To whom it may concern	Date	<u>11 March 2025</u>
	Enquiries	
	E-mail address	

Dear Sir/Madam

Request for Enquiry Number	<u>MWP3028DX</u>
Description / Project Title	<u>The Provision of Vegetation Management Services for Gauteng Operations and Maintenance, on an as-and-when required basis for a period of 5 years.</u>
Tender Closing Date	<u>17 March 2025 at 10h00</u>

The tender requires 17m reach MEWP:

1. The aim for the client is to cut at 17m height
If you have a 13m reach MEWP and a 3m chainsaw pruner(one of the requirements) with the person standing on the bucket, it gives the 17m reach or more including the ground level of the truck which is more than 1m. With the above, will a 13m MEWP be acceptable? If not, is the aim not to reach the required height (17m) or the requirement serves another purposes? -

The aim is to reach the required height safely without injuring the workers or damaging the line. Currently we have not observed or try the suggested method. The idea is to offer the operator a safe stable platform to work from. Maybe in future we can explore the idea and see if we can draft a safe working procedure.

2. Transportation of MEWP to site is not covered on the BOQ
Addendum will be send.

3. MEWP Training is referenced as C32 (This is the code for Crane Operator Training), According to my knowledge MEWP is C53. Do you require C32 or C53?

Very true, we need C53, we have seen the mistake and Addendum will be send

4. . I am writing to seek clarification on the requirements for the PPE photos under comment. Specifically, it is stated that we need to provide PPE issue register specific to the employee's task as per the Organogram, including photos (one point per set per team member). Could you please confirm if the photos should be of the employees wearing the PPE, or if we can send photos of the PPE only?

Just photos will do.
