Overview

1 Introduction

South African Airways Technical (SOC) Limited (Reg. No. 1999/024058/30) (hereinafter referred to as “SAAT”) is committed to be the maintenance, repair and overhaul facility of choice in the markets that it serves. This is inspired by SAAT’s unqualified belief in service excellence, integrity, accountability, quality, safety, people development and value to our shareholders.

The quality, price and service that we provide our customers can only be as good as what we receive from our suppliers.

All SAAT’s business relations are guided by these values and business practice. SAAT’s business partners and suppliers are expected to uphold, promote and share the same values and vision.

SAAT strives for continuous improvement within its critical business areas and seeks to establish relationships with suppliers that are equally passionate in their quest for better quality, price and service. Accordingly SAAT is in a process of cutting its operating costs to competitive optimum levels from inception of the contract. SAAT is therefore keen to understand how suppliers can help it achieve this important and necessary goal.

2 Procurement Philosophy

It is the SAA policy, when procuring goods or services, to follow a course of optimum value and efficiency by adopting best purchasing practices in supply chain management, ensuring where possible that open and fair competition has prevailed, with due regard being paid to the importance of:

- 2.1.1 The promotion of the Inter divisional Support Policy.
- 2.1.2 The promotion, development and support of businesses from disadvantaged communities (small, medium, micro enterprises, as well as established businesses within those communities) in terms of its Preferential Procurement Policy.
- 2.1.3 The promotion of national and regional local suppliers and agents before considering overseas suppliers; and
- 2.1.4 The development, promotion and support for the moral values that underpin the above, in terms of SAA’s Business Ethics and Guidelines which requires that all commercial conduct be based on ethical and moral values and sound business practice. This value system governs all commercial behavior within SAA.

3 SAA Black Economic Empowerment Program Statement of Policy

- 3.1 The South African Airways Technical supports the South African Government objective of the Broad – Based Black Economic Empowerment (B-BBEE) and it supports the view that all South African Business enterprises should have an equal obligation to redress the imbalances of the past.
- 3.2 South African Airways Technical would therefore prefer to embark on a business relationship with those enterprises that share the same values and that are prepared to contribute to a significant preferential procurement initiative (including, but not limited to subcontracting and Joint Ventures) as part of their bid responses.
- 3.3 In accordance with the Preferential Procurement Policy Framework Act (PPFPA), Act 5 of 2000 and the Preferential Procurement Regulations (2022), Bidders are to note that the following preference point systems will be applicable to any bids issued subsequently to this RFB process:

- 3.5 Local Suppliers are required to provide a valid original or certified BBBEE certificate or proof of exemption from an accredited SANAS/IRBA verification agency/auditor. Failure to submit a certificate will result in a zero score for preferential procurement specific goals.

National Industrial Participation Programme (NIPP)

Appendix 7

Formatted: French (France)

SBD 5

THIS DOCUMENT MUST BE SIGNED AND SUBMITTED TOGETHER WITH YOUR BID

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
 - (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2-year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIPP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

--	--	----------------------------------

I

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of \$10 million (ten million dollars), submit details of such a contract to the DTI for reporting purposes.
- 2.2 The purpose for reporting details of contracts in excess of the amount of \$10 million (ten million dollars) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.
- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of \$10 million (ten million dollars), to contact and furnish the DTI with the following information:

Mr Muthan may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at amuthan@thedti.gov.za for further details about the programme.
