<b>Clarification Requests from Suppliers</b>	<b>Responses Provided by the Organisation</b>
We need weight, drawings or general arrangement drawings for quoting process.	Site visit has been arranged as follows: Date: <b>23 April 2026</b> Time: <b>10:00 – 13:00</b> Venue: <b>Matla Power Station</b>  Tenderers must confirm their intention to attend with the Eskom Representative, <b>Matsebela Mosoatsi</b> on <b>011 800 3808</b> , <a href="mailto:mosoatPM@eskom.co.za">mosoatPM@eskom.co.za</a> stating the name, position and contact details of each proposed attendee
May we please request the name plates for these gearboxes	This will be addressed during the site visit
Can we please request extension on the above-mentioned tender	The tender closing period has been extended, the revised closing date is <b>22 May 2026 at 10:00</b>
It is extremely difficult to provide an accurate or budget quotation based on the information currently available—particularly regarding internal components such as bearings, seals, shafts, and gears. To properly assess and estimate these items, we would require detailed drawings, photographs, or the opportunity to conduct a site visit for self-assessment	This will be addressed during the site visit
Additionally, you and your team have an open invitation to visit our facility. This would allow us and the other suppliers to better explain the risks and considerations associated with gearboxes and the estimation of repairs thereof.	Unfortunately, Eskom will not be conducting site visits at suppliers' facilities, as this does not form part of the evaluation criteria.
We need weight, drawings or general arrangement drawings for quoting process.	This will be addressed during the site visit
