## PART 4: SITE INFORMATION

Core clause 11.2(16) states

“Site Information is information which

- describes the Site and its surroundings and
- is in the documents which the Contract Data states it is in.”

In Contract Data, reference has been made to this Part 4 of the contract for the location of Site Information.

### 1. General description

The Site of the *works* is on the farms Roodekoppies 67HS and Witkoppies 81HS approximately 15 km south-west of Amersfoort on the road number 979 (now de-proclaimed) from Amersfoort to Beechwick, in Mpumalanga.

#### 1.1 Road Access

The *Contractor* is advised of a surfaced link road linking Routes P97-1 with P26-1 and passing just north of the Majuba rail terminal.

From **Standerton**, take the national route R23 (P4-6) to Perdekop, the P97-1 towards Amersfoort, turning off right onto the link road 12 km before Amersfoort.

## GCD OFFICES ROOF CANOPY AND MISCELLANEOUS WORKS PROJECT

From **Volksrust**, travel north along the P26-1 towards Amersfoort, turning left onto the link road 17.5 km before Amersfoort.

From **Amersfoort**, take the Morgenzon road west of Amersfoort, turning southwest onto the P97-1 towards Perdekop, then turning left onto the link road 12 km from Amersfoort.

## 2. Existing buildings, structures, and plant & machinery on the Site

At Majuba Power Station there is an existing GCD Park Home offices which are utilised by the Majuba Project Team.

The other area where work will take place is at the vicinity of Transfer House E near the Ash Dam.

The *Contractor* shall isolate the area of their work through barricading the site for the Works which will be performed in a barricaded area and all access to and from the area will be controlled by the *Contractor*.

## 3. Subsoil information

It is necessary to assess the ground before digging. There are no specific drawings demarcating the areas that have been worked on.

## 4. Hidden services

General layout above ground as shown on drawings. The *Contractor* notes that there are underground hidden services and structures.

The *Contractor* performs his own survey to determine the location of hidden services and underground structures prior to excavations.

The *Contractor* notes that excavation permits are applicable prior to any excavation.

## 5. Other reports and publicly available information

Other reports could be made available to the *Contractor* upon request depending on availability of information. It is the *Contractor's* responsibility to source the publicly available information.
