SECTION 2

BACKGROUND OVERVIEW AND SCOPE REQUIREMENTS

1 INTRODUCTION

The LDPT road-based transport operation Strategic Plan is focused on turning it around and is aligned to the PRASA Get on Track strategy which refers to the financial self-sustainability of the LDPT road-based transport operation. The strategy includes a detailed turnaround plan, which identify key structural and policy interventions to ensure that the LDPT road-based transport operation becomes financially self-sustainable in the medium term.

The LDPT road-based transport operation Strategic Turnaround Plan was developed to improve reliability, availability, predictability, and safety (RAPS) of the services with a view of ensuring consistent, efficient, and effective operations leading to financial sustainability and improved customer centricity.

2 BACKGROUND

2.1 SELLING OF BUSES BY AUTOPAX TO PRASA

Autopax had been under business rescue since November 2021 and the revised business rescue plan approving the sale of the operating assets from Autopax and transfer identified employees to PRASA, required to continue with the bus operations was approved by creditors on 22 May 2024. The sale agreement between Autopax and PRASA was signed on 25 June 2024 with the closing date for the transaction 31 July 2024. All buses were transferred to the PRASA long distance passenger transport division with effect 1 August 2024 to render road-based passenger transport services as mandated by the Legal Succession Act. The aim of the establishment of the long-distance transport division within PRASA is to integrate long-distance rail and road passenger transport services.

2.2 STATUS QUO – COACH FLEET

- 2.2.1 During 2009 - 2010, Autopax acquired 570 coaches (520 outright and 50 initially leased) after being nominated by the Department of Transport to provide coach passenger transport services during the FIFA World Cup Soccer event that was hosted by South Africa. The coaches comprised of MAN Lions Explore coaches and Mercedes Benz chassis fitted with Paradiso and Andare type bodies, manufactured by Marco Polo.

REQUEST FOR PROPOSAL: APPOINTMENT OF A SUITABLE SERVICE PROVIDER FOR THE MANUFACTURING, SUPPLY, DELIVERY AND SERVICING OF INTERCITY COACHES	 prasa <small>PASSENGER RAIL AGENCY OF SOUTH AFRICA</small>
TENDER NUMBER: HO/CITYTOCITY/512/02/2025	

- 2.2.2 To cater for the soccer world cup spectator, demand, 570 new coaches were introduced into the existing Autopax fleet at the time. The FIFA Soccer World Cup event was successfully hosted utilizing 570 coaches whilst Autopax continued to serve its normal operational footprint with its old coach fleet. During 2010 the actual LDPT customer demand for scheduled services was 214 coaches.
- 2.2.3 As a result of the reduced demand, excess coaches were available. In the following years coaches with major component failures, such as engines, gearboxes, and rear axles as well as major accidents, were merely parked off, and not repaired, to save on expenses. Most of these parked coaches were cannibalized from usable components to keep the remaining fleet operational.
- 2.2.4 During the 2021-22 financial year the Autopax Board of Directors and the PRASA Board of Control approved the disposal of some of the dilapidated coaches, to reduce the fleet to be more in line with the operational requirements. The PRASA Board of Control approved the disposal of a further 57 buses on public auction. Once this disposal has been finalized, the available fleet will be 90 buses.

2.3 ECONOMIC LIFE EXPECTANCY OF A LONG-DISTANCE COACH

- 2.3.1 The economic life span of a long-distance coach, according to the major and reputable coach operators in Southern Africa is approximately 1.4 million kilometers which translate to average kilometers travelled within LDPT in six years.
- 2.3.2 The life span assumes a preventative maintenance policy is adhered to and coaches are maintained and operated as prescribed by the Original Equipment Manufacturer (OEM).
- 2.3.3 All the coaches in the LDPT fleet are more than 14 years old, most of the coaches had operated more than one and a half million kilometers and were not maintained to OEM specifications.

2.4. ECONOMIC LIFE EXPECTANCY OF A LONG-DISTANCE COACH

- 2.4.1** The most economic life span of a long-distance coach, according to the major and reputable coach operators in Southern Africa is approximately 1.4 million kilometers which translate to average kilometers travelled within *City-to-City* in six years.
- 2.4.2.** The life span assumes a preventative maintenance policy is adhered to and coaches are maintained and operated as prescribed by the Original Equipment Manufacturer (OEM).
- 2.4.3.** All the coaches in the *City-to-City* fleet are more than 13-years old, most of the coaches had operated more than one and a half million kilometers and were not maintained to OEM specifications.

2.5. FACTORS THAT IMPACTED ON THE CURRENT FLEET LIFE EXPECTANCY

2.5.1 Commuter Contracts

Autopax was contracted by the Gauteng Department of Roads and Transport, to render commuter services during 2015. These contracts were constantly extended on short notice that eventually lasted for approximately two years. These 8 subsidized commuter contracts which Autopax operated were handed back to the Gauteng Department of Transport by Putco as they were not profitable. The services required 178 coaches to service the routes.

The Luxury and Semi-Luxury coaches used by Autopax to render the services were not suitable to operate these contracts due to it being a stop-start operation, with some routes on dirt roads, whilst the Autopax coaches were designed for long distance mainly operating on paved roads, impacting negatively on the life expectancy of the coaches.

The life of a component is negatively impacted (shortened) if it is not operated within its design capabilities and this is accelerated if it is not maintained properly, which is exactly what happened to the Autopax fleet over an extended period.

2.5.2. Lack of Maintenance

Planned preventive maintenance stopped shortly after the maintenance contracts came to an end in the 2015/16 financial year.

REQUEST FOR PROPOSAL: APPOINTMENT OF A SUITABLE SERVICE PROVIDER FOR THE MANUFACTURING, SUPPLY, DELIVERY AND SERVICING OF INTERCITY COACHES	 prasa <small>PASSENGER RAIL AGENCY OF SOUTH AFRICA</small>
TENDER NUMBER: HO/CITYTOCITY/512/02/2025	

Any component on a coach has a “mean-life-before-failure”. Due to a lack of maintenance a component will fail prematurely and usually with added consequential damage to other components.

The major units, predominantly engines failed over time due to lack of maintenance and adverse operating conditions mentioned. These coaches were parked, not repaired, and the cannibalization or stripping of usable parts and components took place over the next couple of years.

2.6. PROBLEM STATEMENT

- 2.6.1. The LDPT road-based transport operation requires reliable, cost-effective revenue generating, assets acceptable to and competitive on the long-distance market, to fulfill its mandate and to ensure its long-term survival of it. The revenue generating assets are no longer reliable and cost- effective to operate. The road-based transport operation urgently needs economical and reliable coaches, constantly available to Operations, which are safe and reliable, to generate the necessary income.
- 2.6.2 An essential Coach-Replacement Program has been non-existent over the past fourteen years and the current Inter City Fleet is technologically obsolete, and do not meet passenger requirements. These vehicles are not fit to be refurbished, mainly due to their high fuel consumption, high maintenance and associated personnel costs, lack of driver assist safety features as well as it is no longer competitive in the market segment that the LDPT road-based transport operation operates in.
- 2.6.3 The current coach fleet is 151 coaches, and although the total operational requirement is 115 Inter City coaches, the road-based transport operation currently on average only manages to keep 63 coaches operational due to constant breakdowns and unit failures.
- 2.6.4 In summary, all the coaches in the fleet are more than fourteen years old, poorly maintained for an extended period, technologically obsolete, uneconomical to operate and subsequently not cost effective to refurbish.

2.6.5 The operational demand based on passenger projections as well as ensuring economic services to economically deprived communities, to and from major cities and towns dictates the acquisition of 95 new Inter City Coaches.

2.6.6 The LDPT road-based transport operation is in the process of procuring 17 of the 95 new Inter City Coaches leaving a shortfall of 78, to be procured.

3. **OBJECTIVES OF THE PROPOSED PROJECT**

The objectives of the proposed project are outlined in the following sections:

3.1. **DESIRED OUTCOMES FOR CARRYING OUT THE PROPOSED PROJECT**

The LDPT road-based transport operation needs to be financially self-sustainable, in other words it will generate enough revenue to cover all its expenses. The LDPT road-based transport operation does have an unfunded mandate and need to fulfill the primary mandate of PRASA to “provide in consultation with the Department of Transport, for long haul passenger rail and bus services within, to and from the Republic in terms of the principles set out in Section 23 of the Legal Succession Act.”

For the abovementioned to be achieved, the company needs sufficient reliable coaches meeting passenger expectations in respect of specifications, being constantly available to Operations, which are safe and reliable.

The aim is to generate additional cash funds that can be used inside PRASA by improving passenger demand through the integration of rail and road-based service

3.2. **PROJECT BENEFITS TO PRASA**

The LDPT road-based transport operation will be more financially self-sustainable, thereby ensuring that PRASA meets its primary mandate and generates cash which can be used within PRASA.

3.3. **CURRENT MECHANISMS IN PLACE TO ADDRESS THE PROBLEM**

3.3.1 The LDPT road-based transport operation was established on 01 August 2024 with the purchase of the income generating assets from Autopax by PRASA.

REQUEST FOR PROPOSAL: APPOINTMENT OF A SUITABLE SERVICE PROVIDER FOR THE MANUFACTURING, SUPPLY, DELIVERY AND SERVICING OF INTERCITY COACHES	 prasa <small>PASSENGER RAIL AGENCY OF SOUTH AFRICA</small>
TENDER NUMBER: HO/CITYTOCITY/512/02/2025	

- 3.3.2 Mechanical refurbishments, with 4-year bolt-on mechanical maintenance agreements were done on 20 MAN coaches, in the 2021-2022 financial year, to optimize fleet availability.
- 3.3.3 Capital was made available to start the replacement of the LDPT road-based transport operation bus fleet in the 2025 MTEF period.
- 3.3.4 When the optimal planned number of coaches are procured it is projected that the LDPT road-based transport operation will operate on a breakeven and generate enough cash to sustain its own operations. This will also reduce the risk of intimidation by other operators and allow the division to organically grow.

4. SCOPE OF WORK AND AREAS OF FOCUS

4.1 DETAILS ON THE PREFERRED SOLUTION

Outright purchase of 17 standard coaches in the 2025 financial year to optimize the number of new coaches to be used in operations, reduce losses whilst waiting for the financial lease of coaches to be approved by the Minister of Transport as required in Section66(3) of the PFMA.

The same supplier to offer bolt-on, full maintenance contracts, which is charged and payable per kilometer operated, monthly, for the period of 6-years or 1.4 million kilometers whichever comes first. Tyre management and tyre breakdowns are excluded from the quoted rate.
