2. THE PURPOSE

This tender aims to appoint a Supplier for the supply and delivery of disposable body bags to all the Gauteng Forensic Pathology Service facilities for a period of three (3) years.

3. BACKGROUND

Forensic Pathology Service's primary objective is to render a medico-legal investigation of unnatural deaths. Under the National Health Act (Act 61 of 2003) requirements, the Gauteng Department of Health assumed the responsibility for providing the Forensic Medical Service (FMS) with effect from 1 April 2006.

Eleven (11) Forensic Pathology Service laboratories in Gauteng work with other stakeholders when unnatural deaths are reported. When called out to scenes, one of the crucial items that Forensic Officers carry with them is body bags, used to collect bodies to preserve evidence. Body bags are used when issuing out bodies to respective families. According to the standard operating procedures, at least two body bags should be used per body. However, the Forensic Pathology Service facilities process plus minus twenty-two thousand (22 000) bodies on average per annum and are likely to use three body bags per body, which will amount to sixty-six thousand (66 000) per annum, which amounts to a hundred and ninety-eight thousand (198 000) per cycle of three years.
