GSM008/25

1.0 INTRODUCTION

South African Airways has a proud history of excellence, competing with many Local, Regional and International carriers, and is considered by consumers to be a premium world class airline. This is confirmed by the long list of awards the airline has received. SAA is the finest in Africa with more routes to African destinations than any other airline. This has been historically expressed through the payoff line “Bringing the world to Africa & taking Africa to the world”.

We are inspired by our unqualified belief in service excellence, integrity, accountability, quality, safety, people development and value to our shareholders.

All our business relations are guided by these values and business practice. Our business partners and suppliers are expected to uphold, promote and share the same values and vision.

The quality, price and service that we provide our customers can only be as good as what we receive from our suppliers.

We strive for continuous improvement in our critical business areas and seek to establish relationships with suppliers that are equally passionate in their quest for better quality, price and service.

Procurement Philosophy

It is the policy of SAA, when purchasing products, services and works, to follow a course of optimum value and efficiency by adopting best purchasing practices in Supply Chain Management, ensuring where possible that open and fair competition has prevailed, with due regard being had to the importance of:

- The Public Finance Management Act (PFMA) and the Preferential Procurement Policy Framework Act (PPPFA);
- Balancing the commercial viability of our business with the government of the Republic of South Africa’s development agenda of promoting Broad Based Black Economic Empowerment (BBBEE).
- Promoting, developing and supporting where practicable and within the procurement legal framework, businesses from Exempted Micro Enterprises and Qualifying Small Enterprises, that are 51% or more Black Owned.
- The promotion of domestic suppliers and where purchases are from abroad, fostering development of local suppliers in accordance with the government’s developmental objectives and policies applicable to certain designated sectors.
- The development, promotion and support for the moral values that underpin the above, in terms of SAA’s Business Ethics and Guidelines which requires that all commercial conduct be based on ethical and moral values and sound business practice. This value system governs all commercial behaviour within SAA.
