DETAIL SCOPE OF WORK or TERMS OF REFERENCE

BACKGROUND

The municipality has established an AFS and Accounting Support Division during the 2025/2026 financial year as part of its strategy to strengthen internal financial reporting capacity and reduce reliance on external consultants over time.

Currently, the process of appointing a Manager: AFS and Accounting Support is underway. However, the finalisation of the recruitment process remains uncertain. In order to ensure that the municipality continues to meet its statutory financial reporting obligations within prescribed timelines, the appointment of a qualified service provider is considered critical during this transitional period.

The appointed consultant will therefore provide technical support to the municipality while the AFS and Accounting Support Division is being fully established and capacitated.

Over the duration of the contract, the scope of work will gradually reduce as internal capacity within the municipality is strengthened. The long-term objective is for the municipality's internal AFS and Accounting Support Division to assume full responsibility for the preparation of the Annual Financial Statements.

During this transition, the consultant will primarily focus on:

- Providing technical support in the preparation and review of Annual Financial Statements;
- Reviewing work prepared internally by municipal officials;
- Providing technical guidance on GRAP and financial reporting requirements; and
- Facilitating structured skills transfer and capacity building to ensure sustainable internal capability within the municipality.

DETAIL SCOPE OF WORK

The contract will be structured as follows:

Year 1: Full AFS Preparation and Technical Support

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
