1. PURPOSE

- 1.1. To appoint a service provider to refine the draft Adaptive Capacity Facility Human Settlements Pilot Programme (ACFHSP) monitoring and evaluation framework, and conduct a baseline study for the project. In addition, the service provider will establish the necessary systems and databases for ongoing monitoring of the ACFHSP.

2. INTRODUCTION AND BACKGROUND

- 2.1 The South African Department of Forestry, Fisheries, and the Environment (DFFE) in partnership with the Government of Flanders has developed the “Department of Forestry, Fisheries and the Environment Adaptive Capacity Facility Human Settlements Pilot Programme” (DFFE-ACF HSP or ACF HSP). The key challenge the ACF aims to address is the lack of effective climate change implementation at a local level in South Africa. The private companies (lessees) are paying annual rentals to the lessor DFFE for the surface use of the land. The lease rental income is kept in an interest-bearing account, until such time that payments could be made to successful land claimants.
- 2.2 The Facility is intended to benefit those citizens and communities of South Africa that are most vulnerable to climate change impacts because of their exposure to various impacts and their lack of capacity to adapt to these impacts. These vulnerable groups are most reliant on effective institutional adaptation measures that can reduce their exposure to the impacts of climate change and increase their adaptive capacity to respond to climate change more effectively.
- 2.3 The programme is across three (03) District Municipalities with three (03) different human settlements:
 - a) Amathole District Municipality (ADM) - Peri-urban settlements;
 - b) Garden Route District Municipality (GRDM) - urban settlements; and
 - c) uMzinyathi District Municipality (UDM) - rural settlements.
- 2.4 The service provider will be required to provide services in result area 5 of the DFFE-ACF HSP. This result area involves regular monitoring and evaluation (M&E) of the programme. This contract will require services for the refinement of an M&E system, conducting a baseline study in the three (03) District Municipalities and the establishment of necessary systems and databases to monitor the DFFE-ACF in-line with the wider DFFE M&E system.

3. OBJECTIVES

The project is expected to achieve the following:

- 3.1 To further develop and refine the M&E framework for the ACF-HSPP.
- 3.2 To conduct a baseline study in the three (03) District Municipalities i.e. Amathole, Garden Route and uMzinyathi District Municipalities as per the refined M&E framework.
- 3.3 To set-up a database for recording of information that needs to be tracked for the M&E system.

4. SCOPE AND EXTENT OF WORK

The following areas of work are expected to be covered in this project:

- 4.1 The service provider is required to refine the existing M&E framework, conduct a baseline study. The services are required for a period of six (06) months.
