## 1. INTRODUCTION

The Department of Sport, Arts and Culture (DSAC) is seeking to appoint a Service Provider to design and monitor construction of a protective covering for the roof and the sides of the building; “The Bombed Clinic”, at the Mama Winnie Madikizela-Mandela Memorial Project in Brandfort Town, Majwemasweu Township, Masilonyana Local Municipality, Free State Province. The Service Provider will also be required to compile an interpretation of the building and its history to be utilized during operation of the facility.

## 2. BACKGROUND

Mama Winnie Madikizela-Mandela is a South African activist and politician who has held several government positions and headed the African National Congress Women's League. She was a member of the ANC's National Executive Committee.

Due to her political activities, Mama Winnie was regularly detained by the South African government. She was tortured, subjected to house arrest, kept under surveillance, held in solitary confinement for over a year and banished to a remote town. She emerged as a leading opponent of apartheid during the later years of her husband's imprisonment (August 1963 — February 1990). She was married to Nelson Mandela for 38 years, including 27 years during which he was imprisoned. For many of those years, she was exiled to the town of Brandfort in the Orange Free State (Free State) and confined to the area, except for the times she was allowed to visit her husband at the prison on Robben Island.

Mama Winnie Madikizela-Mandela was banished to Brandfort from 1977 to 1985. As a social worker, she established a clinic to serve the poor community that she had become a part of. The Clinic was bombed twice, first in 1985 and then in 1987. Today, only the roof the damaged sides of the wall remain. These remains of “The Bombed Clinic” are a poignant reminder of the ferocity of state violence directed at Mama Winnie Madikizela-Mandela and her work. It survives as a concrete celebration of her courage and tenacity.

The DSAC has converted the house that Mama Winnie Madikizela-Mandela had lived in, in Brandfort, into an Interpretative Centre. The Mama Winnie Madikizela-Mandela project master plan included the following:

- (i) House restoration,

- (ii) Refurbishment of the “bombed” clinic,
- (iii) Construction of the multi-purpose center, and
- (iv) Converting the house into an interpretative center.

The conversion and construction work started in May 2019 and was completed on 5 November 2019.

The DSAC requires a Service Provider to design and monitor construction of a protective covering for the bombed clinic. The purpose of the covering is to protect the surviving structure from further deterioration and to exhibit it to visitors. In addition to creating a functional protective covering for “The Bombed Clinic,” the Service Provider will also have to design an exhibition that will tell the story of the ‘Bombed Clinic’ in the context of the banishment and persecution of Mama Winnie Madikizela-Mandela.

### **3. AN INTEGRATED APPROACH [combining structure and story]**

As is the case with the main house, “The Bombed Clinic” is an ‘artifact’ of great historical importance. The Service Provider is required to

- 3.1 come up with a structural solution for the preservation and display of the remains of the original structure, and
- 3.2 integrate the exhibition elements in the structural solution. The structure is the story, and with the architectural intervention to protect it, it becomes the container of the story — displaying artifacts, showing pictures, and projecting film footage
- 3.3 The Service Provider will be required to bring an integrated approach that combines the services of:
  - (i) Civil Structural Engineer.
  - (ii) Project manager
  - (iii) Quantity surveyor
  - (iv) Architect
  - (v) Heritage Consultant/curator; and
  - (vi) Exhibition designer.

### 3.4 The Service Provider will be responsible for managing the processes of:

- (i) Initiation
- (ii) Concept
- (iii) Design development
- (iv) Design documentation
- (v) monitoring and evaluation of works (Full time supervision for estimated period of six (06) months)
- (vi) Handover
- (vii) close-out

As per the Framework for Infrastructure Delivery and Procurement Management (FIDPM) of National Treasury 2019.

## 4. DESCRIPTION OF WORK

To design a transparent/see-through glass wall cover structure that is 10m long; 7m wide (covering all four sides); 5m in height. The glass wall to be with supporting steel/aluminum columns, to be of minimum thickness of 25mm, durable, high strength and able to with stand extreme external weather and wind conditions. The Parts of the glass wall to accommodate exhibition interpretative arts. The covering must include a roof covering, the new installed roof must cater for 10m length and 7m wide structure and must cover the existing roof of the bombed clinic.

## 5. OBJECTIVES OF PROJECT

The project aims to obtain detailed design development and documentation to enable the appointment of the contractor for the actual construction work. The final design documentation package must incorporate the 3-D drawings, design lay-outs and estimated construction cost in a form of Bills of quantities for the proposed covering of "The Bombed Clinic Structure".
