1 DESCRIPTION

The South African Weather Service (SAWS) seeks to appoint a service provider to conduct a culture survey covering approximately 475 employees on behalf of the South African Weather Service management.

2 INTRODUCTION

The South African Weather Service (SAWS) is a public entity of the Department of Forestry, Fisheries and the Environment (DFFE) and derives its mandate from the South African Weather Service Act (No 8 of 2001 as amended). The public entity is listed as a Schedule 3A Public Entity in terms of the Public Finance Management Act (PFMA).

SAWS is tasked with providing timely and accurate scientific data in the field of meteorology to the broader South African society: a combination of both public good and commercial services. The organisation plays a vital role in South African public life, not just as a provider of key services, but also in empowering citizens to adapt the effects of the ever-changing weather.

3 BACKGROUND

The South African Weather Service (SAWS) is a science-based organisation committed to delivering accurate and reliable meteorological and climatological services that support national development and public safety. Achieving this mandate depends not only on technical expertise but also on cultivating a strong, values-driven organisational culture.

In recent years, SAWS has experienced higher-than-normal levels of employee attrition, particularly in critical and scarce skills areas. This trend has highlighted the need to better understand the organisation's internal culture and its impact on employee engagement, retention and performance.

The culture survey will serve as a diagnostic tool to help SAWS:

- Understand how employees experience the organisation's culture and values
- Identify behaviours, practices and cultural dynamics that support or hinder its strategic objectives
- Pinpoint areas where targeted interventions can strengthen employee engagement and performance
- Build a culture that attracts and retains top talent, supports innovation and fosters accountability
- The findings will provide a strong foundation for shaping practical initiatives to strengthen the organisational culture and ensure alignment with SAWS's strategic direction.

4 REQUIREMENT / SCOPE OF WORK

4.1 Technical / Functional requirements
