#### BACKGROUND

Ekurhuleni Housing Company (EHC) derives its mandate from the City of Ekurhuleni (CoE). This mandate is informed by the national housing imperatives that are outlined through the Rental Housing Act, the Social Housing Act, and the MFMA. EHC provides and manages affordable rental housing for the lower income market as an integral part of efforts to eradicate the housing backlog in the Ekurhuleni Metropolis. The main target market comprises of home seekers whose household incomes meet the criteria for the Consolidated Capital Grant (CCG), which comprise of the Restructuring Capital Grant and the Institutional Housing Subsidy, which are available to beneficiaries whose total household income is between R1850 and R22 000 per month.

#### 1. SCOPE OF WORK

The successful bidder will be responsible for the design, installation, and maintenance of a fully integrated access control system:

- **System Design and Supply:** Provide a detailed system design and all necessary hardware and software components. This includes:
- Facial recognition terminals at pedestrian entry and exit points (e.g., turnstiles).
- Fingerprint biometric scanners as an alternative or secondary verification method.
- ANPR (Automatic Number Plate Recognition) cameras at vehicle entrances.
- A central management server.
- A secured server and power supply box with key access control to prevent unauthorized switching on/off of the system. This enclosure must be tamper-resistant and only accessible using a designated physical key to ensure system uptime and avoid misuse.

**Installation and Integration:** Install all hardware at the designated entry and exit points. The system must be
