#### **Step 4: Contractual Requirements**

SHEQ is contractual requirement, and this implies that if a document has not been submitted, then the Procurement Practitioner may ask the tenderer for it. Documents required for SHEQ as part of objective criteria, must be mentioned in the tender returnable list. These documents will not be mandatory for evaluation. This means that if it is not submitted, we can ask for it to be submitted within a certain time period. The team can agree on how many days to allow for the tenderer to submit the document. Should the tenderer not submit within the new date and time, then Eskom approaches the second highest tenderer.

Should a document be submitted but Eskom is not satisfied with the contents of it, then the SHEQ person must ask the Procurement Practitioner to include it as a negotiation parameter or to clarify it. The SHEQ persons must be involved from the beginning of the process and make sure that the requirements are contractual conditions.

Should it be found that the highest ranked supplier doesn't meet the objective criteria even after asked for it or negotiate on it, Eskom team may go to the second highest tenderer. The cost difference between the two tenderers prices must be investigated and if too large, some mitigating actions must be decided upon to ensure that the tenderer meets the criteria.

#### **4.1 Health and Safety Requirements:**

1. Letter of Good standing
2. SHE Plan
3. Baseline Risk assessment
4. SHEQ policy

**Fixed ZAR Option (Payment Method 3)**

This option is available to those tenderers who are the direct importers of the goods/services for which they have tendered, but do not find Payment Methods 1A, 1B or 2 and allows tenderers to be responsible for the foreign currency and exchange rate risk. If a tenderer selects this payment method, the process is as follows:

- Eskom and the successful tender will engage, on a simultaneous basis, with their respective bankers and compare the exchange rate/s obtained. This is done to ensure that any exchange rate/s used is/are market related.
- Tenderers will be required to match or better the exchange rate/s obtained by Eskom. If the tenderer's exchange rate/s is/are more expensive than the exchange rate/s indicated by Eskom, the exchange rate/s to convert the foreign values into ZAR will be the Eskom exchange rate/s.
- Once the exchange rate/s has/have been agreed by both parties, Eskom will not be liable for any further exchange rate adjustments.

**From a Commercial perspective, please take note of the following:**

- The foreign currency and foreign currency amount/s that Eskom is/are at risk to, need/s to be indicated in the pricing schedule submitted as part of the tender. If the pricing schedule does not allow for it, the foreign currency and foreign currency amount/s must be indicated in a covering letter.
- The exchange rate to be used in the tender submission is the exchange rate sourced from the South African Reserve Bank on the date the tender is advertised/published.

**Take note of the following:**

**Service-related payment:**

When specialist skills are required in South Africa, the local supplier will source the appropriate talent from their network of specialist companies overseas. The specialist is then brought into the country (South Africa) on one of two possible methodologies.

**1) Secondment**

In this approach, the foreign specialist retains their employment contract with their home unit (Employer overseas) but are seconded to the local company that has a contract with Eskom to work under the direction and control of the local management. Their salaries are paid to the foreign specialist by their home country and that foreign entity then invoices the local supplier (South Africa) in foreign currency for the cost relating to such employees. The invoices would typically be in Euro or GBP, this methodology is usually for short to medium term engagements.

**Documents to be attached for payment:**

- Commercial invoice from the specialist company
- Local invoice (South African company making use of the specialist services)
- Passport of the specialist and valid work permit
- Activity schedule signed by the contract manager.

**2) Payroll Transfer**

In this approach, the employee's contract with the overseas employer will be suspended and the specialist takes up a local contract with the local company. The remuneration is then **ZAR** based, the overseas employer is unable to provide the foreign invoice because the employment with the specialist is suspended this methodology is usually favoured for long term engagement. There is no foreign commitment, and the contract will be in ZAR.
