1. PURPOSE

- 1.1 The Department of Forestry, Fisheries, and the Environment (DFFE) seeks to appoint a panel of service providers to support the Department with Media Buying and Placement on an “as and when” required basis for a period of three (03) years.

2. INTRODUCTION AND BACKGROUND

- 2.1 The Department of Forestry, Fisheries and the Environment is mandated to give effect to the right of citizens to an environment that is not harmful to their health or wellbeing, and to have the environment protected for the benefit of present and future generations. To this end, the Department provides leadership in environmental management, conservation, and protection towards sustainability for the benefit of South Africans and the global community.
- 2.2 Our mandate from an environmental perspective is to facilitate an economic growth path that is equitable, inclusive, sustainable, and environmentally sound. A path, which is in line with our Constitution, promotes sustainable development and the right of all of us to enjoy an environment that is not harmful to our health or well-being. These natural assets are under unprecedented threat from climate change, environmental degradation, and the loss of our biodiversity. Elsewhere in the world, those living under conditions of poverty and vulnerability will be hardest hit by drought, floods, and extreme temperatures. These people will also have the least capacity to adapt to climate change.
- 2.3 Communication is a crucial element of governance. It is one of the key tools for sustaining good relations between government and the people it serves. Regular consultation and dialogue between government and the people can improve public understanding and support for government policies and programmes. When the public fully appreciates the rationale for government policies, they are more likely to take ownership of such policies and their implementation becomes easier.
- 2.4 To ensure heightened levels of national awareness about the environment portfolio and how citizens can play a part in the attainment of a society that lives in harmony with the environment, Communications and Advocacy Chief Directorate would like to enlist the services of reputable communications companies to assist the Department with Media Buying and Placement on a number of media platforms (print, digital and broadcast).
