

**MAINTENANCE AND LOAD TESTING OF ALL CRANES AND HOIST DURING NORMAL MAINTENANCE FOR A PERIOD OF 8 YEARS
AT TUTUKA POWER STATION**

MPTUT10456GX

MANDATORY TECHNICAL EVALUATION CRITERIA

Table 3: Mandatory Technical Evaluation Criteria		Reference to Technical Specification / Tender Returnable	Motivation for use of Criteria
Criteria	Mandatory Technical Criteria Description		
1.	The Tenderer to provide a valid certificate from Department of Labour (DoL) confirming their registration in terms of regulation 19 of the OHS Act as a Lifting Machinery Entity (LME).	Section 1.2 of the works information	A requirement from Occupational Health and safety Act 85 of 1993 Driven Machinery Regulations
2.	The Tenderer to have a Lifting Machinery Inspector (LMI) and who is registered by the Engineering Council of South Africa in terms of the Engineering Profession Act, 2000 (Act No. 46 of 2000). The Tenderer provides LMI's ECSA Registration Certificate.	Section 1.2 of the works information	A requirement from Occupational Health and safety Act 85 of 1993 Driven Machinery Regulations

Qualitative Technical Evaluation Criteria

Table 2: Qualitative Technical Evaluation Criteria

	Qualitative Technical Criteria Description	Reference to Technical Specification / Tender Returnable	Criteria Weighting (%)	Criteria Sub Weighting (%)
	Experience of the LME (the Entity) in Cranes Servicing.		25	
1.	A Proof in the form of verifiable referenced previous (not older than 10 years) and/or current contracts for performing cranes servicing work. The following information to be provided as a minimum and preferably in table format for each of the references: 1. Name of Organisation to which the service was provided, 2. Contact details 3. Detailed Scope of Work, which must include the type and ratings of the cranes serviced, 4. Start Date of the Contract and Duration	Section 1.2 (Employer's requirements for the service) of the works information		100
2.	Reporting		10	
	Copies of at least 3 different reports produced by the Tenderer from any of the referenced contract/s provided in section 2.	Section 1.2 (Employer's requirements for the service) of the works information		100
3.	Detailed Organogram and Curriculum Vitae of the proposed Tutuka Power Station Team/s:		35	
	The Tenderer to provide a detailed organogram showing the standby team/s consisting of at least one LMI, Qualified Crane Technician and their Assistant/s.	Section 1.2 (Employer's requirements for the service) of the works information		30

MPTUT10456GX

	Comprehensive CVs (covering individual's knowledge, training, experience and qualifications specific to the cranes) with the relevant supporting documents including all relevant qualifications of all the Tenders Technical Team on the organogram provided in section 3 above.	Section 1.2 (Employer's requirements for the service) of the works information		70
	Method Statements		30	
4.	The Tenderer to provide comprehensive method statement/s detailing all the activities performed during the crane service, covering the following activities as a minimum: 1. Yearly Thorough Examinations and Performance Test (including load testing) by LMI 2. Half -Yearly Thorough Examination/Inspections by LMI/Qualified Crane Technician	Section 1.2 (Employer's requirements for the service) of the works information		100
