MEMO

Good day,

NEWLY REVISED BOQ HAS BEEN LOADED

INVITATION TO TENDER No. E3235GXMPKUS

The refurbishment and repairs of LV motors at Kusile power station for the period of 3 years.

Reference is made to enquiry number **E3235GXMPKUS** The refurbishment and repairs of LV motors at Kusile power station for the period of 3 years]

This addendum serves to notify all prospective tenderers of developments arising from the clarification meeting held on **23 July 2026** at Kusile Power Station, attended by Eskom representatives and interested service providers. During the meeting, service providers requested an extension of the tender closing date since ESKOM requested to review and revised the BOQ. The request was made on the basis that further clarification of the project scope is required to enable accurate pricing and preparation of responsive tender submissions. A site clarification session has therefore been arranged as detailed below:

Site Clarification Meeting

- **Venue: Kusile Power Station**
- **Date: 23 July 2026**
- **Time: 09:00 AM**

Kindly send confirmation of attendance Khomunm@eskom.co.za with the list of representatives, their ID numbers, vehicle registration numbers and company name to arrange for gate access. Also, bring along your PPE (Safety wear).

In consideration of the above, and to allow sufficient time for bidders to incorporate information gathered during the site clarification session into their submissions,

A new BOQ has been uploaded

	MEMO CLARIFICATION ADDENDA	Unique Identifier	240-51017543
		Revision	Rev. 0
		Revision Date	Aug- 2019
		Group Technology and Commercial Division	

Furthermore, a review of the Bill of Quantities (BOQ) identified certain omissions in the original document. As a result, a revised version of the BOQ will be published during the week.
