Step 3 - Pre-qualification criteria

- refer to the attached technical evaluation criteria

CONTRACTUAL OBLIGATIONS (Non-weighted criterion)

In terms of the PPPFA, the application of objective criteria may be a valid and justifiable reason why a tender is not awarded to the highest scoring / highest ranked supplier, after application of the 80:20 preference points system. Objective criteria will generally be applied after evaluation and are generally the criteria / conditions specifically linked to contract award (viz., legal compliance, adherence to contract terms and conditions. The requirements for the objective criteria do not form part of the above Part A and Part B; however, they will be required from the recommended tenderer/s to submit them before the contract award.

STEP 4: OBJECTIVE CRITERIA

Price and Preference Analysis

- 80% Price
- 20% BBBEE

Price Evaluation (80 points)

Where

Ps = Points scored for comparative price of tender under consideration
 Pt = Comparative price of tender under consideration
 Pmin = Comparative price of lowest acceptable tender

B-BBEE Evaluation (20 Points)

Tenderers are required to submit a valid B-BBEE Status Level Verification Certificates together with their tenders to substantiate the B-BBEE claims.

Tenderers, who do not submit B-BBEE Status Level Verification Certificate or non-compliant contributors to B-BBEE will not qualify for preference points, however will not be disqualified from the tender process. Such tenderer will score out of 80 points for price and 0 points out of 20 for B-BBEE.

Fixed ZAR Option (Payment Method 3)

This option is available to those tenderers who are the direct importers of the goods/services for which they have tendered, but do not find Payment Methods 1A, 1B or 2 and allows tenderers to be responsible for the foreign currency and exchange rate risk. If a tenderer selects this payment method, the process is as follows:

- Eskom and the successful tender will engage, on a simultaneous basis, with their respective bankers and compare the exchange rate/s obtained. This is done to ensure that any exchange rate/s used is/are market related.
- Tenderers will be required to match or better the exchange rate/s obtained by Eskom. If the tenderer's exchange rate/s is/are more expensive than the exchange rate/s indicated by Eskom, the exchange rate/s to convert the foreign values into ZAR will be the Eskom exchange rate/s.
- Once the exchange rate/s has/have been agreed by both parties, Eskom will not be liable for any further exchange rate adjustments.

From a Commercial perspective, please take note of the following:

- The foreign currency and foreign currency amount/s that Eskom is/are at risk to, need/s to be indicated in the pricing schedule submitted as part of the tender. If the pricing schedule does not allow for it, the foreign currency and foreign currency amount/s must be indicated in a covering letter.

Take note of the following:

Service-related payment:

When specialist skills are required in South Africa, the local supplier will source the appropriate talent from their network of specialist companies overseas. The specialist is then brought into the country (South Africa) on one of two possible methodologies.

1) Secondment

In this approach, the foreign specialist retains their employment contract with their home unit (Employer overseas) but are seconded to the local company that has a contract with Eskom to work under the direction and control of the local management. Their salaries are paid to the foreign specialist by their home country and that foreign entity then invoices the local supplier (South Africa) in foreign currency for the cost relating to such employees. The invoices would typically be in Euro or GBP, this methodology is usually for short to medium term engagements.

Documents to be attached for payment:

- Commercial invoice from the specialist company
- Local invoice (South African company making use of the specialist services)
- Passport of the specialist and valid work permit
- Activity schedule signed by the contract manager.

2) Payroll Transfer

In this approach, the employee's contract with the overseas employer will be suspended and the specialist takes up a local contract with the local company. The remuneration is then **ZAR** based, the overseas employer is unable to provide the foreign invoice because the employment with the specialist is suspended this methodology is usually favoured for long term engagement. There is no foreign commitment, and the contract will be in ZAR.

PART 2: EXCHANGE RATES

The tenderer shall use the exchange rate as at 12H00 on the date of the advertisement of the tender. The source of the exchange rates shall be the South African Reserve Bank (www.resbank.co.za) Please note that the tenderer is required to submit proof of the SARBA rate/s used.
