### 13 DATA PRIVACY AND PROTECTION

- 13.1 The Service Provider acknowledges that in providing the Services to Sentech, the Service Provider may be exposed to Sentech's Data, including Data of any of Sentech's clients and/or other third parties.
- 13.2 The Parties specifically record that all Data provided by Sentech to the Service Provider, or to which the Service Provider may be exposed, shall constitute Confidential Information and as such, the Service Provider shall comply with all the provisions of clause 10 with regard to such Data.
- 13.3 The Service Provider hereby warrants in favour of Sentech that it shall at all times strictly comply with all applicable legislation and with all the provisions and requirements of the Sentech's Data protection policies and procedures, as may be updated from time to time, and any further requirements of which Sentech may, from time to time, advise the Service Provider in writing, or which may be required by legislation, regulation or any relevant industry body, whether within the Republic of South Africa or elsewhere in the world.
- 13.4 The Service Provider hereby warrants and undertakes that it shall not, at any time copy, compile, collect, collate, process, mine, store, transfer, alter, delete, interfere with or in any other manner use Data for any purpose other than with the express prior written consent of Sentech, and to the extent necessary to provide the Services to Sentech. All data and software, including Sentech Data, provided by Sentech or accessed (or accessible) by Service Provider Staff members shall be used by such Staff members only in connection with the provision of the Services and shall not be commercially exploited by the Service Provider in any manner whatsoever.

- 13.5 The Service Provider further warrants that it shall ensure that all its systems and operations which it uses to provide the Services, including all systems on which Data is copied, compiled, collected, collated, processed, mined, stored, transmitted, altered or deleted or otherwise used as part of providing the Services, shall at all times be of a minimum standard required by law and further be of a standard no less than the standards which are in compliance with the international best practice for the protection, control and use of Data.
- 13.6 The Service Provider indemnifies and holds harmless Sentech for any loss, whether direct or indirect, arising out of a failure to process any Sentech Data in accordance with the applicable laws.

## **14 BREACH**

- 14.1 Should any Party ("the defaulting Party") commit a breach of any of the provisions of this Agreement, then the other Party ("the aggrieved Party") shall be obliged to give the defaulting Party 14 (fourteen) days' written notice or such longer period as may reasonably be required in the circumstances, to remedy the breach. If the defaulting Party fails to comply with such notice, the aggrieved Party shall be entitled to cancel this Agreement against the defaulting Party or to claim immediate payment and/or specific performance by the defaulting Party of all the defaulting Party's obligations whether or not the due date for payment and/or performance shall have arrived, in either event without prejudice to the aggrieved Party's rights to claim damages. The foregoing is without prejudice to such other rights as the aggrieved Party may have at law; provided always that, notwithstanding anything to the contrary contained in this Agreement, the aggrieved Party shall not be entitled to cancel this Agreement for any breach by the defaulting Party unless such breach is a material breach going to the root of this Agreement and is incapable of being remedied by payment in money, or if it is capable of being remedied by payment in money, the defaulting Party fails to pay the amount concerned within 14 (fourteen) days after such amount has been finally determined.

## **15 WHOLE AGREEMENT**

- 15.1 This Agreement constitutes the whole Agreement between the Parties as to the subject matter of this Agreement and no agreements; representations or warranties between the Parties other than those set out herein will be binding on the Parties.

## **16 VARIATION**

- 16.1 This agreement, including this clause, cannot be varied, added to, or cancelled by agreement otherwise than by means of a further written and signed agreement between the parties.

## 17 RELAXATION

17.1 No latitude, extension of time or other indulgence which may be given or allowed by either Party to the other in respect of the performance of any obligation hereunder or the enforcement of any right arising from this Agreement and no single or partial exercise of any right by either Party shall under any circumstances be construed to be an implied consent by such Party or operate as a waiver of, or otherwise affect any of that Party's rights arising from this Agreement.

## 18 CESSATION

18.1 Sentech shall be entitled to cede, delegate, assign, charge, transfer or otherwise dispose of this Agreement or any rights or obligations therein in whole or in part, upon prior written notice to the Service Provider.

### **DESCRIPTION OF SERVICES**

#### **Scope of Work**

##### **I. Background**

Sentech is a state-owned company and is the largest broadcasting signal distributor in South Africa. Sentech is a licensed Electronic Communications Network Service provider in South Africa. It currently operates many telecommunication networks for Satellite, Television, Radio, Broadband services and more. As such, Sentech is a global enabler of broadcasting and digital content delivery.

Sentech's mast structures are critical for efficient and effective broadcasting signal distribution. These structures must be in good condition at all times to ensure an excellent service provision to customers and the community at large. Preventative maintenance of these assets is critical and this is carried out according to the Mast Maintenance Policy and Standard Operating Procedures (SOPs). The primary objective of carrying out maintenance on these assets is to prolong their life span; to protect the image of Sentech and also; to ensure that service to customers and the community does not get interrupted due to maintenance backlog/challenges.

Without a proper or clearly outlined maintenance approach, these assets will deteriorate and eventually collapse, thus posing a danger to Sentech employees, image and facility sharers, or any other third party. Therefore, the intention is to appoint a panel of pre-qualified service providers to render guy rope greasing services to Sentech for a period of five (5) years

While Sentech intends to appoint service providers onto the panel, it is imperative to state that Sentech promises no quantum of work to any successful bidder.

##### **2. Scope of work for Guy Rope Greasing at xxxxxxxx**

###### **Purpose**

The purpose of this work is to clean, inspect, and grease the guy ropes to ensure protection against corrosion and to maintain the structural integrity and lifespan of the tower support system.

###### **Scope of Work**

The contractor shall provide all labour, supervision, tools, equipment, materials, and transport required to carry out the guy rope greasing works.

The works shall include, but not be limited to, the following:

- Site establishment and safety compliance.
- Inspection of guy ropes, mounting blocks, and associated fittings before commencement of work.
- Removal and reinstallation of vibration dampers where necessary.
- Cleaning and scraping of existing grease and contaminants from the guy ropes.
- Safe collection and disposal of removed grease and waste materials.
- Application of approved grease/lubricant to the guy ropes using suitable greasing equipment.

- Ensuring adequate grease penetration into the rope strands and uniform surface coating.
- Inspection of guy ropes for visible defects, corrosion, wear, or damage during the greasing process.
- Reporting of any defects or abnormalities identified during the work.
- Cleaning of the work area and removal of all tools, waste, and temporary works upon completion.
- The Mast heights vary from approximately 50m to 300m.
- Guyed structures may consist of between 12 and 24 guy ropes per structure.
- The number of guy rope levels varies depending on the structure configuration, ranging from two (2) to five (5) levels of guy ropes.
- Some mast structures also include diamond stays, which shall form part of the inspection and greasing scope where applicable.

### Greasing Materials

- The recommended grease for the works is RENOLITH HH Grease (FUCHS) or an approved equivalent suitable for guy rope applications.
- Sentech reserves the right to approve or specify an alternative grease product were deemed necessary.
- Minimum grease application thickness shall be approximately 1mm over the surface of the guy rope.
- All grease and consumables used shall be suitable for the environmental conditions at the site and compatible with guy rope protection requirements.
- The contractor shall provide all necessary greasing, scraping, and application equipment required to execute the works.

### Vibration Dampers

**Anchor Blocks**

- The Contractor shall inspect all anchor blocks and replace damaged or deteriorated Denso mastic tape where required.
- The Contractor shall ensure proper sealing and adequate corrosion protection of all treated areas.
- Photographic evidence shall be taken before and after all repairs or replacements carried out.

**Protection of Infrastructure**

The Contractor shall take all necessary precautions to protect existing infrastructure during the execution of the works.

**Solar Systems**

- Protect solar panels, inverters, batteries, and associated cabling from damage and contamination.
- Install suitable protective coverings where required.
- Prevent grease contamination on any solar infrastructure.
- No tools, materials, or equipment shall be placed on solar panels or associated infrastructure.
- Any damage caused to infrastructure shall be for the Contractor's account.

**Battery Rooms**

- No grease, contaminants, or foreign materials shall be allowed inside battery rooms or electrical enclosures.

**Environmental Protection**

- Prevent grease spills and environmental contamination at all times.
- No dumping of grease, waste materials, or foreign substances shall be permitted on site.
- Remove all waste materials from site and dispose of them at approved disposal facilities.
- The Contractor shall be liable for any environmental damage caused during the execution of the works.

**Safety Requirements**

- The Contractor shall comply with all applicable Occupational Health and Safety requirements and site-specific safety regulations.
- A complete Safety File shall be submitted within seven (7) days of appointment. Delays beyond this period may result in cancellation of the Purchase Order.
- No work shall commence until the Safety File has been reviewed and approved.

**The OHSE File shall include, but not be limited to, the following:**

**OHSE Policy**

- Signed Occupational Health, Safety and Environmental Policy Statement.

**Legal Appointments**

Copies of all applicable legal appointments and supporting competency/training records, including:
