This Standard Bidding Document (SBD) must form part of all bids invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2017, the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:2011 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annex C) and E (Local Content Declaration: Supporting Schedule to Annex C)].

1. General Conditions

- 1.1. Preferential Procurement Regulations, 2017 (Regulation 8) make provision for the promotion of local production and content.
- 1.2. Regulation 8. (2) prescribes that in the case of designated sectors, organs of state must advertise such tenders with the specific bidding condition that only locally produced or manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 1.3. Where necessary, for tenders referred to in paragraph 1.2 above, a two stage bidding process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- 1.4. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) on the date of advertisement of the bid as indicated in paragraph 3.1 below.

The SABS approved technical specification number SATS 1286:2011 is accessible on [http://www.thedti.gov.za/industrial development/ip.jsp](http://www.thedti.gov.za/industrial%20development/ip.jsp) at no cost.

- 1.6. A bid may be disqualified if this Declaration Certificate and the Annex C (Local Content Declaration: Summary Schedule) are not submitted as part of the bid documentation;

2. The stipulated minimum threshold(s) for local production and content (refer to Annex A of SATS 1286:2011) for this bid is/are as follows:

<u>Description of services, works or goods</u>	<u>Stipulated minimum threshold</u>
_____	_____ %
_____	_____ %
_____	_____ %

3. Does any portion of the goods or services offered have any imported content?

(Tick applicable box)

YES	<input type="checkbox"/>	NO	<input type="checkbox"/>
-----	--------------------------	----	--------------------------

- 3.1. If yes, the rate(s) of exchange to be used in this bid to calculate the local content as prescribed in paragraph 1.5 of the general conditions must be the rate(s) published by SARB for the specific currency on the date of advertisement of the bid.

The relevant rates of exchange information is accessible on www.resbank.co.za

Indicate the rate(s) of exchange against the appropriate currency in the table below (refer to Annex A of SATS 1286:2011):

Currency	Rates of exchange

1. Background Information

Operation Sakhinzuzo is a project co-funded by EDTEA and Tongaat Hulett Sugar Ltd (THS). The main purpose of planting the cane within Operation Sakhinzuzo is to stimulate economic activity and sustainable agricultural production in rural communities. The objective of the programme is to assist small scale freehold growers, communal growers, contract farmers and cooperatives to plant 3000 ha of sugar cane within the four main THS cane catchment areas namely: Darnall, Felixton, Maidstone and Amatikulu. A subregion under Felixton Mill area was added later through motivation and exchange of letters between THS and EDTEA to include the Makhathini catchment area.

The project was planned to be implemented over 6 years which is split into 3 years of implementation (planting) and 3 years of monitoring (post implementation). A Funding Agreement (contract) was entered into on 14 March 2017 which will end in June 2023. EDTEA and THS co-funded the project in cash, with THS being specifically responsible for project management, funding the supply of seed cane, provision of all extension services to small growers and procurement and management of all contractors used in the project.

The project has an estimated value of around R74 million with the aim of supporting in excess of 200 Small Scale Growers (SSGs). The SSGs are a combination of freehold or individual growers and cooperatives that use communal land. It is estimated that more than 3481 seasonal or temporary employment opportunities will be created or saved over a ten year period through the Sakhinzuzo investment.

A project management committee (PMC) composed of EDTEA and THS meets monthly to address management issues on the project. The project is overseen by a Project Steering Committee (PSC) composed of representatives of the EDTEA, THS, the South African Sugar Association (SASA), Mill Cane/Area Committees representing the growers, the two grower organisations (SAFDA and SACGA) and SASRI. The PSC meets quarterly to receive, comment on and provide strategic oversight on the quarterly report prepared by THS.

The implementation period occurred over 4-years, with the last planting season being concluded in December 2020. The implementation phase consisted of land preparation, planting, weeding, which will later be followed by harvesting and ratoon management. The project is currently in the monitoring and evaluation phase. This phase consists of regular project management and site visits by the allocated EDTEA project manager and THS extension and management staff. Project management from THS includes ensuring the fields are harvested and deliveries are as per harvesting programme. THS also ensures that the planted fields are kept clean and weed free.

EDTEA RLED has allocated personnel who are not linked to project implementation to perform monitoring and evaluation exercises since inception of the project. Growers, contractors and TH staff have participated in various interviews. The findings of the M&E exercises are compiled into reports which are presented to the PMC and PSC meetings. The M&E exercise focused on assessing the qualitative experiences of the programme on growers, contractors and TH staff.

In addition to the M&E exercise, the project is focused on building capacity of the cooperatives. An extensive capacity needs analysis was undertaken to understand the gaps on which the training needed to focus on. The capacity building aspect has been

addressed through appointment of a consultant by THS and bringing through National Development Agency programme. The on-going training covers governance, financial management, conflict management, resource mobilisation and weed control.

The Sakhinzuzo implementation model focused on profit generation for Small Scale Growers. It is acknowledged that growing cane is input intensive and the input costs are exorbitant. So, the main motivation on the THS proposal was to provide partial grant funding for small scale growers through subsidising seedcane, fertilizer and development costs (for cooperatives only). The exception was individual growers had to cover their own land development costs, by employing labour or using own sweat equity, to encourage and reinforce commitment to the project. Lastly, it has been proven that there are more financial returns with larger plots of land, hence one of the criteria for benefiting under Sakhinzuzo was the area of planted cane. Only growers who had prior experience with growing cane and with intentions of expanding area under cane from between 10 to 30 hectares, would be considered for funding.

To date, it is reported that a total of 2644 jobs have been created/saved. The project has benefitted 287 individual or freehold growers and 24 co-operatives who have planted 3014,29 hectares (ha) of sugar cane over the past four seasons. Twelve (12) contractors have benefitted by being appointed for land preparation, planting & supply of fertiliser for cooperatives and 1 contractor for weed control.

1.2 Sub-Programme Overview

The Regional and Local Economic Development (LED) Unit was established to implement regional and local economic development initiatives that support employment opportunities and build the capacity of RLED stakeholders.

In summary the focus of RLED unit is on generating a pipeline of sustainable economic development projects that:

- create a better local economic development enabling environment,
- empower local government and other local stakeholders,
- induce business development and
- support employment creation.

The RLED sub-programme prioritises project proposals that are aligned with the provincial and national recovery plans and broader economy policy and strategy in the country. These projects have a dual focus on supporting social, informal and small entrepreneurs and local government through providing infrastructure, business training and technical advisory/facilitation support. The delivery of the sub-programme is in either through provision of technical assistance services either directly provided by the

programme or in collaboration with municipalities, tertiary education institutions and business.

1.3 The Rationale of the Project

Operation Sakhinzuzo is one of a few large scale rural development interventions that are co-funded by the EDTEA in partnership with THS. A similar large scale project that EDTEA jointly invested in prior to Sakhinzuzo was Operation Vuselela, which was a sugar cane project but with slightly different objectives from Sakhinzuzo. A lot of lessons were learnt from the socio-economic impact assessment that was conducted for Operation Vuselela, which in turn contributed to the improvement of the design and implementation of the Operation Sakhinzuzo.

The socio-economic impact assessment study will help all stakeholders involved to objectively evaluate the development model and the overall programme impacts. The findings of the study will assist both government and its social partners to determine the relevance, value, risks, benefits and its potential replication of such interventions either in the sugar industry or other economic sectors and development programmes. The study may also provide insights on the pitfalls of programme and how these may be mitigated in future similar projects. The study will enable the institutionalisation of the knowledge set developed in the project.

1.4 Purpose of the Terms of Reference

The purpose of this Terms of Reference (TOR) is to solicit the services of a service provider/s that have the expertise to conduct an independent socio-economic impact assessment for the Operation Sakhinzuzo Project. The following formula will be used to calculate the points for price:

$$P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where:

P_s = Points scored for comparative price of bid under consideration

P_t = Comparative price of bid under consideration

P_{\min} = Comparative price of lowest acceptable bid

A maximum of 20 points may be allocated to a bidder for attaining their B-BBEE status level of contributor in accordance with the table below:

Table 5: B-BBEE points allocation

B-BBEE Status Level of Contributor	Number of Points (80/20)

The points scored by a bidder in respect of the level of B-BBEE contribution will be added to the points scored for price at the participant's level.

Only bidders who have completed and signed the declaration part of the preference claim form and who have submitted a B-BBEE status level certificate issued by an accredited verification agency or a sworn affidavit will be considered for preference points at the participant's level.

8.4 Phase 4: Final Award and SLA
