1. Definitions

Definition	Explanation
(Level 1) Mandatory Criteria	Mandatory criteria (gatekeepers) are ‘must meet’ criteria. This aspect of the assessment determines if the requirements as set for the mandatory tender returnable has been met, by assessing if all the mandatory documentation is included in the submission. The content of the document is not scrutinized at this level. This level is a test of responsiveness. An assessment of ‘No’ against any criterion shall technically disqualify the tenderer and shall not be further evaluated against Functional Criteria.
(Level 2) Functional Criteria	<p>Bids meeting the Mandatory Evaluation Criteria will be evaluated against the Functional Evaluation Criteria in order to allocate an evaluation result (score). This aspect of the assessment determines the compliance of the submission to specific technical criteria, by evaluating the content of the technical tender returnable.</p> <p><input type="checkbox"/> The technical criteria set for Level 2 shall be allocated scores. Final scores shall be stated in percentage terms.</p> <p><input type="checkbox"/> The submissions are assumed to have a score of 0% prior to evaluation commencement. Positive marking will apply for compliance to the stipulated criteria i.e. marks shall be added from the starting score of 0% until a final Level 2 score is achieved for that submission. Submissions achieving a score meeting or exceeding the defined threshold will be considered further.</p>
Enquiry returnable	Items stipulated in the Tender Enquiry, defined as mandatory and functional, to be submitted as part of the tender submission. Also known as evidence.

Fixed ZAR Option (Payment Method 3)

This option is available to those tenderers who are the direct importers of the goods/services for which they have tendered, but do not find Payment Methods 1A, 1B or 2 and allows tenderers to be responsible for the foreign currency and exchange rate risk. If a tenderer selects this payment method, the process is as follows:

- Eskom and the successful tender will engage, on a simultaneous basis, with their respective bankers and compare the exchange rate/s obtained. This is done to ensure that any exchange rate/s used is/are market related.
- Tenderers will be required to match or better the exchange rate/s obtained by Eskom. If the tenderer's exchange rate/s is/are more expensive than the exchange rate/s indicated by Eskom, the exchange rate/s to convert the foreign values into ZAR will be the Eskom exchange rate/s.
- Once the exchange rate/s has/have been agreed by both parties, Eskom will not be liable for any further exchange rate adjustments.

From a Commercial perspective, please take note of the following:

- The foreign currency and foreign currency amount/s that Eskom is/are at risk to, need/s to be indicated in the pricing schedule submitted as part of the tender. If the pricing schedule does not allow for it, the foreign currency and foreign currency amount/s must be indicated in a covering letter.
- The exchange rate to be used in the tender submission is the exchange rate sourced from the South African Reserve Bank on the date the tender is advertised/published.
- Due to the payments being made in ZAR, but based on an agreed exchange rate, the tenderer will be required to submit proof of importation at time of payment.

When specialist skills are required in South Africa, the local supplier will source the appropriate talent from their network of specialist companies overseas. The specialist is then brought into the country (South Africa) on one of two possible methodologies.

1) **Secondment**

In this approach, the foreign specialist retains their employment contract with their home unit (Employer overseas) but are seconded to the local company that has a contract with Eskom to work under the direction and control of the local management. Their salaries are paid to the foreign specialist by their home country and that foreign entity then invoices the local supplier (South Africa) in foreign currency for the cost relating to such employees. The invoices would typically be in Euro or GBP, this methodology is usually for short to medium term engagements.

Documents to be attached for payment:

- Commercial invoice from the specialist company
- Local invoice (South African company making use of the specialist services)
- Passport of the specialist and valid work permit
- Activity schedule signed by the contract manager.

2) **Payroll Transfer**

In this approach, the employee’s contract with the overseas employer will be suspended and the specialist takes up a local contract with the local company. The remuneration is then **ZAR** based, the overseas employer is unable to provide the foreign invoice because the employment with the specialist is suspended this methodology is usually favoured for long term engagement. There is no foreign commitment, and the contract will be in ZAR.

PART 2: EXCHANGE RATES

The tenderer shall use the exchange rate as at 12H00 on the date of the advertisement of the tender. The source of the exchange rates shall be the South African Reserve Bank (www.resbank.co.za)

Please note that the tenderer is required to submit proof of the SARB rate/s used.
