MBD 9: CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancels a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

The facility is within 3 kilometres (10-minute drive time) reach from the CBD and the beach promenade which enjoys a high population density with significant spending power, making it a Primary Retail Catchment area of the most potential shoppers that visit the Retail area at Moses Mabhida Stadium.

The Moses Mabhida Stadium is patronized by morning joggers, cyclists, pram-pushing moms, and a host of perambulating city dwellers. The northern side of the stadium is home to a diverse offering of activities ranging from sporting and lifestyle events, retail shops, outdoor activities and attractions. This adds significant value to the tourism strategic impetus that attracts local and international markets to the City. From the northern side of the stadium closer to the Isaiah Ntshangase Road, the retail centre is visible from the Masabalala Yengwa road. General vacancy and rentals trend

Retail rentals within specific nodes in Durban remain stable with most sectors being under pressure with rentals being negotiated lower than advertised. Discussions with several agents indicate that security and general upkeep of the Durban remains a concern with a number of vacancies.

Conclusion

Moses Mabhida Stadium premises were created on the outside of the stadium, in addition to the stadium attractions, to provide entertainment and refreshment facilities for patrons visiting the Stadium. The Stadium is considered unique in terms of its nature and it also offers minimal retail shops spaces, few comparable properties were noted in the immediate vicinity to the stadium. The stadium may occasionally attract large crowds when certain activities are offered viz; Soccer Matches, Music Festivals to list a few.
