

RFI NUMBER: RFI022025/2026

REQUEST FOR INFORMATION: COSTING OF PoE SWITCHES AND INSTALLATION OF NETWORK CABLING AT MARKET RELATED PRICEBID QUESTIONS AND ANSWERS

Date: 29 April 2025

Question and answer.

1. Is the WIFI needed for office users only or will you require it for guests? **Both Office users and guests**
2. Will the WIFI be on-premise or cloud controlled? **On-premise**
3. How many APs will you require? (Floor plans may be required to determine how many APs are required) **30**
4. I would like to inquire with respect to the tender mentioned on the subject line, do you have an estimated distance from the switches required to the LAN points? This information will be really useful when it comes to quoting the fly lids(cabling) price.
Furthest point will be about 70m
5. LAN points: Are this new installation or replacement? How far to server room? Limit to pull cabling is 100m to avoid loss of data. **See number 4**
6. Fly leads it also not specifying how many meters. The desk configuration will also give indication of meters required. **1m or 2 meters ? 2m**
7. WIFI AP: You requested 1 in quantity but looking at number of points 1 will not be enough to cover the area. How big is your office space and levels. The Aps needs to cover desktops ,laptops and mobile devices. **See number 3**
8. Cabinet : your quantity it goes back to same question about Aps. This shows that the place is big and you require cabinets per floor. **We have cabinets**
