CONTRACT PRICE ADJUSTMENT (CPA) REQUIREMENTS FOR LOCAL GOODS AND SERVICES.

The application of contract price adjustment (CPA) to tender submissions

Note: This Section will not be applicable to Professional services contracts (See relevant section hereunder for guidelines on this).

1. Application of CPA

- CPA conditions may apply if the contractual duration is to be longer than 12 months.
- If the contractual duration will be less than or equal to 12 months, a fixed priced offer must be submitted.
- For contracts with a duration more than twelve (12) months, CPA will not be applicable for the first year. CPA will then only be applied from year two (2) onwards.
- Failure to propose contract price adjustment, or submit a CPA formula with the tender submission, will result in the pricing being considered fixed.
- Eskom will not accept Rate of Exchange adjustment to be included in any CPA formula.
- Local indices may not be used for CPA purposes for any imported component.
- There must be separate CPA formulae for local and foreign CPA. Local and foreign escalation may not be combined into one formula.

2. Tender Submissions

Eskom Proposed CPA breakdown for Local Goods and Service

SEIFSA Tables	Proportion
Table C3A- All hourly paid employees	60%
Table O-3- Coal and gas	10%
Table L2 (A)	20%
Fixed -non-adjustable	10%
Total	100%

Note: Tenderers to take note that, if the Eskom proposed CPA breakdown is not populated, they are required to refer to the Pricing Schedule in the NEC or other Contract or standalone Pricing Schedule for Eskom's proposed CPA breakdown.

Eskom CPA Conditions/Requirements

- Tenderers are required to submit CPA that is aligned to Eskom's proposed CPA breakdown in this Tender; or Tenderers may submit an alternative CPA proposal from Eskom's CPA proposal, and this will be considered if deemed acceptable to Eskom;
- Note that for contracts exceeding a duration of 12 months if there is no CPA catered for by the tenderer; then prices will be deemed to be fixed and firm.
- A minimum of 15% of the total agreement value is to be fixed when a CPA formula is applied,
- Each CPA formula must add up to a final total of 100.
- Only official published CPA indices that are in the public domain must be used.
- No in-house indices may be used for CPA.
- There may be more than 1 CPA formula (Formula A, B, C etc) or a combination of all the cost components into 1 Formula (depending on how the pricing is to be submitted).
- If there are specific line items for Labour and Transport, individual Formulae might be used.

Note: Eskom reserves the right to negotiate CPA terms and conditions during negotiations held with tenderers.

3. BASE DATE AND BASE PRICE

- In instances of indices or other references published monthly, the Base Date is to be the month before the month in which the tender closes.
- In instances where the reference figures, e.g. market prices, are published daily or at intervals more than once a month; then the average for the month before the month in which the tender closes should be used as the Base Price.

4. CPA FOR PROFESSIONAL SERVICES

- The preferred index to be used for adjusting these agreements is the country specific CPI Headline index.
- The price adjustment factor will be effective from each contractual anniversary of the contract date. This must be the average of the country specific CPI Headline index figures published for the last twelve-month period (cycle) ending before the contract anniversary date.

3.1 Technical Tender Enquiry Strategy

The tenderer shall receive the document pack and indicate which sap numbers are tendered for on the Material Consolidation. The evaluation criteria will be used to measure the supplier's ability to supply Eskom with new SF6 Gas supplied in standard gas cylinders for Distribution Systems in compliance with the specific requirements as stated in Eskom's Standards, Eskom's Buyer's Guide Documents, South African National Standards, International Standards (if there is no South African Standard available) and specific user stipulations, as included in the Commercial strategy. This will be achieved by conducting the desktop evaluation of a specified Enquiry Returnable

Suppliers who are tendering but are not the OEM of the product must source the required technical returnable from the OEM where relevant. Missing information will not be requested after the Enquiry closing date.

If any part or sub-component of the production process is outsourced, the Supplier shall retain full and complete accountability for the (entire) product. **Document Classification: Confidential**

Level 1 and Level 2 criteria will be evaluated independently by a minimum of 2 evaluators. Clear justification will be required for concluding that any criterion is not met. The independent results will be compared after both the Level 1 and Level 2 evaluations are completed. Differences in results or scoring between evaluators for criteria shall be normalised by the manager or any other neutral member as appointed by the manager.

The Level 3 Factory Assessment and Verification will require the Evaluation Team together with other required Eskom Stakeholders to inspect the production facility. The Factory Assessment and Verification shall be conducted as a team and a single assessment result will be produced.

The scope and criteria of the Level 3 Factory Assessment and Verification will be defined by the Technical Evaluation Team and the Eskom Assessment Representatives, prior to the assessment. The assessment checklist may be shared with the tendering company prior to the assessment. The Level 3 threshold is 80.00%. The Level 3 result will represent the final result for the submission.

A final result per submission shall be determined and shall be stated as follows in the evaluation report:

- Non-compliant
- Compliant with qualifications
 - o This means that there may be deficiencies that need to be addressed prior to contracting or procuring. The terms of this will be stated in the tender strategy document.
- Fully compliant

Full compliance to the technical standards included in the criteria is critical due to the high risk introduced by non-compliance.

3.1.2 Technical Tender Evaluation Strategy

The desktop evaluation will require the submission of evidence demonstrating compliance to the Mandatory Requirements. This will be known as the **Level 1 Mandatory Requirements**. This aspect of the desktop assessment determines if the requirement as set for the mandatory tender returnable has been met, by assessing if all the mandatory documentation is included in the submission. The content of the document is not scrutinized at this level. This level is a test of responsiveness.
