURITY**" means the form of security provided by the **employer** or **contractor**, as stated in the
  schedule, from which the **contractor** or **employer** may recover expense or loss

Clause 1.6 is amended by replacing the words "pre-paid registered post, telefax or e-mail" with "pre-paid registered post or telefax"

Clause 1.6.4 is amended by replacing it with the following:

- No clause

10	Works insurance (clause 10)		

Clause 10.0 is amended by the addition of the following clauses:

10.5 Damage to the works:

(a) Without in any way limiting the **contractors** obligations in terms of the contract, the **contractor** shall bear the full risk of damage to and/or destruction of the **works** by whatever cause during construction of the **works** and hereby indemnifies and holds harmless the **employer** against any such damage. The **contractor** shall take such precautions and security measures and other steps for the protection and security of the **works** as the **contractor** may deem necessary

(b) The **contractor** shall at all times proceed immediately to remove or dispose of any debris arising from damage to or destruction of the **works** and to rebuild, restore, replace and/or repair the **works**

(c) The **employer** shall carry the risk of damage to or destruction of the **works** and material paid for by the **employer** that is the result of the excepted risks as set out in 10.6

(d) Where the **employer** bears the risk in terms of this contract, the **contractor** shall**,** if requested to do so, reinstate any damage or destroyed portions of the **works** and the costs of such reinstatement shall be measured and valued in terms of 32.0 hereof

10.6 Injury to persons or loss of or damage to properties:

(a) The **contractor** shall be liable for and hereby indemnifies the **employer** against any liability, loss, claim or proceeding whether arising in common law or by statute, consequent upon personal injuries to or the death of any person whomsoever arising out of or in the course of or caused by the execution of the **works** unless due to any act or negligence of any person for whose actions the **employer** is legally liable

(b) The **contractor** shall be liable for and hereby indemnifies the **employer** against any liability, loss, claim or proceeding consequent upon loss of or damage to any moveable or immovable or personal property or property contiguous to the **site**, whether belonging to or under the control of the **employer** or any other body or person, arising out of or in the course of or by reason of the execution of the **works** unless due to any act or negligence of any person for whose actions the **employer** is legally liable

(c) The **contractor** shall, upon receiving a **contract instruction** from the **principal agent,** cause the same to be made good in a perfect and workmanlike manner at his

Carried to Collection R

own cost and in default thereof the **employer** shall be entitled to cause it to be made good and to recover the cost thereof from the **contractor** or to deduct the same from amounts due to the **contractor**

(d) The **contractor** shall be responsible for the protection and safety of such portions of the premises placed under his control by the **employer** for the purpose of executing the **works** until the issue of the **certificate of practical completion**

(e) Where the execution of the **works** involves the risk of removal of or interference with support to adjoining properties including land or structures or any structures to be altered or added to, the **contractor** shall obtain adequate insurance and will remain adequately insured or insured to the specific limit stated in the contract against the death of or injury to persons or damage to such property consequent on such removal or interference with the support until such portion of the **works** has been completed

(f) The **contractor** shall at all times proceed immediately at his own cost to remove or dispose of any debris and to rebuild, restore, replace and/or repair such property and to execute the **works**

10.7 High risk insurance:

In the event of the project being executed in a geological area classified as a High Risk Area, that is an area which is subject to highly unstable subsurface conditions that might result in catastrophic ground movement evident by sinkhole or doline formation the following will apply:

10.7.1 Damage to the works:

The **contractor** shall, from the **commencement date** of the **works** until the date of the **certificate of practical completion** bear the full risk of and hereby indemnifies and holds harmless the **employer** against any damage to and/or destruction of the **works** consequent upon a catastrophic ground movement as mentioned above. The **contractor** shall take such precautions and security measures and other steps for the protection of the **works** as he may deem necessary

When so instructed to do so by the **principal agent**, the **contractor** shall proceed immediately to remove and/or dispose of any debris arising from damage to or destruction of the **works** and to rebuild, restore, replace and/or repair the **works**, at the **contractors** own costs

10.7.2 Injury to persons or loss of or damage to property:

The **contractor** shall be liable for and hereby indemnifies and holds harmless the **employer** against any liability, loss, claim or proceeding arising at any time during the period of the contract whether arising in common law or by statute, consequent upon personal injuries to or the death of any person whomsoever resulting from, arising out of or caused by a catastrophic ground movement as mentioned above

The **contractor** shall be liable for and hereby indemnifies the **employer** against any and all liability, loss, claim or proceeding consequent upon loss of or damage to any moveable or immovable or personal property or property contiguous to the **site**, whether belonging to or under the control of the **employer** or any other body or person whomsoever arising out of or caused by a catastrophic ground movement, as

Carried to Collection R

mentioned above, which occurred during the period of the contract

10.7.3 Insurance to cover risk and liability:

It is the responsibility of the **contractor** to ensure that he has adequate insurance to cover his risk and liability as mentioned in 10.7.1 and 10.7.2. Without limiting the **contractors** obligations in terms of the contract, the **contractor** shall, within twenty one (21) **calendar days** of the **commencement date** but before **commencement of the works**, submit to the **employer** proof of such insurance policy, if requested to do so

10.7.4 Employer shall be entitled to recover losses and/or damages:

The **employer** shall be entitled to recover any and all losses and/or damages of whatever nature suffered or incurred consequent upon the **contractors** default of his obligations as set out in 10.7.1; 10.7.2 and 10.7.3. Such losses or damages may be recovered from the **contractor** or by deducting the same from any amounts still due under this contract or under any other contract presently or hereafter existing between the **employer** and the **contractor** and for this purpose all these contracts shall be considered one indivisible whole

14 Security (clause 14)

Clauses 14.1 to 14.9 are amended by replacing them with the following:

14.1 In respect of contracts with a **contract sum** up to R1 million, the **security** to be provided by the **contractor** to the **employer** will be a payment reduction of five per cent (5%) of the value certified in the **payment certificate** (excluding value added tax):

14.1.1 The payment reduction of the value certified in a **payment certificate** shall be *mutatis mutandi* in terms of 31.8(A)

14.1.2 The **employer** shall be entitled to recover expense and loss from the payment reduction in terms of 33.0 provided that the **employer** complies with the provisions of 33.4 in which event the **employers** entitlement shall take precedence over his obligations to refund the payment reduction **security** or portions thereof to the **contractor**

14.2 In respect of contracts with a **contract sum** above R1 million, the **contractor** shall have the right to select the **security** to be provided in terms of 14.3, 14.4, 14.5, 14.6, or 14.7 as stated in the **schedule**. Such **security** shall be provided to the **employer** within twenty one (21) **calendar days** from **commencement date**. Should the **contractor** fail to select the **security** to be provided or should the **contractor** fail to provide the **employer** with the selected **security** within twenty one (21) **calendar days** from **commencement date**, the **security** in terms of 14.7 shall be deemed to have been selected

14.3 Where **security** as a cash deposit of ten per cent (10%) of the **contract sum** (excluding value added tax) has been selected:

14.3.1 The **contractor** shall furnish the **employer** with a cash deposit equal in value to ten per cent (10%) of the **contract sum** (excluding value added tax) within twenty one (21) **calendar days** from **commencement date**

14.3.2 Within twenty one (21) **calendar days** of the date of **practical completion** of the **works** the **employer** shall reduce the cash deposit to an amount equal to three per cent (3%) of the **contract value** (excluding value added tax) and refund the balance to the **contractor**

14.3.3 Within twenty one (21) **calendar days** of the date of **final completion** of the **works** the **employer** shall reduce the cash deposit to an amount equal to one per cent (1%) of the **contract value** (excluding value added tax) and refund the balance to the **contractor**

14.3.4 On the date of payment of the amount in the final **payment certificate**, the **employer** shall refund the remainder of the cash deposit to the **contractor**

14.3.5 The **employer** shall be entitled to recover expense and loss from the cash deposit in terms of 33.0 provided that the **employer** complies with the provisions of 33.4 in which event the **employers** entitlement shall take precedence over his obligations to refund the cash deposit **security** or portions thereof to the **contractor**

14.3.6 The parties expressly agree that neither the **employer** nor the **contractor** shall

Carried to Collection R

be entitled to cede the rights to the deposit to any third party

14.4 Where **security** as a variable **construction guarantee** of ten percent (10%) of the **contract sum** (excluding value added tax) has been selected:

14.4.1 The **contractor** shall furnish the **employer** with an acceptable variable **construction guarantee** equal in value to ten per cent (10%) of the **contract sum** (excluding value added tax) within twenty one (21) **calendar days** from **commencement date**

14.4.2 The variable **construction guarantee** shall reduce and expire in terms of the variable **construction guarantee** form

14.4.3 The **employer** shall return the variable **construction guarantee** to the **contractor** within fourteen (14) **calendar days** of it expiring

14.4.4 Where the **employer** has a right of recovery against the **contractor** in terms of 33.0, the **employer** shall issue a written demand in terms of the variable **construction guarantee**

14.5 Where **security** as a fixed **construction guarantee** of five per cent (5%) of the **contract sum** (excluding value added tax) and a five per cent (5%) payment reduction of the value certified in the **payment certificate** (excluding value added tax) has been selected:

14.5.1 The **contractor** shall furnish a fixed **construction guarantee** to the **employer** equal in value to five per cent (5%) of the **contract sum** (excluding value added tax)

14.5.2 The fixed **construction guarantee** shall come into force on the date of issue and shall expire on the date of **practical completion**

14.5.3 The **employer** shall return the fixed **construction guarantee** to the **contractor** within fourteen (14) **calendar days** of it expiring

14.5.4 The payment reduction of the value certified in a **payment certificate** shall be in terms of 31.8(A) and 34.8

14.5.5 Where the **employer** has a right of recovery against the **contractor** in terms of 33.0, the **employer** shall be entitled to issue a written demand in terms of the fixed **construction guarantee** or may recover from the payment reduction or may do both

14.6 Where **security** as a cash deposit of five per cent (5%) of the **contract sum** (excluding value added tax) and a payment reduction of five per cent (5%) of the value certified in the **payment certificate** (excluding value added tax) has been selected:

14.6.1 The **contractor** shall furnish the **employer** with a cash deposit equal in value to five per cent (5%) of the **contract sum** (excluding value added tax) within twenty one (21) **calendar days** from **commencement date**

14.6.2 Within twenty one (21) **calendar days** of the date of **practical completion** of the **works** the **employer** shall refund the cash deposit in total to the **contractor**

Carried to Collection R

14.6.3 The payment reduction of the value certified in a **payment certificate** shall be *mutatis mutandi* in terms of 31.8(A)

14.6.4 Where the **employer** has a right of recovery against the **contractor** in terms of 33.0, the **employer** may issue a written notice in terms of 33.4 or may recover from the payment reduction or may do both

14.7 Where **security** as a payment reduction of ten per cent (10%) of the value certified in the **payment certificate** (excluding value added tax) has been selected:

14.7.1 The payment reduction of the value certified in a **payment certificate** shall be *mutatis mutandi* in terms of 31.8(B)

14.7.2 The **employer** shall be entitled to recover expense and loss from the payment reduction in terms of 33.0 provided that the **employer** complies with the provisions of 33.4 in which event the **employers** entitlement shall take precedence over his obligations to refund the payment reduction or portions thereof to the **contractor**

14.8 Payments made by the guarantor to the **employer** in terms of the fixed or variable **construction guarantee** shall not prejudice the rights of the **employer** or **contractor** in terms of this **agreement**

14.9 Should the **contractor** fail to furnish the **security** in terms of 14.2, the **employer**, in his sole discretion and without notification to the **contractor**, is entitled to change the **contractors** selected form of **security** to that of a ten per cent (10%) payment reduction of the value certified in the **payment certificate** (excluding value added tax), whereafter 14.7 shall be applicable

Payment (A31 - A35):

31 Interim payment to the contractor (clause 31)

Clause 31.5.2 is amended by replacing 14.7.1 with 14.0

Clause 31.8 is amended by replacing it with the following two alternative clauses:

Alternative A:

31.8(A) Where a **security** is selected in terms of 14.1; 14.5 or 14.6, the value of the **works** in terms of 31.4.1 and **materials and goods** in terms of 31.4.2 shall be certified in full. The value certified shall be subject to the following percentage adjustments:

31.8(A).1 Ninety five per cent (95%) of such value in interim **payment certificates** issued up to the date of **practical completion**

31.8(A).2 Ninety seven per cent (97%) of such value in interim **payment certificates** issued up to the date of **practical completion** and up to but excluding the date of **final completion**

31.8(A).3 Ninety nine per cent (99%) of such value in interim **payment certificates** issued on the date of **final completion** and up to but excluding the final **payment certificate** in terms of 34.6

31.8(A).4 One hundred per cent (100%) of such value in the final **payment certificate** in terms of 34.6 except where the amount certified is in favour of the **employer**. In such an event the payment reduction shall remain at the adjustment level applicable to the final **payment certificate**

Alternative B:

31.8(B) Where **security** as a payment reduction in terms of 14.7 has been selected, the value of the **works** in terms of 31.4.1 and **materials and goods** in terms of 31.4.2 shall be certified in full. The value certified shall be subject to the following percentage adjustments:

31.8(B).1 Ninety per cent (90%) of such value in interim **payment certificates** issued up to the date of **practical completion**

31.8(B).2 Ninety seven per cent (97%) of such value in interim **payment certificates** issued on the date of **practical completion** and up to but excluding the date of **final completion**

31.8(B).3 Ninety nine per cent (99%) of such value in interim **payment certificates** issued on the date of **final completion** and up to but excluding the final **payment certificate** in terms of 34.6

31.8(B).4 One hundred per cent (100%) of such value in the final **payment certificate** in terms of 34.6 except where the amount certified is in favour of the **employer**. In such an event the payment reduction shall remain at the adjustment level applicable to the final **payment certificate**

CONTRACT VARIABLES

THE SCHEDULE

This schedule contains all variables referred to in this document and is divided into pre-tender and post-tender categories. The pre-tender category must be completed in full and included in the tender documents. Both the pre-tender and post-tender categories form part of this **agreement**

Spaces requiring information must be filled in, shown as not applicable or deleted and not left blank. Where choices are offered, the non-applicable items are to be deleted. Where insufficient space is provided the information should be annexed hereto and cross referenced to the applicable clause of the **schedule**. Key cross reference clauses are italicised in [ ] brackets

42.0 PRE-TENDER INFORMATION

42.1 CONTRACTING AND OTHER PARTIES

Note: ***For the relevant physical and postal addresses, telephone and facsimile numbers, see "Notes to Tenderers" bound at the front of this document***

	Carried to Collection	R

42.1.1 **Employer:**

The Mvula Trust

[1.2] Physical address:
25 Rhodesdrift St
Bendor Ext 30
Polokwane
0699

42.1.2 **Principal Agent:**
[1.1, 5.1] *Sky High Consulting Engineers*

[1.1] **Representative of the Employer:**

The person concerned, postal address and contact details will be made available prior to contract signing

42.1.3 **Agent (1):**
[1.1, 5.2]

Agent's service: ***Quantity Surveyor***

42.1.4 **Agent (2):**
[1.1, 5.2]

Agent's service: ***Architect***

42.1.5 **Agent (3):**
[1.1, 5.2]

Agent's service: ***Structural and Civil Engineer***

42.1.6 **Agent (4):**
[1.1, 5.2]

Agent's service: ***Electrical/Mechanical Engineer***

42.1.7 **Agent (5):**
[1.1, 5.2] ***Not applicable***

42.1.8 **Agent (6):**
[1.1, 5.2] ***Not applicable***

Carried to Collection R

42.1.9 **Agent (7):**
[1.1,
[5.2] ***Not applicable***

42.2 CONTRACT DETAILS

42.2.1 **Works** description:
[1.1]

The works shall be as described in "Notes to Tenderers"

42.2.2 **Site** description:
[1.1]

The site shall be as described in "Notes to Tenderers"

42.2.3 Work or installations by direct contractors:
[22.2]

Refer to "Section 4" of this document for work or installations, where applicable, to be done by direct contractors

42.2.4 Specific options that are applicable to a **State** organ only

[41.0] Where so:

[1.1#] (1) Interest rate legislation:
[31.11.2#]
[31.12.2#] The interest rate applicable will be determined by the Minister of Finance, from time to time, in terms of section 80(1)(b) of the Public Finance Management Act, 1999 (Act No 1 of 1999)

[11.2#] (2) Lateral support insurance to be effected by the contractor:

No

[31.4.2#] (3) Payment will be made for materials and goods:

Yes

[40.2.2#] (4) Dispute resolution by litigation:

No

[26.1.2#] (5) Extended **defects** liability period applicable to the following elements:

- ***The whole of the electrical installation***

42.2.5 Possession of the **site** is be given on:
[15.2.1#]

Within ten (10) working days of the contractor complying with the terms of 15.1.4

Carried to Collection R

42.2.6 Period for the commencement of the **works**
[15.3] after the co**ntractor** takes possession of the site:

The contractor shall forthwith deliver his plant and material to the site and shall commence with the works in due diligence

42.2.7 The date for practical completion and the penalty per calendar day for the **works** as a **whole**:

Date:
[24.3.1] ***Within twelve (12) calendar months, exclusive of builders' holidays, after the date of site handover***

Penalty:
[30.1] ***0,05% of the tendered amount, inclusive of value added tax***

42.2.8 The date for practical completion and the penalty per calendar day for the **works** in **sections**:

Date:
[24.3.1] ***Not applicable***

Penalty:
[28.1] ***Not applicable***

42.2.9 The **law** applicable to this **agreement** shall be that of:

[1.2] ***Republic of South Africa***

42.3 INSURANCES

42.3.1 Contract works insurance:
[10.1#, 10.2#, 12.1#]
To be effected by: ***Contractor***
For the sum of: ***Tendered amount plus 20%***

42.3.2 Supplementary insurance is required:
No

42.3.3 Public liability insurance:
[11.1#, 12.1#]
To be effected by: ***Contractor***
For the sum of: ***R 10 000 000-00***
With a deductible of: ***Not exceeding 5% of each and every claim***

42.3.4 Support insurance to be effected by the employer:
[11.2#, 12.1#] ***Not applicable***

Carried to Collection R

42.4 DOCUMENTS

42.4.1 *[3.3, 15.1.3, 31.16.2#]* Waivers of contractor's lien or right of continuing possession is required:

Not applicable (No clause)

42.4.2 Construction document copies to be supplied to the **contractor** free of charge:

[3.7] ***Three (3) copies of the construction documents***

42.4.3 **Bills of quantities/Lump sum document** schedule of rates drawn up in accordance with:

Standard System of Measuring Building Work (Sixth edition as amended)

42.4.4 On acceptance of the tender the **bills of quantities** is to be submitted:

[15.1.1] ***Not applicable (No clause)***

42.4.5 *[3.4]* **JBCC** Engineering General Conditions are to be included in the **contract documents**:

No

42.4.6 The **contract value** is to be adjusted using **CPAP** *[31.5.3]* indices:

Yes

Base month: ***Tender closing date***

[32.13] Where **CPAP** is applicable, the **contract sum** swill be adjusted in accordance with the **JBCC** Contract Price Adjustment Provisions (**CPAP**) as set out in the **CPAP** Indices Application Manual as prepared by the **JBCC** Series 2000, code 2118, dated May 2005 and any amendments thereto:

1) Glass, etc. measured in specialist section Metalwork, will be adjusted in terms of the index for that work group unless specifically stated otherwise in the bills of quantities

2) All electrical installations in buildings and power distribution systems shall be adjusted in terms of the index Work Group 160, Electrical Installations. Uninterruptible power supplies, elevators, escalators and hoists, generating sets, motor-alternator sets and intercommunication systems, shall be adjusted in terms of the index Work Group 170, Mechanical Services

3) With reference to Work Group 190 a proportion of the value related preliminaries, pro-rata to the amount of work excluded from adjustment, shall be excluded from Contract Price Adjustment Provisions if Option A has been selected for the adjustment of preliminaries

Carried to Collection R

4) Further to clause 3.4.4 of the CPAP Indices Application Manual, the listing of additional items for exclusion by tenderers will not be permitted

5) Where V results in a negative amount after application of the formula in clause 8.3 of the CPAP Indices Application Manual, the factor of 0,55 shall be substituted by 1,45

Alternative Indices: ***Not applicable***

42.4.7 *[3.10]* Details of changes made to the provision of **JBCC** standard documentation:

Note: ***The amended clauses, with relevant item and page reference numbers, are scheduled hereunder. Refer to each applicable clause for the exact extent of amendments and/or additions made***

12.0 SCHEDULE OF VARIABLES

This **schedule** contains all the elections and details required to be made by the **employer** and **contractor** in terms of these **preliminaries**. Spaces provided for the insertion of information must be filled in, shown as an annexure or not applicable or deleted and not left blank. Where insufficient space is provided the information should be annexed hereto and cross referenced to the applicable clause of the **schedule**. Key cross reference clauses are italicised in *[ ]* brackets

Where information required is detailed in bills of quantities, its repetition is not required in this schedule. The schedule items should then be marked "see Bills of Quantities" and not deleted or left blank

The schedule is divided into pre-tender and post-tender sections. The pre-tender section must be completed in full and included in the tender documents. The post-tender section is to be completed by the principal agent according to the elections made by the contractor

12.1 PRE-TENDER INFORMATION

12.1.1 ***Provisional bills of quantities [B2.2]***

The quantities are provisional:

No

12.1.2 ***Availability of construction documentation [B2.3]***

Construction documentation is complete:

Yes

12.1.3 ***Interest of agents [B2.4]***

Non

12.1.4 ***Defined works area [B3.1]***

The area of the works to be occupied by the contractor, any restrictions on the area and the limit of access or exit, if any, will be pointed out to the contractor on the date possession of the site is given

12.1.5 ***Geotechnical investigation [B3.2]***

A geotechnical report is available. The contractor is urged to contact the Principal Agent should a copy of this report be required

The contractor is, however, still urged to inspect the site and thoroughly acquaint himself with the local conditions, the height of the water table, etc

12.1.6 ***Existing premises occupied [B3.4]***

Not applicable

Carried to Collection R

12.1.7 **Previous work - dimensional accuracy *[B3.5]***

Not applicable

12.1.8 ***Previous work - defects [B3.6]***

Not applicable

12.1.9 ***Services - known [B3.7]***

All known existing services will be pointed out on site by the principal agent on the date possession of the site is given

Care must be taken not to damage any of the existing services on site as any damage in this regard will be for the account of the contractor. In the event of any such damage, it will be expected from the contractor to notify the principal agent at once in writing and to rectify/repair and make good such damage within twenty four (24) hours of the occurrence of the event to the full satisfaction of the principal agent

12.1.10 ***Protection of trees [B3.9]***

The contractor is to ensure at all times that,
under no circumstances adjacent indigenous vegetation, trees,
etc. are being damaged as a result from the construction
activities and/or actions by his personnel

Prior approval is to be obtained from the
principal agent for the removal of any tree should
it be required due to the positioning of the
buildings on the site and/or other construction
work to be executed

12.1.11 ***Inspection of adjoining properties [B3.11]***

Not applicable

12.1.12 ***Enclosure of the works [B6.2]***

Not applicable

12.1.13 ***Offices [B6.4.3]***

The contractor shall provide, maintain and remove on completion of the works an office for the exclusive use for meetings to be held on site. The minimum size of the office shall be 4 x 4 x 2,70m high internally with concrete floor, insulated ceiling and roof. The office shall be suitably ventilated, equipped with electric lighting and fitted with table, six (6) chairs, one (1) pining board 2,40 x 1,20m high, one (1) writing board 2,40 x 1,20m high and a set of ten (10) aluminium "Ozafile" drawing hangers complete with stand. The office shall be kept clean and fit for use at all times

Carried to Collection R

12.1.14 ***Main notice board [B6.5]***

The contractor shall provide, erect where directed, maintain and remove on completion of the works a notice board size 3 x 3m high, constructed of suitable boarding with flat smooth surface on a suitable square tubular steel sub-frame and fixed to and including a suitable supporting structure of timber or tubular posts and braces

The exact extent of the details, colour scheme and wording will be provided by the principal agent on the day of the site handover

12.1.15 ***Sub-contractors' notice board [B6.6]***

A notice board is required:

No

12.1.16 ***Water [B7.2]***

Alternative selected: ***A***

12.1.17 ***Electricity [B7.3]***

Alternative selected: ***A***

12.1.18 ***Telecommunications [B7.4]***

Alternative selected: ***A***

12.1.19 ***Ablution facilities [B7.5]***

Alternative selected: ***A***

12.1.22 ***Protection of existing/sectionally occupied works [B11.2]***

Protection is required:

No

12.1.21 ***Special attendance [B9.2]***

Special attendance shall, without in any way limiting the meaning and interpretation thereof, include the following general services to be rendered by the contractor to all nominated and/or selected sub-contractors or other contractors engaged by the employer:

1. ***Making good after nominated and/or selected sub-contractors and other contractors***

2. ***Co-ordinating the main contract work with that of the nominated and/or selected sub-contractors and other contractors***

12.1.22 ***Protection of the works [B11.1]***

Not applicable

Carried to Collection R

12.1.23 ***Disturbance [B11.5]***

Not applicable

12.2 POST-TENDER INFORMATION

*(*Delete the not elected option)*

12.2.1 ***Payment of preliminaries [B10.2]***

- Option A (prorated):

****Yes/*No***

- Option B (calculated):

****Yes/*No***

12.2.2 ***Adjustment of preliminaries [B10.3]***

- Option A (three categories):

****Yes/*No***

- Option B (detailed breakdown):

****Yes/*No***

12.2.3 ***Additional agreed preliminaries items***

RAMUSHASHA PRIMARY SCHOOL

SECTION C: SPECIFIC PRELIMINARIES

Section C contains specific preliminary items which apply to this contract except where "NOT APPLICABLE" appears against an item

104 **Clause C1.1 - Contract drawings**

For contract based on a **bills of quantities:**

Save for the drawings included in the "Supplementary Information" section (which is bound at the back of this document), no other drawings are issued with the tender documents. A complete set of drawings indicating the exact scope of the work can be viewed, during normal office hours, at the offices of the **principal agent**. The tenderer is urged to thoroughly inspect and acquaint himself with the nature and extent of the **works,** as defined on the drawings, and the manner in which they are to be executed

Should any part of the drawings not be clearly understood by the tenderer, he shall, before submitting his tender, obtain clarification in writing from the **principal agent**

Fixed	Item
Value Related	Item
Time Related	Item

105 **Clause C1.2 - Contract drawings**

For a contract based on a **lump sum document:**

A full set of drawings is issued with the tender documents indicating the full scope of the work to enable the tenderer to acquaint himself with the nature and extent of the **works** and the manner in which they are to be executed

Should any part of the drawings not be clearly understood by the tenderer he shall, before submitting his tender, obtain clarification in writing from the **principal agent**

Fixed	Item
Value Related	Item
Time Related	Item

106 **Clause C2 - General preambles**

The document "Specification of Materials and Methods to be used (PW371)" is obtainable on request from the head office and all regional offices of the Department, and shall be read in conjunction with the **bills of quantities/lump sum document** and be referred to for the full descriptions of work to be done and materials to be used

MASONRY

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

BRICKWORK

Sizes in descriptions

Where sizes in descriptions are given in brick units, "one-brick" shall represent the length and "half-brick" the width of a brick

Hollow walls etc

Descriptions of hollow walls shall be deemed to include leaving every fifth perpend of the bottom course of the external skin open as a weep hole.

Walls in two skins described as "bagged and sealed" shall be deemed to include having the outer face of the inner skin bagged with 1:6 cement and sand mixture and sealed with two coats "Brixeal" bitumen emulsion waterproofing coating.

User note: The above preamble generally applies for works in hot and humid coastal areas

Face bricks

Bricks shall be ordered timeously to obtain uniformity in size and colour

	Carried to Collection	R	

Pointing

Descriptions of recessed pointing to fair face brickwork and face brickwork shall be deemed to include square recessed, hollow recessed, weathered pointing, etc

SAMPLES

Samples of all masonry building units, except those for walls units. Samples of building units to be used in walls described as "load bearing" shall consist of 30 units from every 30 000 units delivered to site described as "load bearing", shall consist of a minimum of 6

FOUNDATIONS

Brickwork in approved NFP hard burnt clay bricks (14MPa nominal compressive strength) in class I mortar:

1	One brick walls	m2	21.00	
2	One brick walls in pit	m2	58	
3	Half brick corbelling in pit	m	29.00	

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

4	Extra over brickwork for face brickwork in foundation	m2	11.00	

SUPERSTRUCTURE

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

5	Half brickwork for face brick walls pointed both sides	m3	20	
6	One brickwork for face brick walls pointed both sides	m2	117	
7	Extra over brickwork for face brickwork in beamfilling	m2	30	
8	Fair raking and cutting	m	10

ROOF COVERINGS

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

Fixing

Items described as "nailed" shall be deemed to be fixed with hardened steel nails or pins, or to be shot-pinned, to brickwork or concrete

Items described as "plugged" shall be deemed to include screwing to fibre, plastic or metal plugs at not exceeding 500mm centres, and where described as "bolted", the bolts have been given elsewhere

Ceilings

Unless otherwise described ceilings shall be deemed to be horizontal

Bulkheads

Bulkheads are defined as those portions of ceilings which are stepped down from the general ceiling level in a particular room or area and which generally occur along the perimeter. Their purpose is either to conceal services or to create architectural features

Bulkheads have only been described as such where they conform to the above definition and where the horizontal or vertical dimensions do not exceed 900mm. Where these dimensions are more than 900mm such portions of ceilings have been included in the appropriate general items of ceilings

Unless otherwise described bulkheads shall be deemed to be horizontal along the length

	Carried to Collection	R	

	Steel components				
	All steel components for ceilings, partitions, etc are to be galvanised in accordance with SANS 121				
	PROFILED METAL SHEETING AND ACCESSORIES				
	Roof covering with pitch not exceeding 25 finish fixedto timber purlins (elsewhere)

PLUMBING AND DRAINAGE (PROVISIONAL)

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

PVC pipes and fittings

Sewer and drainage pipes and fittings shall be jointed and sealed with butyl rubber rings

Soil, waste and vent pipes and fittings shall be solvent weld jointed

Copper pipes

Pipes shall be hard drawn and half-hard pipes of the class stated. Class 0 (thin walled hard drawn) pipes shall not be bent. Fittings to copper waste, vent and anti-syphon pipes, capillary solder fittings and compression fittings shall be "Cobra Watertech" type. Capillary solder fittings shall comply with ISO 2016

Excavations

Prices for all excavations must include for necessary staging and for the risk of collapse of excavation side and also keeping excavations free from water

	Carried to Collection		R	

COMPACTING

Where filling is described as:

- filling in general:

  "compacted" shall mean compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes described as "under solid floors, etc.,":

  "compacted" shall mean approved backfilling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes where described as "under roads, paving, etc.,":

  "compacted" shall mean approved gravel back filling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

Stainless steel basins, sinks, wash troughs, urinals, etc.

Stainless steel for urinals, basins, quality sinks, wash troughs, institutional equipment, etc. shall be type 304 (18/8)

Waste unions

Descriptions of waste unions shall be deemed to include rubber or vulcanite plugs and chains fixed to fittings

Sealing of all joints

Sanitary fittings to be sealed watertight with an approved silicon sealant along all junctions with walls, tiled surfaces, vanity slabs, work tops, etc.

ENVIRO-LOO TOILET SYSTEMS

1	Erect "Enviroloo" set up and fixed complete as per manufacturers instruction (This item allows for the installation of the Enviroloo system only)	No	5

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

BRICKWORK

Sizes in descriptions

Where sizes in descriptions are given in brick units, "one-brick" shall represent the length and "half-brick" the width of a brick

Hollow walls etc

Descriptions of hollow walls shall be deemed to include leaving every fifth perpend of the bottom course of the external skin open as a weep hole.

Walls in two skins described as "bagged and sealed" shall be deemed to include having the outer face of the inner skin bagged with 1:6 cement and sand mixture and sealed with two coats "Brixeal" bitumen emulsion waterproofing coating.

User note: The above preamble generally applies for works in hot and humid coastal areas

Face bricks

Bricks shall be ordered timeously to obtain uniformity in size and colour

	Carried to Collection	R	

Pointing

Descriptions of recessed pointing to fair face brickwork and face brickwork shall be deemed to include square recessed, hollow recessed, weathered pointing, etc

SAMPLES

Samples of all masonry building units, except those for walls units. Samples of building units to be used in walls described as "load bearing" shall consist of 30 units from every 30 000 units delivered to site described as "load bearing", shall consist of a minimum of 6

FOUNDATIONS

Brickwork in approved NFP hard burnt clay bricks (14MPa nominal compressive strength) in class I mortar:

1	One brick walls	m2	21.00	
2	One brick walls in pit	m2	58	
3	Half brick corbelling in pit	m	29.00	

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

4	Extra over brickwork for face brickwork in foundation	m2	11.00	

SUPERSTRUCTURE

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

5	Half brickwork for face brick walls pointed both sides	m3	20	
6	One brickwork for face brick walls pointed both sides	m2	117	
7	Extra over brickwork for face brickwork in beamfilling	m2	30	
8	Fair raking and cutting	m	10

ROOF COVERINGS

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

Fixing

Items described as "nailed" shall be deemed to be fixed with hardened steel nails or pins, or to be shot-pinned, to brickwork or concrete

Items described as "plugged" shall be deemed to include screwing to fibre, plastic or metal plugs at not exceeding 500mm centres, and where described as "bolted", the bolts have been given elsewhere

Ceilings

Unless otherwise described ceilings shall be deemed to be horizontal

Bulkheads

Bulkheads are defined as those portions of ceilings which are stepped down from the general ceiling level in a particular room or area and which generally occur along the perimeter. Their purpose is either to conceal services or to create architectural features

Bulkheads have only been described as such where they conform to the above definition and where the horizontal or vertical dimensions do not exceed 900mm. Where these dimensions are more than 900mm such portions of ceilings have been included in the appropriate general items of ceilings

Unless otherwise described bulkheads shall be deemed to be horizontal along the length

	Carried to Collection	R	

Steel components

All steel components for ceilings, partitions, etc are to be galvanised in accordance with SANS 121

PROFILED METAL SHEETING AND ACCESSORIES

Roof covering with pitch not exceeding 25 finish fixedto timber purlins (elsewhere)

1	Roof covering with pitch not exceeding 25 degrees	m2	86

Sundries:

2	12" Thermal resistance sisalition laid on purlins	m2	86

RAINWATER DISPOSAL

Aluzink seamless metal gutters:

3	100 x 100 x 0.6mm Standard rainwater gutters fixed with gutters brackets	m	14
4	Extra over for closed ends	No	4
5	75 x 100 x 0.6mm Thick galvanised rainwater downpipes fixed to wall	m	5
6	Extra over rainwater pipe for eaves offset	No	4
7	Ditto, for shoe	No	2

PLUMBING AND DRAINAGE (PROVISIONAL)

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

PVC pipes and fittings

Sewer and drainage pipes and fittings shall be jointed and sealed with butyl rubber rings

Soil, waste and vent pipes and fittings shall be solvent weld jointed

Copper pipes

Pipes shall be hard drawn and half-hard pipes of the class stated. Class 0 (thin walled hard drawn) pipes shall not be bent. Fittings to copper waste, vent and anti-syphon pipes, capillary solder fittings and compression fittings shall be "Cobra Watertech" type. Capillary solder fittings shall comply with ISO 2016

Excavations

Prices for all excavations must include for necessary staging and for the risk of collapse of excavation side and also keeping excavations free from water

	Carried to Collection		R	

COMPACTING

Where filling is described as:

- filling in general:

  "compacted" shall mean compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes described as "under solid floors, etc.,":

  "compacted" shall mean approved backfilling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes where described as "under roads, paving, etc.,":

  "compacted" shall mean approved gravel back filling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

Stainless steel basins, sinks, wash troughs, urinals, etc.

Stainless steel for urinals, basins, quality sinks, wash troughs, institutional equipment, etc. shall be type 304 (18/8)

Waste unions

Descriptions of waste unions shall be deemed to include rubber or vulcanite plugs and chains fixed to fittings

Sealing of all joints

Sanitary fittings to be sealed watertight with an approved silicon sealant along all junctions with walls, tiled surfaces, vanity slabs, work tops, etc.

Carried to Collection R

MASONRY

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

BRICKWORK

Sizes in descriptions

Where sizes in descriptions are given in brick units, "one-brick" shall represent the length and "half-brick" the width of a brick

Hollow walls etc

Descriptions of hollow walls shall be deemed to include leaving every fifth perpend of the bottom course of the external skin open as a weep hole.

Walls in two skins described as "bagged and sealed" shall be deemed to include having the outer face of the inner skin bagged with 1:6 cement and sand mixture and sealed with two coats "Brixeal" bitumen emulsion waterproofing coating.

User note: The above preamble generally applies for works in hot and humid coastal areas

Face bricks

Bricks shall be ordered timeously to obtain uniformity in size and colour

	Carried to Collection	R	

Pointing

Descriptions of recessed pointing to fair face brickwork and face brickwork shall be deemed to include square recessed, hollow recessed, weathered pointing, etc

SAMPLES

Samples of all masonry building units, except those for walls units. Samples of building units to be used in walls described as "load bearing" shall consist of 30 units from every 30 000 units delivered to site described as "load bearing", shall consist of a minimum of 6

FOUNDATIONS

Brickwork in approved NFP hard burnt clay bricks (14MPa nominal compressive strength) in class I mortar:

1	One brick walls	m2	12.00	
2	One brick walls in pit	m2	36	
3	Half brick corbelling in pit	m	18.00	

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

4	Extra over brickwork for face brickwork in foundation	m2	6.00	

SUPERSTRUCTURE

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

5	Half brickwork for face brick walls pointed both sides	m3	19	
6	One brickwork for face brick walls pointed both sides	m2	85	
7	Extra over brickwork for face brickwork in beamfilling	m2	21	
8	Fair raking and cutting	m	10	

Carried to Collection R

ROOF COVERINGS

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

Fixing

Items described as "nailed" shall be deemed to be fixed with hardened steel nails or pins, or to be shot-pinned, to brickwork or concrete

Items described as "plugged" shall be deemed to include screwing to fibre, plastic or metal plugs at not exceeding 500mm centres, and where described as "bolted", the bolts have been given elsewhere

Ceilings

Unless otherwise described ceilings shall be deemed to be horizontal

Bulkheads

Bulkheads are defined as those portions of ceilings which are stepped down from the general ceiling level in a particular room or area and which generally occur along the perimeter. Their purpose is either to conceal services or to create architectural features

Bulkheads have only been described as such where they conform to the above definition and where the horizontal or vertical dimensions do not exceed 900mm. Where these dimensions are more than 900mm such portions of ceilings have been included in the appropriate general items of ceilings

Unless otherwise described bulkheads shall be deemed to be horizontal along the length

	Carried to Collection	R	

Steel components

All steel components for ceilings, partitions, etc are to be galvanised in accordance with SANS 121

PROFILED METAL SHEETING AND ACCESSORIES

Roof covering with pitch not exceeding 25 finish fixedto timber purlins (elsewhere)

1	Roof covering with pitch not exceeding 25 degrees	m2	50	

Sundries:

2	12" Thermal resistance sisalition laid on purlins	m2	50	

RAINWATER DISPOSAL

Aluzink seamless metal gutters:

3	100 x 100 x 0.6mm Standard rainwater gutters fixed with gutters brackets	m	8	
4	Extra over for closed ends	No	4	
5	75 x 100 x 0.6mm Thick galvanised rainwater downpipes fixed to wall	m	5	
6	Extra over rainwater pipe for eaves offset	No	4

SECTION 4

BILL NO 10

PLUMBING AND DRAINAGE (PROVISIONAL)

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

PVC pipes and fittings

Sewer and drainage pipes and fittings shall be jointed and sealed with butyl rubber rings

Soil, waste and vent pipes and fittings shall be solvent weld jointed

Copper pipes

Pipes shall be hard drawn and half-hard pipes of the class stated. Class 0 (thin walled hard drawn) pipes shall not be bent. Fittings to copper waste, vent and anti-syphon pipes, capillary solder fittings and compression fittings shall be "Cobra Watertech" type. Capillary solder fittings shall comply with ISO 2016

Excavations

Prices for all excavations must include for necessary staging and for the risk of collapse of excavation side and also keeping excavations free from water

	Carried to Collection		R	

COMPACTING

Where filling is described as:

- filling in general:

  "compacted" shall mean compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes described as "under solid floors, etc.,":

  "compacted" shall mean approved backfilling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes where described as "under roads, paving, etc.,":

  "compacted" shall mean approved gravel back filling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

Stainless steel basins, sinks, wash troughs, urinals, etc.

Stainless steel for urinals, basins, quality sinks, wash troughs, institutional equipment, etc. shall be type 304 (18/8)

Waste unions

Descriptions of waste unions shall be deemed to include rubber or vulcanite plugs and chains fixed to fittings

Sealing of all joints

Sanitary fittings to be sealed watertight with an approved silicon sealant along all junctions with walls, tiled surfaces, vanity slabs, work tops, etc.

Carried to Collection R

	SANITARY FITTINGS				
	"Vaal Sanitaryware" vitreous china wash hand basins and pedestals:				
1	455 x 290mm 'Bantam' white vitreous china cloakroom basin (product code 7030) with two tapholes including integrated overflow and chainstay hole, bolted to wall with two 10mm bolts(product code 8448Z0).	No	4		
	"Vaal Sanitaryware" vitreous china WC suites:				
2	"Protea" semi-close coupled white vitreous china WC suite (product code 751453) comprising 90 outlet open rim washdown pan and 9-litre low level cistern (product code 710532), complete with heavy duty double flap toilet seat	No	3		
3	"Protea" Paraplegic white vitreous china floor mounted WC pan (product code 750200) and 9-litre low level cistern (code710631), complete with side-flush lever mounted on wall adjacent to cistern	No	1		
4	Supply and install heavy duty double flap toilet seat	No	4		
	"Vaal Sanitaryware" vitreous china urinals:				
5	Lavatera white vitreous china wall mounted top inlet urinal (product code 705426) including 38mm chromium plated domical grating (product code 8787) and chromium plated top inlet spreader (product code 7041Z0) and exposed flush valve(elsewhere measured), fitted on and including two hanger brackets (product code 8127Z0) plugged and screwed to wall	No	3

MASONRY

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

BRICKWORK

Sizes in descriptions

Where sizes in descriptions are given in brick units, "one-brick" shall represent the length and "half-brick" the width of a brick

Hollow walls etc

Descriptions of hollow walls shall be deemed to include leaving every fifth perpend of the bottom course of the external skin open as a weep hole.

Walls in two skins described as "bagged and sealed" shall be deemed to include having the outer face of the inner skin bagged with 1:6 cement and sand mixture and sealed with two coats "Brixeal" bitumen emulsion waterproofing coating.

User note: The above preamble generally applies for works in hot and humid coastal areas

Face bricks

Bricks shall be ordered timeously to obtain uniformity in size and colour

	Carried to Collection	R	

Pointing

Descriptions of recessed pointing to fair face brickwork and face brickwork shall be deemed to include square recessed, hollow recessed, weathered pointing, etc

SAMPLES

Samples of all masonry building units, except those for walls units. Samples of building units to be used in walls described as "load bearing" shall consist of 30 units from every 30 000 units delivered to site described as "load bearing", shall consist of a minimum of 6

FOUNDATIONS

Brickwork in approved NFP hard burnt clay bricks (14MPa nominal compressive strength) in class I mortar:

1	One brick walls	m2	20.00	
2	One brick walls in pit	m2	41	
3	Half brick corbelling in pit	m	20.00	

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

4	Extra over brickwork for face brickwork in foundation	m2	10.00	

SUPERSTRUCTURE

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

5	Half brickwork for face brick walls pointed both sides	m3	38	
6	One brickwork for face brick walls pointed both sides	m2	127	
7	Extra over brickwork for face brickwork in beamfilling	m2	32	
8	Fair raking and cutting	m	10

ROOF COVERINGS

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

Fixing

Items described as "nailed" shall be deemed to be fixed with hardened steel nails or pins, or to be shot-pinned, to brickwork or concrete

Items described as "plugged" shall be deemed to include screwing to fibre, plastic or metal plugs at not exceeding 500mm centres, and where described as "bolted", the bolts have been given elsewhere

Ceilings

Unless otherwise described ceilings shall be deemed to be horizontal

Bulkheads

Bulkheads are defined as those portions of ceilings which are stepped down from the general ceiling level in a particular room or area and which generally occur along the perimeter. Their purpose is either to conceal services or to create architectural features

Bulkheads have only been described as such where they conform to the above definition and where the horizontal or vertical dimensions do not exceed 900mm. Where these dimensions are more than 900mm such portions of ceilings have been included in the appropriate general items of ceilings

Unless otherwise described bulkheads shall be deemed to be horizontal along the length

	Carried to Collection	R	

	Steel components				
	All steel components for ceilings, partitions, etc are to be galvanised in accordance with SANS 121				
	PROFILED METAL SHEETING AND ACCESSORIES

PLUMBING AND DRAINAGE (PROVISIONAL)

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

PVC pipes and fittings

Sewer and drainage pipes and fittings shall be jointed and sealed with butyl rubber rings

Soil, waste and vent pipes and fittings shall be solvent weld jointed

Copper pipes

Pipes shall be hard drawn and half-hard pipes of the class stated. Class 0 (thin walled hard drawn) pipes shall not be bent. Fittings to copper waste, vent and anti-syphon pipes, capillary solder fittings and compression fittings shall be "Cobra Watertech" type. Capillary solder fittings shall comply with ISO 2016

Excavations

Prices for all excavations must include for necessary staging and for the risk of collapse of excavation side and also keeping excavations free from water

	Carried to Collection		R	

COMPACTING

Where filling is described as:

- filling in general:

  "compacted" shall mean compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes described as "under solid floors, etc.,":

  "compacted" shall mean approved backfilling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes where described as "under roads, paving, etc.,":

  "compacted" shall mean approved gravel back filling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

Stainless steel basins, sinks, wash troughs, urinals, etc.

Stainless steel for urinals, basins, quality sinks, wash troughs, institutional equipment, etc. shall be type 304 (18/8)

Waste unions

Descriptions of waste unions shall be deemed to include rubber or vulcanite plugs and chains fixed to fittings

Sealing of all joints

Sanitary fittings to be sealed watertight with an approved silicon sealant along all junctions with walls, tiled surfaces, vanity slabs, work tops, etc.

ENVIRO-LOO TOILET SYSTEMS

1	Erect "Enviroloo" set up and fixed complete as per manufacturers instruction (This item allows for the installation of the Enviroloo system only)	No	6

MASONRY

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

BRICKWORK

Sizes in descriptions

Where sizes in descriptions are given in brick units, "one-brick" shall represent the length and "half-brick" the width of a brick

Hollow walls etc

Descriptions of hollow walls shall be deemed to include leaving every fifth perpend of the bottom course of the external skin open as a weep hole.

Walls in two skins described as "bagged and sealed" shall be deemed to include having the outer face of the inner skin bagged with 1:6 cement and sand mixture and sealed with two coats "Brixeal" bitumen emulsion waterproofing coating.

User note: The above preamble generally applies for works in hot and humid coastal areas

Face bricks

Bricks shall be ordered timeously to obtain uniformity in size and colour

	Carried to Collection	R	

Pointing

Descriptions of recessed pointing to fair face brickwork and face brickwork shall be deemed to include square recessed, hollow recessed, weathered pointing, etc

SAMPLES

Samples of all masonry building units, except those for walls units. Samples of building units to be used in walls described as "load bearing" shall consist of 30 units from every 30 000 units delivered to site described as "load bearing", shall consist of a minimum of 6

FOUNDATIONS

Brickwork in approved NFP hard burnt clay bricks (14MPa nominal compressive strength) in class I mortar:

1	One brick walls	m2	15.00	
2	One brick walls in pit	m2	43	
3	Half brick corbelling in pit	m	22.00	

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

4	Extra over brickwork for face brickwork in foundation	m2	8.00	

SUPERSTRUCTURE

FACE BRICKWORK

Face bricks (purchase price of R 5000.00/1000 delivered to site excluding VAT) pointed with flush horizontal and vertical joints:

5	Half brickwork for face brick walls pointed both sides	m3	30	
6	One brickwork for face brick walls pointed both sides	m2	98	
7	Extra over brickwork for face brickwork in beamfilling	m2	24	
8	Fair raking and cutting	m	10

ROOF COVERINGS

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

Fixing

Items described as "nailed" shall be deemed to be fixed with hardened steel nails or pins, or to be shot-pinned, to brickwork or concrete

Items described as "plugged" shall be deemed to include screwing to fibre, plastic or metal plugs at not exceeding 500mm centres, and where described as "bolted", the bolts have been given elsewhere

Ceilings

Unless otherwise described ceilings shall be deemed to be horizontal

Bulkheads

Bulkheads are defined as those portions of ceilings which are stepped down from the general ceiling level in a particular room or area and which generally occur along the perimeter. Their purpose is either to conceal services or to create architectural features

Bulkheads have only been described as such where they conform to the above definition and where the horizontal or vertical dimensions do not exceed 900mm. Where these dimensions are more than 900mm such portions of ceilings have been included in the appropriate general items of ceilings

Unless otherwise described bulkheads shall be deemed to be horizontal along the length

	Carried to Collection	R	

Steel components

All steel components for ceilings, partitions, etc are to be galvanised in accordance with SANS 121

PROFILED METAL SHEETING AND ACCESSORIES

Roof covering with pitch not exceeding 25 finish fixedto timber purlins (elsewhere)

1	Roof covering with pitch not exceeding 25 degrees	m2	50	

Sundries:

2	12" Thermal resistance sisalition laid on purlins	m2	50	

RAINWATER DISPOSAL

Aluzink seamless metal gutters:

3	100 x 100 x 0.6mm Standard rainwater gutters fixed with gutters brackets	m	8	
4	Extra over for closed ends	No	4	
5	75 x 100 x 0.6mm Thick galvanised rainwater downpipes fixed to wall	m	5	
6	Extra over rainwater pipe for eaves offset	No	4	
7	Ditto, for shoe	No	2

PLUMBING AND DRAINAGE (PROVISIONAL)

PREAMBLES

The Tenderer is referred to the relevant Clauses in the separate document Model Preambles for Trades and to the Supplementary Preambles

NOTE

All prices/rates to be net, excluding Value Added Tax

SUPPLEMENTARY PREAMBLES

PVC pipes and fittings

Sewer and drainage pipes and fittings shall be jointed and sealed with butyl rubber rings

Soil, waste and vent pipes and fittings shall be solvent weld jointed

Copper pipes

Pipes shall be hard drawn and half-hard pipes of the class stated. Class 0 (thin walled hard drawn) pipes shall not be bent. Fittings to copper waste, vent and anti-syphon pipes, capillary solder fittings and compression fittings shall be "Cobra Watertech" type. Capillary solder fittings shall comply with ISO 2016

Excavations

Prices for all excavations must include for necessary staging and for the risk of collapse of excavation side and also keeping excavations free from water

	Carried to Collection		R	

COMPACTING

Where filling is described as:

- filling in general:

  "compacted" shall mean compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes described as "under solid floors, etc.,":

  "compacted" shall mean approved backfilling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

- filling for all types of pipes where described as "under roads, paving, etc.,":

  "compacted" shall mean approved gravel back filling stabilized with 5% lime and compacted to 90% Mod. AASHTO density, unless otherwise described

Stainless steel basins, sinks, wash troughs, urinals, etc.

Stainless steel for urinals, basins, quality sinks, wash troughs, institutional equipment, etc. shall be type 304 (18/8)

Waste unions

Descriptions of waste unions shall be deemed to include rubber or vulcanite plugs and chains fixed to fittings

Sealing of all joints

Sanitary fittings to be sealed watertight with an approved silicon sealant along all junctions with walls, tiled surfaces, vanity slabs, work tops, etc.

ENVIRO-LOO TOILET SYSTEMS

1	Erect "Enviroloo" set up and fixed complete as per manufacturers instruction (This item allows for the installation of the Enviroloo system only)	No	6

SECTION 8

BILL NO 1

SITE SERVICES

PREAMBLES

For preambles see "Specification of materials and methods to be used - PW 371"

SUPPLEMENTARY PREAMBLES

Supplementary preambles and full descriptions of materials, items, work, etc. applicable to Section No. 3

The Contractor is referred to Section No. 2 for supplementary preambles and full descriptions of materials, items, work, etc. which shall be regarded to be equally applicable for work described in this Bill, unless specifically otherwise described

Filling (General)

Back filling described as:

- **"filling in pipe trenches, etc."**, all backfilling shall be done with approved backfilling compacted to 93%Mod. AASHTO density, unless otherwise described

uPVC pipes and fittings

Soil, waste and vent pipes and fittings shall be solvent weld jointed

uPVC pressure pipes and fittings

Pipes for water supply shall be of the class stated

Pipes of 40mm diameter and smaller shall be plain ended with solvent welded uPVC loose sockets and fittings

Pipes of 50mm diameter and greater shall have sockets and spigots with push in type integral rubber ring joints. Bends shall be uPVC and all other fittings shall be cast iron, all with similar push-in type joints

Fixing of pipes

Unless specifically otherwise stated, descriptions of pipes shall be deemed to include fixing to walls etc, casting in, building in or suspending not exceeding 1m below suspension level

Carried to Collection		R	

Section No 8
SITE SERVICES
Bill No 1
SITE SERVICES
RAMUSHASHA PRIMARY SCHOOL

Reducing fittings

Where fittings have reducing ends or branches they are described as "reducing". In the case of pipes with diameters not exceeding 60mm only the largest end or branch size is given. Should the contractor wish to use other fittings and bushes or reducers he may do so on the understanding that no claim in this regard will be entertained. In the case of pipes with diameters exceeding 60mm all sizes are given and no claim for extra bushes, reducers, etc will be entertained

Exposed concrete surfaces

Exposed surfaces of concrete stormwater channels, cover slabs, inspection eye marker slabs, gulley tops, cleaning eye tops, catchpits, inspection chambers, etc shall be finished smooth with plaster

Excavations

No claim for rock excavation will be entertained unless the contractor has timeously notified the quantity surveyor thereof prior to backfilling

"Soft rock" and "hard rock" shall be as defined in "Earthworks"

Laying, backfilling, bedding, etc. of pipes

Pipes shall be laid and bedded and trenches shall be carefully backfilled in accordance with manufacturers' instructions

Where no manufacturers' instructions exist pipes shall be laid in accordance with clauses 5.1 and 5.2 of each of the following:

SANS 1200 L	:	Medium-pressure pipelines
SANS 1200 LD	:	Sewers
SANS 1200 LE	:	Stormwater drainage

Pipe trenches etc shall be backfilled in accordance with clauses 3, 5.5, 5.6, 5.7 and 7 of SANS 1200

SANS 1200 DB : Earthworks (Pipe trenches)

Pipes shall be bedded in accordance with clauses 3.1 to 3.4.1, 5.1 to 5.3 and 7 of SANS 1200

SANS 1200 LB : Bedding (Pipes).

Unless otherwise described bedding of rigid pipes shall be class B bedding

Carried to Collection R

Holes for pipes

Holes for pipes, cutting and fitting around pipes, the making good thereof, etc. in brick and/or concrete sidewalls of catch pits, manholes, valve chambers, etc. shall be deemed to be included in descriptions of pipework

Tendered rates must make provision for this as no additional claims in this regard will afterwards be entertained

Mixing of concrete

No hand mixing of concrete will be allowed on site

Structural steel

Descriptions of bolts shall be deemed to include nuts and washers

Descriptions of L-shaped and U-shaped anchor bolts shall be deemed to include bending, threading, nuts and washers and embedding in concrete

All structural steel to be painted with one coat red oxide metal primer before delivery to site

SECTION 9

PROVISIONAL SUMS

NOTE

All prices/rates to be net, excluding Value Added Tax

CASH DISCOUNT

No cash discount. All provisional sums are "NET"

GENERAL

The following provisional sums are for work to be executed under separate nominated sub-contracts by firms of Specialists

All provisional sums cover the supply and installation of material, equipment, plant, etc., including the commissioning thereof, where applicable

FUEL, POWER AND WATER FOR COMMISSIONING PLANT

The cost of water, power and fuel for the commissioning of plant shall be borne by the nominated sub-contractor appointed for the relevant nominated sub-contract works in terms of the conditions under which they have/are contract for the specialist work involved

PROFIT

Provisional sums are net and do not include builder's discount. The tenderer may allow next to "Profit" items for any profit he might consider necessary

ATTENDANCE

The Tenderer may allow next to "Attendance" items for any attendance he might consider necessary and/or for the recovery of any expenses incurred by him for providing attendance to nominated sub-contractors, i.e. by means of the installation of the necessary water/power meters, etc.

The tenderer is also referred to Clause A20 in the "Preliminaries" section for the definitions and adjustment of "Attendance"

	Carried to Collection	R	

	ALL PROVISIONAL WORKS ARE SUBJECTED TO RE-MEASUREMENT AND SHALL BE PAID AS PER THE WORK DONE
