1 BACKGROUND

- 1.1 The Chief Directorate Disaster Management and Fire & Rescue Services seeks to appoint a service provider to present Scenario Based Incident Management Team (IMT) 4-day training exercise for identified teams in the Western Cape, this training exercise is to include a day of preparation prior to the exercise commencing.
- 1.2 This appointment will be to present the IMT Exercise over the next three (3) financial years at the following districts:

Financial Year	District / Area
2025/26 (Year 1)	Central Karoo / Beaufort West
2026/27 (Year 2)	Garden Route / Natures Valley
2027/28 (Year 3)	Overberg / Agulhas

- 1.3 The training will take place at a venue that will be provided, in conjunction with discussions with the relevant Chief Fire Officer of the relevant District at no expense to the successful service provider, by the host District Municipality.
- 1.4 The venue will have free Wi-Fi, air conditioning, sufficient ablution, shower facilities as well as an onsite kitchen facility for those attending the exercise. The venue is to have three large separate locations (close together), that can house the two (2) IMT's of 15 people each (large enough for the 15 individuals to break away into small groups) and a locked separate area for the instructors and cadre.
- 1.5 It would also be preferable that the venue has sufficient accommodation on site to be able to accommodate the entire exercise component of individuals namely 50 persons.

2 COURSE FORMAT

- 2.1 There will be two (2) 15 person IMT's running concurrently using the same scenario at the same venue in different allocated rooms.
- 2.2 A qualified lead instructor Incident Commander (IC) supported by an assistant instructor with either/or Planning Section Chief (PSC), Logistics Section Chief (LSC), certification will be required to present a Scenario Based Training Exercise (SBTE) as per the identified location.
- 2.3 The requirements for this course, is based on local requirements which were developed in collaboration with the Western Cape Incident Command System Working Group which represents various role players and stakeholders.
- 2.4 The City of Cape Town Fire and Rescue Services' training centre is accredited by the International Fire Service Accreditation Congress (IFSAC) training and assessment centre with QCTO accreditation.
- 2.5 IFSAC is a peer-driven, self-governing system of both fire service certification programs and higher education fire-related degree programs. The IFSAC Certificate Assembly provides accreditation to entities that certify the competency of and issue certificates to individuals who pass examinations based on National Fire Protection Association (NFPA) fire service professional qualifications and other standards approved by the Certificate Assembly Board of Governors. The IFSAC Degree Assembly accredits fire- and emergency-related academic programs at colleges and universities.
- 2.6 Therefore, any qualification certified by the City of Cape Town on behalf of IFSAC is recognised internationally. This is one of the main reasons for adopting the IFSAC standard. Fire Services in the Western Cape, which is the target audience in this case, recognising IFSAC qualifications in recruitment and promotion processes.

-
- 2.7 The Municipal Staffing Regulations published in Government Gazette 45181 on 20 September 2021 provides a framework for qualifications and skills that are needed for specific positions and include IFSAC qualifications.
- 2.8 The outcomes as provided in the requirements are clear and drafted to align to the IFSAC curriculum requirements. It certainly does not exclude any local suppliers nor disregard qualifications accredited by SAQA and the QCTO. Any qualification accredited by the latter, that complies with the IFSAC curriculum can be presented to the City of Cape Town Fire and Rescue Services' Training Section for evaluation against said standard. There are other private and institutional service providers in South Africa that also holds IFSAC accreditation, namely ETS and SAESI with a fourth one pending. The Municipal Staffing Regulations also make provision for the Recognition of Prior Learning.
- 2.9 The adoption of the IFSAC standard in the Western Cape ensures access to an Internationally recognised qualification. Quality control of all training is therefore performed locally by the City of Cape Town (also linked to QCTO) as well, and Internationally by IFSAC.
- 2.10 Seven (7) other cadres will be identified within the current partner organisations to assist the instructors. The Cadres that attended the previous year's exercise in West Coast to remain the same, the same Cadres to be utilised for all three years of this contract.
- 2.11 Four (4) evaluators will be identified by the City of Cape Town's Fire and Rescue Services.
- 2.12 Provincial Fire Service in collaboration with the City of Cape Town Fire and Rescue Services Training Evaluators will identify a competent and capable IC and PSC for each of the IMT's who will participate in the SBTE.
- 2.13 The list of candidates will be provided by the Provincial Fire Services, once a decision has been made and the list of candidates confirmed, the candidates who are placed into position specific areas are to be advised thereof prior to the

course commencing to prepare adequately, this will be the role of the Service Provider. They are to be notified at least 3 weeks prior to the course commencing.

- 2.14 The minimum qualification required by members taking part in the exercise is ICS 300 and the position specific training e.g., PSC, LSC, Operations Section Chief (OSC) Resource Unit Leader (RESL), Situational Unit Leader (SITL) etc.
- 2.15 The positions of OSC, RESL, and Air Tactical Group Supervisor (ATGS) are to be accredited by the International Fire Service Accreditation Congress (IFSAC) (The City of Cape Town under the auspices of their training centre are accredited to do IFSAC Accreditation) if they successfully meet the requirements. This would therefore be for a total of 6 individuals to be assessed. The costing for the accreditation is to be included in the quote for the exercise. All the identified participants need to have written and passed the position written assessment prior to the exercise, the Service Provider is to ensure that this is done.
- 2.16 The Service provider is to provide the necessary GO-Bags, for the Command and General Staff along with the Unit Leaders.
- 2.17 These team-based training exercises must prepare a group of individuals to function together. Participants should have completed position specific training and may have worked in these positions. The complexity level of team training may also increase commensurate with the qualifications, capabilities, and needs of the attendees. The specific positions include Command and General Staff and key subordinates such as the SITL and RESL.
- 2.18 The total number of team members in the combined exercise will be 50 (fifty) this includes students 30 (thirty), coaches/instructors 4 (four), evaluators 4 (four), 7 (seven) Coach/ Mentor/Cadres and 5 (five) client administrative support staff therefore there would be a total of 50 individuals taking part in the exercise.
- 2.19 These team training exercises must focus on building and enhancing team processes, organisation, information sharing and management, and interactions, so that the various individuals can effectively work together in an IMT environment.

- 2.20 These exercises must take the form of possible “true life” incidents/disasters that could develop, each year is to have a different scenario. The responders must learn how to react appropriately to exercise inputs; and develop required products and Incident Action Plans (IAP) while functioning in their position specific roles. Additionally, this training must stress team development and the synergy necessary to perform effectively and efficiently during a crisis.
- 2.21 The IMT SBTE is an approach to preparing an IMT for managing an incident. The activity is part training and part practical application. - 2.22 All the IMT (30) thirty members and (4) coaches/instructors, (4) evaluators, (7) Cadres and (5) support staff are required at each step of the process. (Total of 50 persons).
- 2.23 Evaluations are to be done by the coaches/evaluators, identified.
- 2.24 Certain positions in the exercise will be accredited and certified by IFSAC representatives.

2.25 The appointed Service Provider and evaluators will have to meet prior to the exercise with the 6 (six) pre-identified individuals that will be assessed, as they would have to undertake pre work for the exercise as part of their preparation for the evaluation. This is to be done at least 2 weeks prior to the actual exercise taking place.

2.28 All nominees are to bring their own laptops to the exercise and are responsible for the safekeeping of their own assets.

2.29 The Service Provider is to ensure that there are the necessary medical resources on scene at the exercise in the event of any medical emergency.

- 2.30 The training exercise is to be completed by no later than end of February every respective year.
