G. CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 2 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

J. DESCRIPTION OF GOODS/SERVICES

Scope of Works for the Landfill site provision calculation

Background

The Kannaland Municipality has a (future) legal obligation to rehabilitate the landfills for which it is responsible once the sites have reached the end of their useful lives. The purpose of these landfill provisions calculations is to estimate the KLM's current and non-current liabilities associated with the future closure of the sites. Per the GRAP 19 guideline 1 a provision should be recognized when all the following criteria are met:

- An entity has a present obligation (legal or constructive) as a result of a past event;
- It is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- A reliable estimate of the amount of that obligation can be made.

In the case of landfill rehabilitation, the KLM has:

- A legal obligation to rehabilitate its landfills in terms of the National Environmental Management Waste Act (NEMWA) because of the past event of it having developed and operated the landfill;
- The rehabilitation of the landfills will require an outflow of resources in the future; and
- The regulations governing landfill closure requirements are well developed in South Africa and therefore estimating the extent and cost of closure works are possible.

Specifications

Kannaland Municipality is currently looking for a suitable service provider to assist with the following works as specified below:

To calculate the amount to be disclosed on the Financial Statements for the 2025 financial year-end for the Landfill site provisions, that includes the future closure costs of the landfills.

Technical appraisals and closure cost estimates should be taken for the following landfill sites:

- Zoar Landfill**
- Ladismith Landfill**
- Calitzdorp Landfill**
- Vanwyksdorp Landfill**

Technical information should be obtained from the relevant official, which together with prevailing legislation, regulations and guidelines should inform the calculation of the likely rehabilitation and closure costs of each site.

Provide a comprehensive report that presents the basis of these calculations and the results thereof as follows:

PART 1: Summary of the provision calculations results;

PART 2: The airspace and RUL calculations, site assessments, capping details, elemental cost estimates, base rates and financial variable determination;

PART 3: The methodology;

PART 4: Information supporting the provisions calculation and the CV of the waste management specialist.

LOCATION OF WORKS

Materials should be delivered to Kannaland Municipality in Ladismith.
