No.	Date	Ref	Supplier Clarification Question	Eskom Response
1.	14/01/2026		Tender number: E2372GXNOU The tender was issued on the 15 December 2025 and the closing date is the Monday the 19th January 2026. Please note most companies are closed for the shutdown period and is reopening on the 12th January 2026. The pricing schedule is quite extensive and one week will be insufficient to obtain pricing, technical information, etc. Also, some of the OEMs listed on the pricing schedule is based abroad and we will require additional time to calculate the shipping costs. We therefore kindly request an extension for an additional 15 working days until the 9th February 2026. By return email, kindly confirm. Many thanks	The closing date for tender E2372GXNOU has been extended to 30th of January 2026.
2.	14/01/2026		I wanted to find out if the meeting in relation to the Tender number listed above is still continuing today? We were only able to join from 10h30 and not sure if the meeting had concluded or has been moved to another date. Please advise.	Kindly note that the meeting has been re-scheduled to this week Thursday (15/01/2026) due to the unavailability of our cross-functional team members. 3.	14/01/2026		Re our email below and our conversation on the cancelled clarification meeting. Please advise urgently regarding the extension as the tender closes on Monday , 19 January 2026 and as advised the time frame allocated is insufficient. Many thanks	Hope you good. Kindly note that for the tenderers that are requesting for clarification it has been rescheduled for the 15th of January 2026 and the closing date has been extended to 30th of January 2026. Please note that the sae response will be published on Eskom Tender bulletin and National treasury e-tender portal.
4.	14/01/2026		Please provide me with a teams link to the attached tender number: E2372GXNOU - THE SUPPLY AND DELIVERY of RADIATION PROTECTION PRODUCTS ON AND “AS AND WHEN” REQUIRED BASIS TO THE NUCLEAR OPERATING UNIT FOR A PERIOD OF FIVE (5) YEARS.	Microsoft Teams meeting Join: Link
5.	14/01/2026		I would like to enquire regarding the ‘Supply and delivery of radiation protection products on and “as and when” required basis to the nuclear operating unit for a period of five (5) years.’ When they say RP products or spares what are we really talking about? I am asking so that I can know how to prepare for the tender since we do offer RP services. Thank you	These products are RP day to day consumables. They are items used on a day to day basis for RP. For example the BAG:TRANSPARENT, L;CLEAR;PE LOW DENSITY are the radioactive waste yellow bags used in the control zone. The FILTER FLD:PARTICULATE;HI GRADE CHARCOAL are the used on daily for iodine air sampling. I hope this gives clarity. These are not services but item. If not clear please give us a call so that we can further give clarity.
