A. RW10409968/24 Clarification 1

Clarification 1.	Response
1. The pricing schedule on page 72. The immediate service table shows Close Protection Vehicles x 6 on this sheet, but on the BOQ attached the vehicles do not reflect under the Immediate services table. Please advise if 6 armoured vehicles will be required for immediate service or is it for ad hoc services.	Four vehicles will be needed on an as-needed basis, and six vehicles will be needed for immediate service.
2. What is the standard lead time on ad-hoc service requirements?	The standard lead time will be 05 working days. In case of emergency, it will be 24 hours.
3. Point 13 on page 76. How many kilometers should be included per month? We assume this will only be applicable if the vehicles are needed for immediate services	Every car must have a monthly standard price. The monthly kilometers traveled must be included in this cost. The maximum number of kilometers a vehicle can travel in a month is 5,000 on average. These vehicles occasionally visit other provinces in addition to traveling throughout Gauteng Province.
4. Note: On page 76 it states 6 x vehicles are required, but on BOQ it states 4. Please advise on correct number.	04 vehicles will be needed on an as-needed basis, and 06 vehicles will be needed for immediate service.
5. Armoured vehicles required, is it SUV's or Sedans.	All armoured vehicles must be SUVs
6. Will only BMW, Mercedes and Volvo be considered.	Only the stated vehicles (BMW, Mercedes and Volvo) will be considered
7. Armoured vehicles are extremely, extremely expensive, will normal Luxury Vehicles be considered	All vehicles must be armoured.
