Stage 4 – Price and Specific goals

This is the final stage of the evaluation process and will be based on the PPPFA preference point system.

The tender will be evaluated in terms of the Preferential Procurement Policy Framework Act (PPPFA, Act 5 of 2000).

If it is unclear whether the 90/10 or 80/20 system applied, the preference point system to be applied will be based on the lowest acceptable tender.

1. 80/20 preference point system for acquisition of goods and services for Rand value equal to or above R2 000 and up to R50 million

   The following formula will be used to calculate the points out of 80 for price:

   Ps = 80(1-(Pt-Pm)/Pm)

   Where:

   Ps is the points scored for price of tender under consideration.

   Pt is the price of the tender under consideration; and

   Pm is the price of the lowest acceptable tender.

C3.1.1 Scope

This section provides the description of the project and the general requirements for executing the work. The work required is the routine road maintenance of the national road.

The scope of the routine road maintenance contract is for the contractor to primarily have a management role, as it is a requirement of the contract for the Contractor to facilitate the contractor development of targeted enterprises as a contract participation goal by means of subcontracting of the scheduled work to targeted enterprises as subcontractors. The Contractor is required to provide sustainable work opportunities and assistance in the form of financial support for the procurement of goods and services, to targeted enterprises. In addition, the Contractor is required to manage the skills development of targeted enterprises by providing training, coaching, guidance and mentoring.

The scope of works shall furthermore include all routine maintenance activities on SANRAL owned properties as described in each contract document book 3, pavement assessments and maintenance of the Toll Plaza, and other areas as described in section C3.1.1.

Maintenance work shall include all RRM activities, but exclude THE EQUIPMENT in the building, electrical, weighbridge at the TCC and satellite station.

Attention is drawn to clause 4.4 of the Particular Conditions of Contract which states "The procurement and appointment of all subcontractors shall follow the process as stipulated in Part D: Stakeholder and community liaison, and targeted labour and targeted Enterprises utilization and development. No subcontracting outside this process will be allowed."

Time of completion as stipulated in documents: 42 months

C3.1.1 Scope (Cont'd)

C3.1.8 ALLOWANCE FOR OTHER CONTRACTORS AND ACCOMMODATION OF OTHER CONTRACTS

In addition to the requirements of clause 4.6 of the FIDIC Conditions of Contract for Construction, 1999 the Contractor must take note of the presence of other Contractors on the site and make allowances for them on the site. This may involve adapting the Contractor's programme to accommodate the work of other Contractors and ensuring access to their sites.

Although details of such contracts are not known it may include, *inter alia*, periodic maintenance, special maintenance, rehabilitation and upgrade contracts. Depending on the scope of works for these contracts, the Contractor may be relieved of his responsibilities on the relevant section of the site during the construction period only, and this may include a reduced scope of work on performance based items where applicable.

TABLE C3.1.8/1 : PROGRAMME OF CONTRACTS

C3.1.9 PROGRAMME, RESTRICTION AND COMPLETION OF ACTIVITIES

This clause covers matters relating to the programme of work, restriction on certain maintenance activities, completion and responding time of specified activities, compliance with the specifications, and related delay damages and penalties.

Reg. No. 1998/009584/30. An agency of the Department of Transport.

BUILDING SOUTH AFRICA THROUGH BETTER ROADS

C3.1.1 Scope (Cont'd)

C3.1.9.3 Completion time of specified activities and penalties

Generally, the maintenance activities covered by this contract will be on a continuous basis. However, certain specified activities are considered to be a priority or are critical, and it is a condition of contract that they shall be completed or responded to as specified, after receiving an instruction from the Engineer.

TABLE C3.1.9/3: SPECIFIED ACTIVITY PERIODS, DELAY DAMAGES AND PENALTIES

C3.1.16 INTEGRATED TRANSPORTATION INFORMATION SYSTEM

The Employer has developed a comprehensive information management tool called ITIS (Integrated Transportation Information System) to address all facets of its strategic and tactical planning, design, construction and maintenance of the entire road network. This provides support for the management tasks of the Employer and to allow the personnel to make technical decisions more quickly and efficiently.

SANRAL

BUILDING SOUTH AFRICA THROUGH BETTER ROADS

Reg. No. 1998/009584/30. An agency of the Department of Transport.

D3001 SCOPE

Section D of the Specifications describes the structured engagement with project Stakeholders and affected Communities to the project. It also guides the selection and the enhanced utilisation and development of Targeted Labour and Targeted Enterprises.

D3001.01 Principles for Project Liaison, Targeted Enterprise Subcontracting, and Targeted Labour Sourcing in SANRAL Projects (Fourteen-Point Plan)

These principles must be applied to facilitate better project level liaison with project Stakeholders and affected Communities. In addition, these principles serve to ensure communication and transparency in the execution of the Works and to facilitate inclusivity in the allocation of projects to benefit black business and local communities.
