SPECIAL CONDITIONS OF CONTRACT

The Special Conditions of Contract or Project Specification apply to this contract and shall be amended as set out below.

1. DIRECTIVES

- 1.1 For the bidder's ease of reference the relevant paragraphs, which are referred to in this bid, are quoted hereunder:
- 1.2 Firm bid prices and delivery periods are preferred. The following considerations shall apply in evaluating bids with differing price and delivery conditions:
 - 1.2.1 Bidders may submit firm or non-firm prices.
 - 1.2.1.1 "Firm" prices are deemed to be the prices which, subject to the stipulations of paragraph 1.2.1.3, are only subject to adjustments in accordance with the actual increase or decrease resulting from the change, imposition, or abolition of customs or excise duty and any other duty, levy, or tax which, in terms of a law or regulation is binding upon the contractor and demonstrably have an influence on the prices of any supplies, or the rendering costs of any services, for the execution of the contract. Where different prices are bidden for different periods of the contract, the bid price applicable in respect of a particular period of the contract shall be a firm price if, as regards such period, it conforms to the preceding definition of "firm prices".
 - 1.2.1.2 "Non-firm" prices are all prices other than "firm" prices.
 - 1.2.1.3 When, after the date of bid, provisional payments are required or anti-dumping or countervailing duties are imposed or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidised import the State is not liable for any amount so required or imposed or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, the provisions of the following paragraph shall apply *mutatis mutandis*.
In cases where a price adjustment is in favour of the State such favourable difference shall on demand be paid forthwith by the contractor to the State or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he delivered or rendered or is to deliver or render in terms of the contract or any other contract or any other amount which may be due to him.
 - 1.2.1.4 Claims in respect of exchange rate fluctuations are, in the case of firm as well as non-firm prices, subject to the provisions of paragraphs 1.7.1 to 1.7.3.
 - 1.2.1.5 The Board may, where non-firm prices are offered, require that proof of labour and material costs or other factors which are specified by the bidder, must be submitted and, should the cost to his opinion not be realistic, it may be brought into consideration in the application of paragraphs 1.2.3 and 1.2.4.
 - 1.2.2 The appropriate questionnaire concerning the status of bidden prices and, if applicable, the form relating to the formula for adjusting prices, which is included in the bid documents, shall be completed in detail and submitted together with the bids.
 - 1.2.3 In comparing tenders, the prices are brought to a comparative level by deducting preferences and other benefits and adding delivery and other costs as applicable and bringing implied contract price adjustments into account.
 - 1.2.4 After comparisons have been made, the Board may in its discretion award a further preference for firm prices.

- 1.3.1 Unless the contract stipulates otherwise, the contractor shall guarantee for a period of twelve months that no faulty material or workmanship was used in the manufacture of supplies or in the execution of services and that the finish is not defective. Should the guarantee not be complied with, the State may, without prejudice to any other rights it may have, demand that the supplies are replaced and the services repaired without cost to the State.
- 1.3.2 The period of guarantee shall commence on the date of receipt of the supplies by, or handing over of the service to, the department concerned or, where so specified, on the date the supplies or service are brought into commission.
- 1.3.3 The liability of the contractor under the guarantee shall inter alia also cover the free delivery to the department concerned of supplies required in replacement of defective supplies, and where parts are to be replaced the liability shall include their free installation. The supplies and the parts so replaced or the services so rendered shall be guaranteed for a similar period.
- 1.4.1 If a bidder amends or withdraws his bid after the closing time but before he is notified that his bid has been accepted, or when notified that his bid has been accepted, he fails, within the period stipulated in the conditions of bidding or such extended period as the Board may allow, to sign a contract or to provide security when requested to do so, he shall, unless the Board decides otherwise, and without prejudice to any other right which the State may have under paragraphs 1.4.2 to 1.4.4, including the right to claim damages. If a less favourable bid is accepted or less favourable arrangements are to be made, forfeit any deposit which may have been made with the bid.
- 1.4.2 Should the contractor fail to comply with any of the conditions of the contract, the State shall be entitled, without prejudice to any of its other rights, to cancel the contract.
- 1.4.3 Upon any delay beyond the contract period in the case of a supplies contract, the State shall, without cancelling the contract, be entitled forthwith to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any supplies delivered later at the contractor's expense and risk, or forthwith to cancel the contract and buy such supplies as may be required to complete the contract and without prejudice to its other rights, be entitled to claim damages from the contractor.
- 1.4.4 The State shall upon any delay beyond the contract period in the case of a service contract, without prejudice to any other right and without cancelling the contract, be entitled forthwith to arrange for the execution of the service not rendered or not rendered in conformity with the contract or to cancel the contract and without prejudice to its other rights, be entitled to claim damages from the contractor.
- 1.4.5 In the event of the State availing itself of the remedies provided for in paragraphs 1.4.2 to 1.4.4
 - 1.4.5.1. The contractor shall bear any adverse difference in price of the said supplies or services and these amounts plus any other damages which may be suffered by the State shall be paid by the contractor to the State immediately on demand or the State may deduct such amounts from moneys (if any) otherwise payable to the contractor in respect of supplies or services rendered or to be rendered under the contract or under any other contract or any other amount due to him; or
 - 1.4.5.2. if the contractor fails to supply the goods or render the service within the period stipulated in the contract, the State shall have the right, unless otherwise directed by the Board, in its sole discretion either to deduct as a penalty from the value of the contract sum an amount of one fourteenth per cent thereof per day for the period of delay or to claim any damages or loss suffered in lieu of such penalty: Provided that where beneficial use of the completed portion is enjoyed, the penalty shall be applied to the value of the outstanding portion only.
 - 1.4.5.3. No penalty or damages shall be claimed in respect of any period of delay which the contractor can prove to the satisfaction of the Board to be directly due to a state of war, sanctions, strikes, lockouts, damage to machinery as a result of accidents, fire, flood or tempest or act of God, which could not be foreseen or overcome by the contractor, or to any act or omission on the part of persons acting in any capacity on behalf of the State.

1.4.5.4. If the delivery of the supplies or the rendering of the service is likely to be delayed or is in fact being delayed on account of any of the reasons mentioned in paragraph 1.4.5.3, full particulars of the circumstances shall be reported forthwith in writing to the Board, and at the same time the contractor shall indicate the extension of the delivery period which is desired.

1.4.6 In the event of the contract being cancelled by the State in the exercise of its rights in terms of the Act or regulations or these conditions, the contractor shall be liable to pay to the State any losses sustained and/or additional costs or expenditure incurred as a result of such cancellation and the State shall have the right to recover such losses, damages or additional costs by means of set-off from moneys due or which may become due in terms of the contract or any other contract, or from a guarantee provided for the due fulfilment of the contract and, until such time as the amount of such losses, damages or additional costs has been determined, to retain such moneys or guarantee or any deposit as security for any loss which the State may suffer or have suffered.

1.4.7 The contractor may be held responsible for any consequential damages and loss sustained which may be caused by any defect, latent or otherwise, in the supply or service rendered or if the supply or service as a result of such defect, latent or otherwise, does not conform to any condition or requirement of the contract.

1.6 If the contract is awarded on the basis of firm prices (see paragraph 1.2) and during the contract period

- (I) A customs or excise duty or any other duty, levy or tax (excluding any anti-dumping and countervailing duties or similar duties), is introduced in terms of any Act or regulation, or
- (ii) Any such duty, levy or tax is legally changed or abolished; the said prices shall be adjusted accordingly.

1.7.1 In respect of any factors which demonstrably have an influence on the production cost of the supplies or the rendering cost of the service for which there have been bid on the basis of non-firm prices, price adjustments which become effective during the contract period may be allowed with effect from the date of the change in cost and founded on the actual direct change in the cost as used in the calculation of the bid price, in addition to those provided for in paragraph 1.6.

1.7.2 Where the contractor himself is the manufacturer of the supplies or the provider of the service, or where he is the accredited agent of the manufacturer or the provider, evidence in support of the price adjustments claimed in terms of paragraph 1.7.1, shall be produced on demand.

1.7.3 As an alternative to paragraph 1.7.1 the bidder may specify a formula on the bid form provided for this purpose (see paragraph 1.2.2) for the purpose of adjusting prices in accordance with published indices. However, the adjustment formula shall provide for a minimum fixed element of at least 15% of the price, which shall not be subject to adjustment.

1.7.4 Where the contractor is not the manufacturer of the supplies or the provider of the service, or where he is not the accredited agent of the manufacturer or the provider, any price adjustment shall be based on the increase or reduction to the contractor in the net cost of the supplies on which the bid price was based. The supplier will be allowed a maximum of **five (5)** working days to formally respond to the pre-order letter, failure to do so will indicate inability to meet the request, and hence permit the end-user to engage with the next highest ranked supplier. Should the supplier respond with a partial acceptance or decline the request within **five (5)** working days the next highest ranked contractor on the list for that specific Equipment category may be contacted to supply the items, provided that the same procedure as specified above is followed. Therefore, the purchaser may not enter into discussions to purchase Equipment from the 2nd, 3rd and/or next ranked contractor without confirmation and approval from the original contractor to do so. Similarly, the purchaser may not enter into discussions to purchase Equipment from the 3rd, and/or next ranked contractor without confirmation and approval from the 2nd contractor to do so, and so forth.

The Department of Public Works, Roads and Transport of the Mpumalanga Provincial Government shall place orders with the successful Bidders, in accordance with the Preferential Procurement Police Framework Act (PPPFA) starting with the successful Bidder with the highest points scored, down to the successful Bidder with the lowest points. If the successful Bidder scoring the highest points is unable to supply and deliver within such period as required by the Department, **the Department shall be entitled** to place orders with the next highest scoring successful bidder.

The Provincial Government shall be entitled to cancel or amend orders, which are outstanding as a result of any act or omission of the contractor.

The date of receipt of the order shall be taken as the commencement date to determine the delivery period.

9.3 **DELIVERY**

On delivery of items for a specific order, the delivery note shall contain clear reference to the order number and date of order.

All deliveries shall be done on weekdays between 8h00 and 15h00 at the specified point of delivery. Only an authorized employee may receive the items **and not**, for example, a gate watchman.

Payment can only be affected once the tax invoice, delivery note and order have been correlated. All invoices shall therefore contain clear reference to the order number, date of order and date of delivery and be submitted to the depot, which placed the official order.

The tax invoice shall be priced in accordance with the payment items or the contract.

10. **INSPECTION**

The premises of the bidder or contractor shall be open, at all reasonable hours, for inspection by a representative of the Board or of an organization acting on behalf of the State.

10.3.1 If the inspections, tests and analyses referred to in paragraphs 10.1 and 10.3 show the supplies to be in accordance with the contract requirements, the cost of the inspections, tests and analyses shall be defrayed by the department concerned; otherwise the cost shall be defrayed by the contractor and the State shall have the right, without prejudice to any other legal remedy it may have, to deduct such costs from payments due to the contractor under the contract or under any other contract.

10.3.2 Where the supplies or services referred to in paragraph 10.3 do not comply with the contract requirements, but such supplies or services are nevertheless accepted at whatever price, the cost in connection with the inspections, tests or analyses thereof shall be defrayed by the contractor.

10.4 Supplies and services which are referred to in paragraphs 10.1, 10.2 and 10.3.1 and which do not comply with the contract requirements may be rejected.

10.5 Any contract supplies may on or after delivery be inspected, tested or analyzed and may be rejected if found not to comply with the requirements of the contract and such rejected supplies shall be held at the cost and risk of the contractor who shall, when called upon, remove them immediately at his own cost and forthwith substitute them with supplies which do comply with the requirements of the contract. Failing such removal, the rejected supplies shall be returned at the contractor's cost and risk. Should the contractor fail to provide the substitute supplies forthwith, the State may, without giving the contractor further opportunity to substitute the rejected supplies, purchase such supplies as may be necessary at the expense of the contractor.

10.6 Transport costs and any other expenses with regard to the rejected supplies referred to in paragraphs 10.1 and 10.3 shall be refunded by the contractor.

10.7 Where imported supplies are to be inspected before shipment, the contractor shall notify his suppliers abroad of the conditions applicable to inspections.

10.8 The provisions of paragraphs 10.1 to 10.7 shall not prejudice the right of the State to cancel the contract on account of a breach of the conditions thereof.

10.9 Before any bidder goods are delivered, to the Nelspruit depot of the Department, or any other named delivery site, they must be inspected by the Mechanical Directorate inspector(s) or any other bona fide representative of the Department on the bidder's site or at his service agent.

10.10 The contractor shall arrange with the appointed inspector(s) of the Department to carry out an inspection of any proto type models.

10.11 During the inspection all decisions taken shall be recorded and subsequent units supplied shall be identical to the proto type.

10.12 A list of requirements and other decisions taken during the inspection duly signed by the Department's inspector and by the contractor's representative shall be forwarded to the Manager: Government Motor Transport Mechanical: Department of Public Works, Roads and Transport. A signed copy shall be retained for reference by the contractor and will constitute authority for supply subsequent units in the form agreed upon.
