# SALE OF EXCESS GAME AT THE PETROSA GTL REFINERY NATURE RESERVE

## 1. Introduction

PetroSA operates a Gas to Liquid Refinery located in the Western Cape near Mossel Bay. The PetroSA facility also have a Nature Reserve. The amount of springbok increased to numbers exceeding the field carrying capacity and must be reduced to more sustainable numbers.

This document covers the request to receive an offer to purchase for an allocated amount of springbok to be removed by method of live capturing.

## 2. Scope

PetroSA await offers to purchase **16 rams and 32 ewe springboks**. The springbok must be removed by method of live capturing. The capturing and removal permits, capturing process, associated equipment, transport, transport arrangements and cost is for the bidder to arrange at no cost or risk to PetroSA.

All damages to the PetroSA game park facilities and fences will be for the account of the successful bidder.

Applicants for this tender should be able to supply all capture equipment, labour, chemical agents and means of transport to ensure a successful and lawful capture operation.

PetroSA shall approve the date of capturing. Should a helicopter be utilised in the capture process, the following will be required:

- a) Copies of the valid pilot license, commercial pilot's license and a game/cull rating must be provided
- b) The bidder must declare the Pilot's total number of game work hours formally on a company letterhead.
- c) A valid Air Operating Certificate (AOC) issued by the South African Civil Aviation Authority (SACAA) for the helicopter must be submitted.

On tender award, the PetroSA accepted bidder shall supply PetroSA with approved copies of the Capturing and permits sanctioned by Cape Nature and/or any other government authorities as stipulated in the applicable South African Provincial or South African National legislation and regulations.

The approved copies must be made available to PetroSA before the capturing process can be arranged. Payment for the animals to be made to be prior to capturing.
