

International courier specification

Request

To transport laboratory reagents from United States Department of Agriculture (USDA) Address: **1G2 Dayton Avenue Ames IA 523** to South Africa Address: **Onderstepoort Veterinary Institute, 100 old Soutpan Road, Onderstepoort, PRETORIA**. These reagents are highly sensitive to temperature fluctuations and therefore require strict cold-chain management during transportation.

The box will be 19"x17x17.

Please specify that there needs to be controlled continuous refrigerated transport for the samples, maintaining a

temperature range of 2-8 °C and the weight will be around 40 pounds as informed by the supplier
