No.	Date	Ref	Supplier Clarification Question	Eskom Response
1.	08/10/2026	Refer to the NEC3 document	We are currently preparing our submission for Tender E2371GXNOUR. During our detailed review, we identified discrepancies between the Annexure A/URS item schedules and the NEC C2.2 Pricing Schedule. For Batch 1, certain materials appearing in the Scope/URS are not reflected in the NEC pricing schedule, while material STM-150965 appears in the NEC schedule but not in the corresponding Scope schedule. For Batch 2, the NEC pricing schedule contains additional materials and several estimated five-year quantities differ from those stated in Annexure A and the URS. Kindly confirm which document and quantities tenderers must use for pricing. Please also confirm whether the provision allowing a tender for the “whole or part of the contract” permits tenderers to bid individual line items, or whether tenderers are required to bid an entire Batch. Your clarification will assist us in ensuring that our submission and supplier quotations are aligned with Eskom’s requirements	Tenderers must complete the NEC pricing schedule, in terms of items and quantities. This is the final and complete list.
2.			We refer to the above-mentioned tender and would like to request clarification regarding the submission requirements for the different batches.	Tenderers may submit bids for the full scope of work or for any portion thereof: • An entire batch, • A partial batch,

4.			We note that the tender is divided into the following batches: - Batch 1 – Air-Conditioning Units - Batch 2 – Electrical Appliances Kindly confirm whether bidders are permitted to submit a partial response for only one batch, rather than submitting a response for all batches. Your confirmation in this regard would be greatly appreciated, as it will assist us in preparing our submission correctly. This email serves as our intention to attend the clarification meeting	Both batches in their entirety, or any combination of items across both batches. To facilitate a more efficient and accurate evaluation process, tenderers are requested to clearly indicate the specific items for which they have submitted a tender. For those tenderers willing to attend the clarification meeting kindly see below details for joining the meeting on 16th of October 2026. Microsoft Teams meeting Join: Link Meeting ID: 373 743 630 410 203 Passcode: Ji9PZ2af
