TERMS OF REFERENCE (TOR) FOR THE APPOINTMENT OF SERVICE PROVIDER TO REMOVE FLUORESCENT TUBES SERVICE TO KwaZulu-Natal.

Background

KwaZulu-Natal Sharks Board invites three-year contract service providers to render fluorescent tubes services to KwaZulu-Natal.

Purpose & Scope

- The proposal must include the provision of all materials that will be used to remove fluorescent tubes services and relevant equipment including broken ones.
- Appointed service provider should come and check the quantity of fluorescent tubes before they contaminate the environment.
- The equipment that will be used must be suitable for the environment.
 - Waste vehicle in good condition
 - Proper fluorescent tubes tools
 - Wear proper PPE's

Specification

- Service provider needs to be able to handle fluorescent tubes without getting injured
- The service provider should provide signed and stamp letters to state that once the collected waste is out of KZNSB premises it belongs under their name not KZNSB
- The service provide should provide the certificate that allows him/her to transport and disposing hazardous waste
- The service provided must remove all used fluorescent tubes
- No payment should be made without the certificate of compliance on completion of fluorescent removal
- Fluorescent tubes should be disposal inside the proper landfill site that operates under waste management regulations
