1. PREAMBLE

These terms of reference are for the audit into the partnerships and collaborations that City departments and entities have with other spheres of government at a formal and informal basis. The findings and recommendations of the audit will then inform the review and update of the draft IGR Strategy.

2. INTRODUCTION

The South African Constitution provides for three spheres of government that are distinctive, independent, and interrelated. The national, provincial, and local spheres of government, each have powers to exercise legislative and executive authority regarding matters relating to them. Schedule 4 details the functional areas that are concurrent to national and provincial government and Schedule 5 list those that are exclusive to provincial legislative competence. Part B of both schedules list functional areas that are set aside for local government the powers of each of these spheres. In exercising the IGR powers, all three spheres must do so in the manner that does not does not encroach on the geographical, functional, or institutional integrity of government in another sphere. However, the national and provincial spheres have a supportive and monitoring role over local government. Section 155 (6) and (7) of the Constitution reads:

(6) Each provincial government must establish municipalities in its province in a manner consistent with the legislation enacted in terms of subsections (2) and (3) and, by legislative or other measures, must

- a. provide for the monitoring and support of local government in the province; and
- b. promote the development of local government capacity to enable municipalities to perform their IGR functions and manage their own IGR affairs.

Appointment Of A Service Provider For Procurement For Audit And Review Of The Draft Intergovernmental Relations (IGR) Strategy And Implementation Plan For The City Of Johannesburg.

(7) The national government, subject to section 44, and the provincial governments have the legislative and executive authority to see to the effective performance by municipalities of the IGR functions in respect of matters listed in Schedules 4 and 5, by regulating the exercise by municipalities of the IGR executive authority referred to in section 156(1).

Given that all three spheres and the organs of state within them must perform the IGR functions in an interrelated manner, they must cooperate with each other and foster good relations. Chapter 3 of the Constitution also provides that an Act of Parliament must be passed to provide for intergovernmental structures that will promote intergovernmental relations.

3.1. Intergovernmental Audit

3.1.1. Background

The City has been engaging in intergovernmental relations during the execution of the scorecards of its managers. However, these interactions are taking place in an uncoordinated manner. Most of the engagements are ad hoc and not formal as such cannot be monitored. A need therefore exists to seek ways to formalize these engagements so that there is coordination and monitoring. The coordination will assist in streamlining and strengthening of relations. As such the city will be able to speak with one voice in the various IGR structures and forums.

These spheres are the strategic pillars upon which the draft strategy is anchored. These opportunities will be leveraged by the City for strategic partnerships and collaboration with departments and/or entities in sector departments at national and provincial spheres of government. The review must lend coherence to the operationalization of the strategy through the implementation plan in view of the DDM.

The objective is to review and update the 2016 IGR Strategy to achieve the following:

- To ensure that the City's intergovernmental relations is not just about co-ordination and relations because a dependency exists. It should be about converting that dependency into some form of benefit for the city. The benefit could arise from the point of view of permission, endorsement, partnership, and resources (financial, human, infrastructural, equipment and technology).
- To ensure that all City-to-City agreements and activities will be needs - rather than demand-driven. This means that it will be a proactive approach whereby the relationships will be based on clear and specific initiatives, projects and programmes that will assist in meeting CoJ strategic priorities.
- To assist the City to make strategic intergovernmental relations partnerships and collaborations to ensure mutual benefits for the sister cities;

Appointment Of A Service Provider For Procurement For Audit And Review Of The Draft Intergovernmental Relations (IGR) Strategy And Implementation Plan For The City Of Johannesburg.

- To harness the City's strong presence and influence across intergovernmental forums and;
- To provide the City with an opportunity to lobby and advocate for positions in organized local government formations.
- To align the City's strategy with the dictates of the DDM and other current relevant policies.

It is asserted that fostering of strong intergovernmental relations and creation of effective government wide cooperation can address challenges that affect the City's developmental trajectory. Therefore, putting in place mechanisms and protocols is critical to enable the City to accordingly take advantage of opportunities identified by the research undertaken.

3.2.4. Scope of work and content focus

Identifying IGR opportunities to complement the City's strategy is important for cooperation amongst the three spheres of government in order to position the City as a key player in this discourse. IGR opportunities that the City seeks to identify will enhance its Strategy.

These terms of reference (TOR) solicit the services of a consultant who can work on a Desktop Study on the following aspects: Research on IGR Opportunities for a revised IGR Strategy for the City of Joburg; Review of the IGR Strategy and Development of an implementation plan for the IGR Strategy. Therefore, the City of Johannesburg in terms of Regulation 20 of the Municipal Supply Chain Management Regulations, wishes to appoint an experienced and qualified service provider to assist the IGR Unit in revising and updating the 2016 Draft IGR Strategy. The contract will be valid for a period of six (6) months.

Bidders are therefore required to be mindful of the IGR business models in relation to costing of the IGR offers. It should also be noted that this is a review only and it will not be required to develop a strategy from scratch – the current strategy should form the basis of the review and should be improved to ensure enhanced operations and measurable impact.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids³ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).⁴ Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

³ Includes price quotations, advertised competitive bids, limited bids and BIDs.

⁴ Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
