TOTAL FOR DISTRIBUTION NETWORK = 25%			
OVERALL SCORE= 100%			

Tenderers who do not meet the minimum overall threshold greater than 80% will not be evaluated further.

Stage 2: Technical Objective Criteria

NB: The Employer reserves the right to reject as non-responsive any tender submitted by a Tenderer who, within the past 24 months, has had a contract terminated for contractor default, material breach, persistent poor performance, abandonment, fraud, or failure to comply with statutory or contractual obligations, provided that such termination is supported by documented evidence and the Tenderer was afforded due process. Tenderers must declare any such termination. Nondisclosure may result in disqualification or cancellation of award

Declaration: Previous Contract Termination

The Tenderer must declare whether it, any joint venture partner, director, related entity, or proposed critical subcontractor has had any contract terminated within the past 24 months due to contractor default, material breach, poor performance, abandonment, fraud, non-compliance, or failure to remedy a contractual default.

Please tick:

☐ No, the Tenderer has not had any such contract terminated.

☐ **Yes, the Tenderer has had such a contract terminated. Details are attached.**

Where “Yes” is selected, the Tenderer must provide:

- **name of client/employer;**
- **contract description;**
- **date of termination;**
- **reason for termination;**
- **whether the termination is disputed;**
- **corrective measures implemented by the Tenderer.**

I declare that the information provided is true and complete. I understand that false declaration or non-disclosure may result in disqualification or cancellation of award

Please note that Eskom may award the contract to a tenderer other than the highest scoring if objective criteria justify the award.
