2.2.16 Clarification of tender offer, or additional information, after submission

Provide clarification of a tender offer, or additional information, in response to a written request to do so from the CCT during the evaluation of tender offers within the time period stated in such request. No change in the competitive position of tenderers or substance of the tender offer is sought, offered, or permitted.

Note: This clause does not preclude the negotiation of the final terms of the contract with a preferred tenderer following a competitive selection process, should the CCT elect to do so.

Failure, or refusal, to provide such clarification or additional information within the time for submission stated in the CCT's written request may render the tender non-responsive.

2.2.17 Provide other material

2.2.17.1 Provide, on request by the CCT, any other material that has a bearing on the tender offer, the tenderer's commercial position (including joint venture agreements), preferencing arrangements, or samples of materials, considered necessary by the CCT for the purpose of the evaluation of the tender. Should the tenderer not provide the material, or a satisfactory reason as to why it cannot be provided, by the time for submission stated in the CCT's request, the CCT may regard the tender offer as non-responsive.

2.2.17.2 Provide, on written request by the CCT, where the transaction value inclusive of VAT **exceeds R 10 million**:

- a) audited annual financial statement for the past 3 years, or for the period since establishment if established during the past 3 years, if required by law to prepare annual financial statements for auditing;
- b) a certificate signed by the tenderer certifying that the tenderer has no undisputed commitments for municipal services towards a municipality or other service provider in respect of which payment is overdue for more than 30 days;
- c) particulars of any contracts awarded to the tenderer by an organ of state during the past five years, including particulars of any material non-compliance or dispute concerning the execution of such contract;
- d) a statement indicating whether any portion of the goods or services are expected to be sourced from outside the Republic, and, if so, what portion and whether any portion of payment from the municipality or municipal entity is expected to be transferred out of the Republic.

Each party to a Consortium/Joint Venture shall submit separate certificates/statements in the above regard.

2.2.17.3 Tenderers undertake to fully cooperate with the CCT's external service provider appointed to perform a due diligence review and risk assessment upon receipt of such written instruction from the CCT.

2.2.18 Samples, Inspections, tests and analysis

Provide access during working hours to premises for inspections, tests and analysis as provided for in the tender conditions or specifications.

If the **Specification** requires the tenderer to provide samples, these shall be provided strictly in accordance with the instructions set out in the Specification.

If such samples are not submitted as required in the bid documents or within any further time stipulated by the CCT in writing, then the bid concerned may be declared non-responsive.

The samples provided by all successful bidders will be retained by the CCT for the duration of any subsequent contract. Bidders are to note that samples are requested for testing purposes therefore samples submitted to the CCT may not in all instances be returned in the same state of supply and in other instances may not be returned at all. Unsuccessful bidders will be advised by the Project Manager or dedicated CCT Official to collect their samples, save in the aforementioned instances where the samples would not be returned.

2.2.19 Certificates

The tenderer must provide the CCT with all certificates as stated below:

2.2.19.1 Broad-Based Black Economic Empowerment Status Level Documentation

In order to qualify for preference points, it is the responsibility of the tenderer to submit documentary proof, either as certificates, sworn affidavits or any other requirement prescribed in terms of the B-BBEE Act, of its B-BBEE status level of contribution in accordance with the applicable Codes of good practise as issued by the Department of Trade and Industry, to the CCT at the Supplier Management Unit located within the Supplier Management / Registration Office, 2nd Floor (Concourse Level), Civic Centre, 12 Hertzog Boulevard, Cape Town (Tel 021 400 9242/3/4/5) or included with the tender submission.

Consortiums/Joint Ventures will qualify for preference points, provided that the **entity** submits the relevant certificate/scorecard in accordance with the applicable codes of good practise. Note that, in the case of unincorporated entities, a verified consolidated B-BBEE scorecard must be submitted in the form of a certificate with the tender.

Tenderers are further referred to the content of the **Preference Schedule** for the full terms and conditions applicable to the awarding of preference points.

The applicable code for this tender is the **Amended Codes of Good Practise (Generic Scorecard)** unless in possession of a valid sector certificate.

The tenderer shall indicate in Section 4 of the **Preference Schedule** the Level of Contribution in respect of the enterprise status or structure of the tendering entity (the supplier).

2.2.19.2 Evidence of tax compliance

Tenderers shall be registered with the South African Revenue Service (SARS) and their tax affairs must be in order and they must be tax compliant subject to the requirements of clause 2.2.1.1.2.h. In this regard, it is the responsibility of the Tenderer to submit evidence in the form of a valid Tax Clearance Certificate issued by SARS to the CCT at the Supplier Management Unit located within the Supplier Management / Registration Office, 2nd Floor (Concourse Level), Civic Centre, 12 Hertzog Boulevard, Cape Town (Tel 021 400 9242/3/4/5), or included with this tender. The tenderer must also provide its Tax Compliance Status PIN number on the **Details of Tenderer** pages of the tender submission.

Each party to a Consortium/Joint Venture shall submit a separate Tax Clearance Certificate.

Before making an award the City must verify the bidder's tax compliance status. Where the recommended bidder is not tax compliant, the bidder should be notified of the non-compliant status and be requested to submit to the City, within 7 working days, written proof from SARS that they have made arrangement to meet their outstanding tax obligations. The proof of tax compliance submitted by the bidder must be verified by the City via CSD or e-Filing. The City should reject a bid submitted by the bidder if such bidder fails to provide proof of tax compliance within the timeframe stated herein.

Only foreign suppliers who have answered "NO" to all the questions contained in the Questionnaire to Bidding

Foreign Suppliers section on the **Details of Tenderer** pages of the tender submission, are not required to register for a tax compliance status with SARS.

2.2.20 Compliance with Occupational Health and Safety Act, 85 of 1993

Tenderers are to note the requirements of the Occupational Health and Safety Act, 85 of 1993. The Tenderer shall be deemed to have read and fully understood the requirements of the above Act and Regulations and to have allowed for all costs in compliance therewith.

In this regard the Tenderer shall submit **upon written request to do so by the CCT**, a Health and Safety Plan in sufficient detail to demonstrate the necessary competencies and resources to deliver the goods or services all in accordance with the Act, Regulations and Health and Safety Specification.

2.2.21 Claims arising from submission of tender

The tenderer warrants that it has:

- a) inspected the Specifications and read and fully understood the Conditions of Contract.
- b) read and fully understood the whole text of the Specifications and Price Schedule and thoroughly acquainted himself with the nature of the goods or services proposed and generally of all matters which may influence the Contract.
- c) visited the site(s) where delivery of the proposed goods will take place, carefully examined existing conditions, the means of access to the site(s), the conditions under which the delivery is to be made, and acquainted himself with any limitations or restrictions that may be imposed by the Municipal or other Authorities in regard to access and transport of materials, plant and equipment to and from the site(s) and made the necessary provisions for any additional costs involved thereby.
- d) requested the CCT to clarify the actual requirements of anything in the Specifications and Price Schedule, the exact meaning or interpretation of which is not clearly intelligible to the Tenderer.
- e) received any notices to the tender documents which have been issued in accordance with the CCT's Supply Chain Management Policy.

The CCT will therefore not be liable for the payment of any extra costs or claims arising from the submission of the tender.

2.3 The CCT's undertakings

2.3.1 Respond to requests from the tenderer

2.3.1.1 Unless otherwise stated in the Tender Conditions, respond to a request for clarification received up to one week (where possible) before the tender closing time stated on the front page of the tender document.

2.3.1.2 The CCT's representative for the purpose of this tender is stated on the General Tender Information page.

2.3.2 Issue Notices

If necessary, issue addenda in writing that may amend or amplify the tender documents to each tenderer during the period from the date the tender documents are available until one week before the tender closing time stated in the Tender Data. The Employer reserves its rights to issue addenda less than one week before the tender closing time in exceptional circumstances. If, as a result a tenderer applies for an extension to the closing time stated on the front page of the tender document, the CCT may grant such extension and, shall then notify all tenderers who drew documents.

Notwithstanding any requests for confirmation of receipt of notices issued, the tenderer shall be deemed to have received such notices if the CCT can show proof of transmission thereof via electronic mail, facsimile or registered post.

2.3.3 Opening of tender submissions

2.3.3.1 Unless the two-envelope system is to be followed, open tender submissions in the presence of tenderers' agents who choose to attend at the time and place stated in the tender conditions.

Tenders will be opened immediately after the closing time for receipt of tenders as stated on the front page of the tender document, or as stated in any Notice extending the closing date and at the closing venue as stated in the General Tender Information.

2.3.3.2 Announce at the meeting held immediately after the opening of tender submissions, at the closing venue as stated in the General Tender Information, the name of each tenderer whose tender offer is opened and, where possible, the prices and the preferences indicated.

2.3.3.3 Make available a record of the details announced at the tender opening meeting on the CCT's website (<http://www.capetown.gov.za/en/SupplyChainManagement/Pages/default.aspx>.)

2.3.4 Two-envelope system

2.3.4.1 Where stated in the tender conditions that a two-envelope system is to be followed, open only the technical proposal of tenders in the presence of tenderers' agents who choose to attend at the time and place stated in the tender conditions and announce the name of each tenderer whose technical proposal is opened.

2.3.4.2 Evaluate the quality of the technical proposals offered by tenderers, then advise tenderers who have submitted responsive technical proposals of the time and place when the financial proposals will be opened. Open only the financial proposals of tenderers, who have submitted responsive technical proposals in accordance with the requirements as stated in the tender conditions, and announce the total price and any preferences claimed. Return unopened financial proposals to tenderers whose technical proposals were non responsive.

2.3.5 Non-disclosure

Not disclose to tenderers, or to any other person not officially concerned with such processes, information relating to the evaluation and comparison of tender offers and recommendations for the award of a contract, until after the award of the contract to the successful tenderer.

2.3.6 Grounds for rejection and disqualification

Determine whether there has been any effort by a tenderer to influence the processing of tender offers and instantly disqualify a tenderer (and his tender offer) if it is established that he engaged in corrupt or fraudulent practices.

2.3.7 Test for responsiveness

2.3.7.1 Appoint a Bid Evaluation Committee and determine after opening whether each tender offer properly received:

- a) complies with the requirements of these Conditions of Tender,
- b) has been properly and fully completed and signed, and
- c) is responsive to the other requirements of the tender documents.

2.3.7.2 A responsive tender is one that conforms to all the terms, conditions, and specifications of the tender documents without material deviation or qualification. A material deviation or qualification is one which, in the CCT's opinion, would:

- a) detrimentally affect the scope, quality, or performance of the goods, services or supply identified in the Specifications,
- b) significantly change the CCT's or the tenderer's risks and responsibilities under the contract, or
- c) affect the competitive position of other tenderers presenting responsive tenders, if it were to be rectified.

Reject a non-responsive tender offer, and not allow it to be subsequently made responsive by correction or withdrawal of any material deviation or qualification.

The CCT reserves the right to accept a tender offer which does not, in the CCT's opinion, materially and/or substantially deviate from the terms, conditions, and specifications of the tender documents.

2.3.8 Arithmetical errors, omissions and discrepancies

2.3.8.1 Check the responsive tenders for:

- a) the gross misplacement of the decimal point in any unit rate;
- b) omissions made in completing the Price Schedule; or
- c) arithmetic errors in:
 - i) line item totals resulting from the product of a unit rate and a quantity in the Price Schedule; or
 - ii) the summation of the prices; or
 - iii) calculation of individual rates.

2.3.8.2 The CCT must correct the arithmetical errors in the following manner:

- a) Where there is a discrepancy between the amounts in words and amounts in figures, the amount in words shall govern.
- b) If pricing schedules apply and there is an error in the line item total resulting from the product of the unit rate and the quantity, the line item total shall govern and the rate shall be corrected. Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as tendered shall govern, and the unit rate shall be corrected.
- c) Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the tenderer's addition of prices, the total of the prices shall govern and the tenderer will be asked to revise selected item prices (and their rates if Price Schedules apply) to achieve the tendered total of the prices.

Consider the rejection of a tender offer if the tenderer does not correct or accept the correction of the arithmetical error in the manner described above.

2.3.8.3 In the event of tendered rates or lump sums being declared by the CCT to be unacceptable to it because they are not priced, either excessively low or high, or not in proper balance with other rates or lump sums, the tenderer may be required to produce evidence and advance arguments in support of the tendered rates or lump sums objected to. If, after submission of such evidence and any further evidence requested, the CCT is still not satisfied with the tendered rates or lump sums objected to, it may request the tenderer to amend these rates and lump sums along the lines indicated by it.

The tenderer will then have the option to alter and/or amend the rates and lump sums objected to and such other related amounts as are agreed on by the CCT, but this shall be done without altering the tender offer in accordance with this clause.

Should the tenderer fail to amend his tender in a manner acceptable to and within the time stated by the CCT, the CCT may declare the tender as non-responsive.

2.3.9 Clarification of a tender offer

The CCT may, after the closing date, request additional information or clarification from tenderers, in writing on any matter affecting the evaluation of the tender offer or that could give rise to ambiguity in a contract arising from the tender offer, which written request and related response shall not change or affect their competitive position or the substance of their offer. Such request may only be made in writing by the Director: Supply Chain Management using any means as appropriate.

2.3.10 Evaluation of tender offers

2.3.10.1 General

2.3.10.1.1 Reduce each responsive tender offer to a comparative price and evaluate them using the tender evaluation methods and associated evaluation criteria and weightings that are specified in the tender conditions.

2.3.10.1.2 For evaluation purposes only, the effects of the relevant contract price adjustment methods will be considered in the determination of comparative prices as follows:

- a. If the selected method is based on bidders supplying rates or percentages for outer years, comparative prices would be determined over the entire contract period based on such rates or percentages.
- b. If the selected method is based on a formula, indices, coefficients, etc. that is the same for all bidders during the contract period, comparative prices would be the prices as tendered for year one.
- c. If the selected method is based on a formula, indices, coefficients, etc. that varies between bidders, comparative prices would be determined over the entire contract period based on published indices relevant during the 12 months prior to the closing date of tenders.
- d. If the selected method includes an imported content requiring rate of exchange variation, comparative prices would be determined based on the exchange rates tendered for the prices as tendered for year one. The rand equivalent of the applicable currency 14 days prior to the closing date of tender will be used (the CCT will check all quoted rates against those supplied by its own bank).
- e. If the selected method is based on suppliers' price lists, comparative prices would be the prices as tendered for year one.
- f. If the selected method is based on suppliers' price lists and / or rate of exchange, comparative prices would be determined as tendered for year one whilst taking into account the tendered percentage subject to rate of exchange (see sub clause (d) for details on the calculation of the rate of exchange).

2.3.10.1.3 Where the scoring of functionality forms part of a bid process, each member of the Bid Evaluation Committee must individually score functionality. The individual scores must then be interrogated and calibrated if required where there are significant discrepancies. The individual scores must then be added together and averaged to determine the final score.

2.3.10.2 Decimal places

Score financial offers, preferences and functionality, as relevant, to two decimal places.

2.3.10.3 Scoring of tenders (price and preference)

2.3.10.3.1 Points for price will be allocated in accordance with the formula set out in this clause based on the prices/rates in relation to a typical project/job as set out in the **Price Schedule (Part 5)**.

2.3.10.3.2 Points for preference will be allocated in accordance with the provisions of **Preference Schedule** and the table in this clause.

2.3.10.3.3 The terms and conditions of **Preference Schedule** as it relates to preference shall apply in all respects to the tender evaluation process and any subsequent contract.

2.3.10.3.4 Applicable formula:

Either the 80/20 or 90/10 preference point system will apply to this tender and the lowest acceptable tender will be used to determine the applicable preference point system

The 80/20 price/preference points system will be applied to the evaluation of responsive tenders up to and including a Rand value of R50'000'000 (all applicable taxes included), whereby the order(s) will be placed with the tenderer(s) scoring the highest total number of adjudication points.

Price shall be scored as follows:

$$Ps = 80 \times \left(1 - \frac{(Pt - Pmin)}{Pmin}\right)$$

Where: Ps is the number of points scored for price;
Pt is the price of the tender under consideration;
Pmin is the price of the lowest responsive tender.

Preference points shall be scored as follows:

Points will be awarded to tenderers who are eligible for preferences in respect of the B-BBEE level of contributor attained in terms of **Preference Schedule**.

A maximum of 20 tender adjudication points will be awarded for preference to tenderers with responsive tenders who are eligible for such preference, in accordance with the criteria listed below.

Up to **20** adjudication points (N_P) will be awarded for the level of B-BBEE contribution, in accordance with the tables below:

B-BBEE Status Level of Contributor	Number of Points for Preference

The total number of adjudication points (N_T) shall be calculated as follows:

$$N_T = Ps + N_P$$

Where: Ps is the number of points scored for price;
N_P is the number of points scored for preference.

OR

The 90/10 price/preference points system will be applied to the evaluation of responsive tenders over a Rand value of R50'000'000 (all applicable taxes included), whereby the order(s) will be placed with the tenderer(s) scoring the highest total number of adjudication points.

Price shall be scored as follows:

$$P_s = 90 \times \left(1 - \frac{(P_t - P_{min})}{P_{min}}\right)$$

Where: P_s is the number of points scored for price;
 P_t is the price of the tender under consideration;
 P_{min} is the price of the lowest responsive tender.

Preference points shall be scored as follows:

Points will be awarded to tenderers who are eligible for preferences in respect of the B-BBEE level of contributor attained in terms of **Preference Schedule**.

A maximum of 10 tender adjudication points will be awarded for preference to tenderers with responsive tenders who are eligible for such preference, in accordance with the criteria listed below.

The total number of adjudication points (N_T) shall be calculated as follows:

$$N_T = P_s + N_P$$

Where: P_s is the number of points scored for price;
 N_P is the number of points scored for preference.

The terms and conditions of the **Preference Schedule** shall apply in all respects to the tender evaluation process and any subsequent contract.

2.3.10.5 Risk Analysis

Notwithstanding compliance with regard to any requirements of the tender, the CCT will perform a risk analysis in respect of the following:

- a) reasonableness of the financial offer
- b) reasonableness of unit rates and prices
- c) the tenderer's ability to fulfil its obligations in terms of the tender document, that is, that the tenderer can demonstrate that he/she possesses the necessary professional and technical qualifications, professional and technical competence, financial resources, equipment and other physical facilities, managerial capability, reliability, capacity, experience, reputation, personnel to perform the contract, etc.; the CCT reserves the right to consider a tenderer's existing contracts with the CCT in this regard
- d) any other matter relating to the submitted bid, the tendering entity, matters of compliance, verification of submitted information and documents, etc.

The conclusions drawn from this risk analysis will be used by the CCT in determining the acceptability of the tender offer.

No tenderer will be recommended for an award unless the tenderer has demonstrated to the satisfaction of the CCT that he/she has the resources and skills required.

2.3.11 Negotiations with preferred tenderers

The CCT may negotiate the final terms of a contract with tenderers identified through a competitive tendering process as preferred tenderers provided that such negotiation:

- a) does not allow any preferred tenderer a second or unfair opportunity;
- b) is not to the detriment of any other tenderer; and
- c) does not lead to a higher price than the tender as submitted.

If negotiations fail to result in acceptable contract terms, the City Manager (or his delegated authority) may terminate the negotiations and cancel the tender, or invite the next ranked tenderer for negotiations. The original preferred tenderer should be informed of the reasons for termination of the negotiations. If the decision is to invite the next highest ranked tenderer for negotiations, the failed earlier negotiations may not be reopened by the CCT.

Minutes of any such negotiations shall be kept for record purposes.

The provisions of this clause will be equally applicable to any invitation to negotiate with any other tenderers.

In terms of the PPPFA Regulations, 2017, tenders must be cancelled in the event that negotiations fail to achieve a market related price with any of the three highest scoring tenderers.

2.3.12 Acceptance of tender offer

Notwithstanding any other provisions contained in the tender document, the CCT reserves the right to:

2.3.12.1 Accept a tender offer(s) which does not, in the CCT's opinion, materially and/or substantially deviate from the terms, conditions, and specifications of the tender document.

2.3.12.2 Accept the whole tender or part of a tender or any item or part of any item or items from multiple manufacturers, or to accept more than one tender (in the event of a number of items being offered), and the CCT is not obliged to accept the lowest or any tender.

2.3.12.3 Accept the tender offer(s), if in the opinion of the CCT, it does not present any material risk and only if the tenderer(s)::

- a) is not under restrictions, has any principals who are under restrictions, or is not currently a supplier to whom notice has been served for abuse of the supply chain management system, preventing participation in the employer's procurement,
- b) can, as necessary and in relation to the proposed contract, demonstrate that he or she possesses the professional and technical qualifications, professional and technical competence, financial resources, equipment and other physical facilities, managerial capability, reliability, experience and reputation, expertise and the personnel, to perform the contract,
- c) has the legal capacity to enter into the contract,

- d) is not insolvent, in receivership, under Business Rescue as provided for in chapter 6 of the Companies Act, 2008, bankrupt or being wound up, has his affairs administered by a court or a judicial officer, has suspended his business activities, or is subject to legal proceedings in respect of any of the foregoing, complies with the legal requirements, if any, stated in the tender data, and
- e) is able, in the opinion of the employer, to perform the contract free of conflicts of interest.

If an award cannot be made in terms of anything contained herein, the Employer reserves the right to consider the next ranked tenderer(s).

2.3.12.4 Not to make an award, or revoke an award already made, where the implementation of the contract may result in reputational risk or harm to the City as a result of (inter alia):

- a) reports of poor governance and/or unethical behaviour;
- b) association with known family of notorious individuals;
- c) poor performance issues, known to the City;
- d) negative social media reports; and
- e) adverse assurance (e.g. due diligence) report outcomes.

2.3.12.5 The CCT reserves the right to nominate an alternative bidder at the time when an award is made and in the event that a contract is terminated during the execution thereof, the CCT may consider the award of the contract, or non-award, to the alternative bidder in terms of the procedures included its SCM Policy.

2.3.13 Prepare contract documents

2.3.13.1 If necessary, revise documents that shall form part of the contract and that were issued by the CCT as part of the tender documents to take account of:

- a) notices issued during the tender period,
- b) inclusion of some of the returnable documents, and
- c) other revisions agreed between the CCT and the successful tenderer.

2.3.13.2 Complete the schedule of deviations attached to the form of offer and acceptance, if any.

2.3.14 Notice to successful and unsuccessful tenderers

2.3.14.1 Before accepting the tender of the successful tenderer the CCT shall notify the successful tenderer in writing of the decision of the CCT's Bid Adjudication Committee to award the tender to the successful tenderer. No rights shall accrue to the successful tenderer in terms of this notice

2.3.14.2 The CCT shall, at the same time as notifying the successful tenderer of the Bid Adjudication Committee's decision to award the tender to the successful tenderer, also give written notice to the other tenderers informing them that they have been unsuccessful.

2.3.15 Provide written reasons for actions taken

Provide upon request written reasons to tenderers for any action that is taken in applying these Conditions of Tender, but withhold information which is not in the public interest to be divulged, which is considered to prejudice the legitimate commercial interests of tenderers or might prejudice fair competition between tenderers.

(5) PRICE SCHEDULE

TENDERERS MUST NOTE THAT WHEREVER THIS DOCUMENT REFERS TO ANY PARTICULAR TRADE MARK, NAME, PATENT, DESIGN, TYPE, SPECIFIC ORIGIN OR PRODUCER, SUCH REFERENCE SHALL BE DEEMED TO BE ACCOMPANIED BY THE WORDS ‘OR EQUIVALENT’

Pricing Instructions:

- 5.1 State the rates and prices in Rand unless instructed otherwise in the tender conditions.
- 5.2 Include in the rates, prices, and the tendered total of the prices (if any) all duties, taxes (except Value Added Tax (VAT), and other levies payable by the successful tenderer, such duties, taxes and levies being those applicable 14 days before the closing time stated in the General Tender Information.
- 5.3 All prices tendered must include all expenses, disbursements and costs (e.g. transport, accommodation etc.) that may be required for the execution of the tenderer's obligations in terms of the Contract, and shall cover the cost of all general risks, liabilities and obligations set forth or implied in the Contract as well as overhead charges and profit (in the event that the tender is successful). All prices tendered will be final and binding.
- 5.4 All prices shall be tendered in accordance with the units specified in this schedule.
- 5.5 Where a value is given in the Quantity column, a Rate and Price (the product of the Quantity and Rate) is required to be inserted in the relevant columns.
- 5.6 The successful tenderer is required to perform all tasks listed against each item. The tenderer must therefore tender prices/rates on all items as per the section in the Price Schedule. **An item against which no rate is/are entered, or if anything other than a rate or a nil rate (for example, a zero, a dash or the word “included” or abbreviations thereof) is entered against an item, it will also be regarded as a nil rate having been entered against that item, i.e. that there is no charge for that item. The Tenderer may be requested to clarify nil rates, or items regarded as having nil rates; and the Employer may also perform a risk analysis with regard to the reasonableness of such rates.**
- 5.7 Provide fixed rates and prices for the duration of the contract that are not subject to adjustment except as otherwise provided for in clause 17 of the Conditions of Contract and as amplified in the Special Conditions of Contract.
- 5.8 A flat / once-off rate for establishment costs (to set up jigs, templates, tools, design, fabrication infrastructure etc.) to manufacture new containers has been allowed for under item 6.2. This rate will only be paid after the establishment infrastructure has been verified and checked by the City's representative, and will only be eligible for invoicing **once** with the placement of the first order for new containers.
NOTE: that this item can be **Zero rated / R0.00** if the tendering entity is already in possession of the necessary infrastructure to make new containers, or sources containers externally.
NOTE: that these conditions will **only** apply to the service provider awarded section 2 of the tender.
- 5.9 Item 1.1 allows for the transportation of the containers from the respective waste management facilities to the service provider's workshop, and pricing is per return trip, irrespective of how many containers are transported. Should the service provider transport from/to two different waste management facilities on one trip, the price will be of the longest distance travelled. Note that this does not apply to Section 2 of the tender.
- 5.10 The units of measurement described in the Price Schedule are metric units. Abbreviations which may be used are as follows:

Km = Kilometre
 Kg = Kilogram
 Each = Each item (i.e. each container or each component)
 Hrs = Hours
 m² = Square meter

2 Conditions associated with the granting of preferences

- 1) accept that the number of preference points allocated will be based on the B-BBEE status level of contributor of the supplier as at the closing date for submission of tender offers;
- 2) not sub-contract more than 25% of the value of the contract to sub-contractors that do not have an equal or higher B-BBEE status level of contributor than the supplier, unless the intended sub-contractors are exempted micro enterprises that have the capability and ability to execute the sub-contract works or unless otherwise declared in terms of Section 5 below;
- 3) accept that a contract may not be awarded if the price offered is not market related;
- 4) accept the sanctions set out in Section 3 below should Condition 2(2) be breached, or should the tenderer have submitted any false information regarding its B-BBEE status level of contributor, local production and content, or any other matter required in terms of this bid that will affect, or has affected the bid evaluation;
- 5) accept that, in order to qualify for preference points, it is the responsibility of the supplier to submit documentary proof of its BBEE level of contribution in accordance with the Codes of Good Practise, 2013, to the CCT at the Supplier Management Unit located within the Tender Distribution Office, 2nd Floor (Concourse Level), Civic Centre, 12 Hertzog Boulevard, Cape Town (Tel 021 400 9242/3/4/5);

The mediator shall agree the procedures, representation and dates for the mediation process with the parties. The mediator may meet the parties together or individually to enable a settlement.

Where the parties reach settlement of the dispute or any part thereof, the mediator shall record such agreement and on signing thereof by the parties the agreement shall be final and binding.

Save for reference to any portion of any settlement or decision which has been agreed to be final and binding on the parties, no reference shall be made by or on behalf of either party in any subsequent court proceedings, to any outcome of an amicable settlement by mutual consultation, or the fact that any particular evidence was given, or to any submission, statement or admission made in the course of amicable settlement by mutual consultation or mediation.

20. Subcontracts

- 20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under this contract if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.

21. Delays in the supplier's performance

- 21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.
- 21.2 If at any time during the performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his or her discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.
- 21.3 No provision in a contract shall be deemed to prohibit the obtaining of supplies or services from a national department, provincial department, or a local authority.
- 21.4 The right is reserved to procure, outside of the contract, small quantities of supplies; or to have minor essential services executed if an emergency arises, or the supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.
- 21.5 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 21.2 without the application of penalties.

- 21.6 Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without cancelling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and, without prejudice to his other rights, be entitled to claim damages from the supplier.

22. Penalties

- 22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services, using the current prime interest rate, calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

- 23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

 - (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.
- 23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.
- 23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.
- 23.4 If a purchaser intends imposing a restriction on a supplier or any person associated with the supplier, the supplier will be allowed a time period of not more than 14 (fourteen) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated 14 (fourteen) days the purchaser may regard the intended penalty as not objected against and may impose it on the supplier.
- 23.5 Any restriction imposed on any person by the Accounting Officer/Authority will, at the discretion of the Accounting Officer/Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person is or was, in the opinion of the Accounting Officer/Authority, actively associated.
- 23.6 If a restriction is imposed, the purchaser must, within 5 (five) working days of such imposition, furnish the National Treasury with the following information:
- (i) the name and address of the supplier and/or person restricted by the purchaser;
 - (ii) the date of commencement of the restriction;
 - (iii) the period of restriction; and
 - (iv) the reasons for the restriction.

These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.

- 23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, Act 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the

Register, the person will be prohibited from doing business with the public sector for a period of not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction, and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

24. Anti-dumping and countervailing duties and rights

24.1 When, after the date of bid, provisional payments are required, or anti-dumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidised import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall, on demand, be paid forthwith by the contractor to the State, or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he or she delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which may be due to him or her.

25. Force majeure

25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if, and to the extent that, his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.

25.2 If a force majeure situation arises, the supplier shall notify the purchaser promptly, in writing, of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

26. Termination for insolvency

26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

27. Settlement of Disputes

27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve such dispute or difference amicably, by mutual consultation.

27.2 If, after 30 (thirty) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.

27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.

27.4 Mediation proceedings shall be conducted in accordance with the rules of procedure specified in the SCC.

27.5 Notwithstanding any reference to mediation and/or court proceedings herein,

- (a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and
- (b) the purchaser shall pay the supplier any monies due to the supplier.

28. Limitation of Liability

- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs,

- provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and
- (b) the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.

29. Governing language

30. Applicable Law

- 30.1 The contract shall be interpreted in accordance with South African laws, unless otherwise specified in the SCC.

31. Notices

- 31.1 Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail, and any other notice to him shall be posted by ordinary mail, to the address furnished in his bid or to the address notified later by him in writing; and such posting shall be deemed to be proper service of such notice.
- 31.2 The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice.

32. Taxes and Duties

- 32.1 A foreign supplier shall be entirely responsible for all taxes, stamp duties, licence fees, and other such levies imposed outside the purchaser's country.
- 32.2 A local supplier shall be entirely responsible for all taxes, duties, licence fees, etc., incurred until delivery of the contracted goods to the purchaser.
- 32.3 No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid the Department must be in possession of a tax clearance certificate submitted by the bidder. This certificate must be an original issued by the South African Revenue Services.

- 34.1 In terms of section 4 (1) (b) (iii) of the Competition Act, Act 89 of 1998, as amended, an agreement between or concerted practice by firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder(s) is/are or a contractor(s) was/were involved in collusive bidding (or bid rigging).
- 34.2 If a bidder(s) or contractor(s), based on reasonable grounds or evidence obtained by the purchaser, has/have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in the Competition Act, Act 89 of 1998.

(13) SPECIFICATION(S)

13.1 OVERVIEW OF SERVICES REQUIRED

The City of Cape Town requires a service provider to repair and/or replace components of, paint and refurbish existing ISO 2768 waste transport containers in order to extend their useful life and serviceability, as well as the supply of new containers where and when required .

The work, inter alia, includes the replacement of worn steel panels and ancillary components (e.g. hinges, hooks, grease-nipples, seals, ratchets, doors and other container items, etc.) of the main frame of the containers, as well as the worn sections of the rear and front doors. It also includes painting of parts of, or complete containers (including the preparation, sandblasting, stripping, priming and painting) per specification.

The containers will need to be transported by the contractor from the four disposal sites (listed below) and/or any other required location, to the contractor's workshop where the required work will be done and returned to the site after completion. Whereas minor work required on the containers shall be executed on-site at the relevant facility.

The repairs and maintenance will be conducted on an ad hoc basis and not all the listed containers will necessarily need repair. Due to operational needs, the turn-around period must be such that there is no disruption to the adequate availability of containers per site. Therefore, the maximum number of containers that can be taken out of service for refurbishing/repairs will be six at any one time, per site. In addition, the completed repaired containers or new containers will be put into service immediately upon delivery to the site and the warranty/defects period for each container shall run from the date it is put back into service.

All replacement / repair items include the cost of removal and replacement of item inclusive of labour and material.

There is no commissioning, assembling and testing required, as this will be covered in the warranty.

The four disposal sites referred to above are:

13.3 CATEGORIES OF WORK TO BE DONE

There are 4 main categories of container related work to be done:

- Section One:
 - Repair / replacement of structural components
 - Painting of containers – partially or wholly
 - Ancillary work
- Section Two:
 - Supply of new containers

The containers in service have various degrees of wear, damage or faults. Therefore each container will therefore need to be assessed, and an interim work schedule completed by the service provider in consultation with and approved by the City's Departmental representative, prior to the container leaving the premises of the City.

There may be additional containers (over and above those indicated above) that may require repair, painting and/or replacing during the course of the contract. This work would be of a similar nature to that of the above listed containers.

Where a container is beyond structural repair or severely damaged, it may need to be replaced with a new container. Additional containers may also be required to accommodate operational needs. The need

for a replacement/new container will be identified by the City's Departmental representative. This work must not take preference over the other two categories of work (repair or replacement of structural components and painting), and sufficient time/resources should be allowed for this; so as not to interfere with the turnaround times of containers temporarily taken out of service for repair or replacement of structural components and painting. This will only apply in the event that section 1 and section 2 of the tender is awarded to the same service provider.

It must be noted that there are different containers at the named sites. Some of these containers are of similar design, whilst others are very different. The site manager or City representative will decide on which type of container the City will require. The service provider may, however; suggest modifications which must be suitable and ISO rated and remains compatible with the compactors/lifting systems of the relevant sites where it will be used. The method of loading waste into the containers and the moving and placing of containers must be considered in any new modified design and should improve either the integrity of the container or the versatility/standardisation of same. All new containers **MUST comply with ISO 2768** and must be certified by an engineer as fit for purpose and structurally sound. A copy of the certificate must be submitted when the container is delivered to the site.

13.4 LOGISTICS

Consideration must be given to the time required for transporting the containers to and from the workshop(s) where the work will be performed. The number of containers that are worked on every month must allow reasonable time for the completion of the containers requiring work within the contract period.

A maximum of six containers can be removed from individual sites at any one/given time, unless otherwise specified or allowed by the facility manager or City of Cape Town's representative. Containers must be returned within 30 days from date of removal from site, unless due to unforeseen circumstances a longer period may be required, which must be requested from and approved in writing by the City of Cape Town representative. This would allow for contingencies and returns. The required capacity, competence and appropriate facilities to adhere to these targets are critical.

13.5 ESTABLISHMENT AND VERIFICATION OF CONDITION OF CONTAINERS

During the tenure of the contract, there must always be sufficient numbers of containers available for use by the facility for transporting the waste, hence the need to take off-line containers and to return completed containers, in cycles that do not disrupt or hinder waste transfer to landfill sites. Unforeseen circumstances must be allowed for. The successful service provider must, on a quarterly basis, submit a planned schedule of work for approval by the City's representative that complies with the requirements in the specification to ensure minimal impact on operations at the facilities.

The state of the panels must be established before work commences on each container. Any panels that are worn through and/or thinner than structurally acceptable limits, must be removed and replaced. An assessment based on material thickness shall be conducted to evaluate the structural integrity of each container. Standard ultrasonic material thickness testing should be used to establish which sections of panels must be replaced. Panels found to be of structurally compromising integrity shall be considered for replacement. Change of container design and exchange of the container's structural components must be specified by a facility manager and acknowledged by the City's representative, prior to removal of the container from site or commencement of the work. Proof of calculations, summations and tests shall be submitted with every completion report, upon delivery of the containers. Dented or damaged panels not constituting a structural integrity problem shall be repaired / re-instated.

The schedule of work to be done for each container must be approved by the designated City representative in writing prior to any work commencing on that container. This will be done before the container is removed from the site and on return to the site refurbishment done will be verified and approved by the designated person. A warranty of 12 months will be applicable on work done from the date the container is put back in service (for refurbished) or commissioned (for new).

13.6 TRANSPORT OF CONTAINERS

Transport of the containers will be done by the service provider from the disposal sites to the workshop where the work will be undertaken unless deemed as minor works. Transportation of the containers may include transporting the containers to/from any other waste management or disposal facility specified by the City's representative. Completed containers will be returned to the same site, unless otherwise

specified by the City of Cape Town's representative. The containers will be inspected on site before being put back into service. The transport costs must be indicated in the pricing schedule in R/kilometre and a log book must be provided to (and verified by the) City's departmental representative when claiming for transport costs.

Minor works will be executed on site and a designated work area will be provided to the contractor by the facility manager. In such instances, the containers will remain on site and there would be no transport costs incurred.

The contractor must note that there are two different loading methods used at the facilities, by Hook lift or by Gantry crane.

KWMF- Hook lift vehicle

ARTS and SRTS will be done by site staff. At KWMF and BRTS the loading and offloading of the containers will be the contractor's responsibility. Loading and offloading at the contractor's workshop will be the contractor's responsibility.

A guide is given in the table below (as an example only) of distances from potential workshop sites in Cape Town to the various Disposal facilities.

KWMF/BRTS - Hook lift vehicle

ARTS/SRTS - Overhead Gantry Crane

The contractor must thus provide the necessary/appropriate ISO container vehicle to transport the containers from and to the required disposal facility. Loading and offloading of the containers at ARTS and SRTS will be done by facility staff.

13.7 PERFORMING WORK ON SITE

Prior to accessing any of the City's waste management facilities, the successful tenderer(s)' staff will be required to attend a compulsory Health and Safety briefing session. Whilst performing work on-site at any of the City's waste management facilities, the successful tenderer(s)' staff will be required to comply with all Health and Safety regulations applicable to that site.

13.8 WORK SPECIFICATIONS

13.8.1 3mm and 4mm STEEL THICKNESS

The panels between the frame on the sides and roof, where required, must be replaced with a minimum 3 mm steel plate (350 WA quality). The panels between the frame on the sides and roof of the containers at BRTS are produced from S355MC steel 4mm thick plates. In the case where structurally required, the 3mm steel panels between the frame on the sides and roof may be replaced with a minimum 4 mm steel plate (S355MC steel or 350 WA quality) with the approval of the City's representative. (Product options: Benox, Rocktuff, Rocklast steel or technical equivalent).

Containers requiring strengthening and reinforcing of the body sides and roof panels (including the container frame) will be specified by the facility manager, thereafter an assessment must be conducted for the required panel ancillary work and upon delivery it must remain in adherence to an ISO rated structural integrity.

13.8.2 5mm THICKNESS STEEL

The panels between the frames on the floor of the containers, where required, must be replaced with a minimum 5 mm steel plate (350 WA quality). Please note that the containers at BRTS are produced from S355MC steel with 5mm floor thickness. (Product options: Benox, Rocktuff, Rocklast steel or technical equivalent).

13.8.3 DOOR – FRONT (SMALL / LOADING)

The panel on the front door, where required, must be replaced with a minimum 3 mm steel plate (350 WA quality). The door plate must be removed for proper assessment of the steel plate and rubber seals must be replaced where required, with similar or equivalent material. When specified by the facility manager or Departmental representative, the swing door on the builders' rubble containers can be replaced with a single lift-up (flip) door. Prior to refurbishing the front loading door, it is imperative that the position of the opening mechanisms on the containers be verified for accuracy. The door must be straightened if deformed (bent) or where steel panel damage is excessive, must be replaced with a minimum 3 mm steel plate (350 WA quality). (Product options: Benox, Rocktuff, Rocklast steel, or technical equivalent).

13.8.4 DOOR – REAR (LARGE / MAIN)

The doors of the containers vary in design and size, thus must be removed for proper assessment of steel panels, hinges and seals, bushes etc. Hinges and hooks must be repaired or replaced where required. An additional hinge may be required on the TFM™ compactor containers comprising presently with only two structural hinges. Hinge welds should also be tested for cracks etc. to establish whether they require re-welding or replacement. Door levers on compaction, open bulky and rubble containers, may need to be removed and replaced with a ratchet. The door must be straightened if deformed (bent) or where steel panel damage is excessive must be replaced with a minimum 3 mm steel plate (350 WA quality). (Product options: Benox, Rocktuff, Rocklast steel, or technical equivalent).

13.8.5 ANCILLARY WORK

Ancillary work refers to any additional work or structural components required/recommended or specified over and above the primary work/structural components listed items. The material supplied for the ancillary work must be ISO or SANS rated and/or must be approved by the facility manager or City's Departmental representative. Ancillary work may include work recommended by the contractor and must only be performed after approval has been received in writing from the facility manager or City's representative. Such work may include the exchange of structural components or change in design as specified/approved by the facility manager or City representative. The work will be quoted for (materials, labour, drawing/sketch, specifications) and submitted to the city representative for approval. If materials have to be ordered in standard quantity (e.g. per sheet/plate) and is in excess of the job requirement, the excess material will be the property of the City and will be handed to the city representative with the completed work. If this excess material is then required for another job, it may be used and not billed for. Note that rates remain per kg for materials, and labour has been split into the designated type that allows for the relevant skill required/used for the job.

Ancillary work refers to any additional work or structural components required or specified over and above the primary work/structural components listed items. The material supplied for the ancillary work must be ISO or SANS rated and/or must be approved by the facility manager or City's Departmental representative. Ancillary work may include work recommended by the contractor and must only be performed after approval has been received in writing from the facility manager or City's representative. Such work may include the exchange of structural components or change in design as specified/approved by the facility manager or City representative.

13.8.6 WELDING

Artisans and their welding methods and applications must comply with the relevant South African Standards. The standards must comply with good engineering principles and modern best practice for construction welding. All welders must be competent, experienced artisans approved in accordance with

SABS 0162 and SABS 044. The appropriate weld type for the type of steel used must be employed. Welders' certification must be submitted with each job completed as well as material certificates and paint specifications, for each container done.

The contractor must submit the appropriate internationally approved Quality Control Plan, with job cards etc. for all fabrication, welding, cutting work as well as Health and Safety compliance certificates. These must accompany each completed container on return to the site, with the pre-approved schedule mentioned earlier.

The contractor must straighten deformed doors and where deemed necessary reinforce the deformed doors or structural components with a channel or plate, but the contractor must first obtain approval in writing from the client to conduct the reinforcement, without affecting the integrity of the container. Where TFM™ Containers have defective hinges due to shearing off, the double hinge plate should be replaced with a single plate which must be the same size thickness as the double hinge plate.

The contractor may occasionally be requested by the client to conduct and produce X-ray testing certificates.

13.8.7 PAINTING AND PREPPING

Containers requiring painting, including those of which the above work has been completed, will be prepared, primed and painted according to the paint specification below (see Table 1 and Table 2) or equivalent. The painting is only applicable to the external surfaces of the container, except in the case of the rear door and the sliding front door section, which must be done on all surfaces.

Sufficient time must be allowed for the preparation and drying of the different coats of primer and paint, before delivery of the container (not withstanding that the schedule of completion and delivery will provide for the required number of containers for use, between the delivery of refurbished containers and removal from site of old containers).

Each completed container will have the **number** stencilled by the contractor on the main, middle side panel and on the roof of the container body, in black durable UV resistant paint, of a size (height of numeral) not smaller than 300mm.

The final colour coding must be in accordance with the SANS 10140 or the BS 381C112 and must adhere to the following colours, unless changed by the City representative:

- Arctic Blue and in accordance with the SANS10140, for ARTS
- Synlac Green and in accordance with the SANS 10140, for SRTS
- White and in accordance with the SANS 10140, for KWMF
- Canary Yellow and in accordance with the SANS 10140, for BRTS

* Material / Supplier – or a technical equivalent that is acceptable to the City's representative

In all cases, other equivalent materials and suppliers are acceptable. The product selected will be of the best quality from an approved manufacturer. Different coats in any one coating system will be provided by the same manufacturer and the Contractor shall obtain written confirmation from the supplier that when using their product the systems offered are correct and **suitable** for that specific application.

All surfaces will be prepared as specified, coatings applied strictly in accordance with the relevant Product Data Sheet, crevices be filled with a compatible HB primer or filler, all edges and welds will have at least 1 stripe coat which should be the same as the primer or the intermediate coat, and the Dry Film Thickness (dft) will be measured using an approved thickness gauge. This dft will be the minimum (and not average) thickness.

Further, for this work, the contractor must have a formal working Quality Management System in place. The contractor shall perform all inspections necessary to ensure that the surface preparation and coating application complies with the requirements of the contract specification and the Material Data Sheet. All inspections shall be recorded daily and these records be submitted to the City's Departmental representative along with visual evidence. The contractor shall allow the paint supplier to do regular inspections. All QC documents shall be available for inspection by the client (City's Departmental representative) or third party inspector. Each container shall have a QC document bearing the City's container identification number to provide traceability. All testing instruments shall be in good working order with current calibration certificates kept on site at the contractor's workshop(s) for inspection.

13.9 WORKSHOP

It is expected that a workshop of adequate size be supplied and established within 90 day from commencement of contract, within the City of Cape Town boundaries, by the contractor for purposes of all the tender activities.
