CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

TERMS OF REFERENCES FOR THE APPOINTMENT OF A SERVICE PROVIDER /CONSULTANT TO RENDER RESEARCH AND DEVELOPMENT SERVICES FOR THE ROAD TRAFFIC INFRINGEMENT AGENCY (RTIA) FOR THREE YEARS

1. PURPOSE

The Road Traffic Infringement Agency (RTIA) would like to invite bid proposals from competent service providers to render Research and Development services for three (3) years.

2. BACKGROUND

In 2020, the new Board of the Agency decided to assign management to prioritise Research and Development as a function within the RTIA. This assignment was commissioned as part of the new strategic direction of the Agency, 2020-2024. Thus, the RTIA business will be anchored on research and development to ensure that the chosen strategic plans are derived and supported by research evidence. Secondly, research is also needed to regularly monitor the impact of road safety management tools, serving as a controlling instrument for the appropriateness of road safety management efforts. Lastly, the R&D to research road traffic and transport contravention and driver/operator behavioural change towards road safety reduces road crashes and fatalities. The R&D will ensure that the RTIA respond to the AARTO problems in a scientific manner.

Upon the finalisation of both the approved Annual Operational Plan (APP), 2021/2022 and the newly created organisational structure, Exco and Manco jointly expressed a view that it is imperative to appoint the necessary requisite skills and partner with research institutions to be able to fulfil the targets on the APP. The internal capacity needed to be supplemented by the external expert research service provider, seeing that none of the internal capacity may isolate time to provide research information that would lead to new road safety products and initiatives. Contracting a panel of the R&D service provider will also address the natural shortcomings of inward-looking and not objectively focus on other external factors that may imperil such research's sustainability. Therefore, EXCO decided to partner with institutions of higher learning, research institutions or consultants, which mainly specialise in R&D in road safety.

TERMS OF REFERENCES FOR THE APPOINTMENT OF A SERVICE PROVIDER /CONSULTANT TO RENDER RESEARCH AND DEVELOPMENT SERVICES FOR THE ROAD TRAFFIC INFRINGEMENT AGENCY (RTIA) FOR THREE YEARS

It was further agreed that during the 2021/22 financial year, the R&D unit would focus on delivering the policy, procedure and research agenda. Thus, these deliverables must be informed by expert knowledge.

The challenge is that the organisational structure is under capacitated. There is only one resource appointed in the R&D function and will not fulfil the desired targets of the APP. Central to the organisational challenge is the need to continuously improve the AARTO regulatory regime by advancing its products and services by benchmarking the adopted approach with the best in the world and align approaches to suit the South African limitations.

The call for research and development service providers aims to foster evidence-based planning, policy and strategy formulation and decision-making in the road traffic and transport contravention and related research sector to:

- 2.1 Increase the role of scientific policy, relevant and applied research in contributing to achieving an inclusive and sustainable reduction of road traffic crashes and fatalities.
- 2.2 Improve quality and evidence-based research outputs in information, knowledge, reports, frameworks or models.
- 2.3 Promote multi-disciplinary solution-based research with tangible outcomes.
