

## **ANNEXURE C3.2: SCOPE OF WORK**

### **PURPOSE**

Rand Water's use of various types of Chlorine spares ensures the continued, safe-operating of the Chlorine rooms actively aiding in the disinfection and purification process of water on site.

### **BACKGROUND**

Rand Water's Zuikerbosch and Vereeniging Water Treatment Plants, as well as other booster and smaller sites, have various Chlorine spares as stock items that are held by the Main Stores on site. These items have been procured regularly to maintain plant availability and continued operations.

### **OBJECTIVES OF THE WORK**

To ensure that Chlorine spares are readily available in stock to meet customer's demands.

### **DELIVERY OF HTH AND CHLORINE SPARES**

The Chlorine spares are required for use at the following Rand Water sites:

<b>No.</b>	<b>Operational Area</b>	<b>Delivery Location</b>
1	Zwartkopjes Booster Station	Zwartkopjes Main Store
2	Zuikerbosch Water Treatment Plant	Zuikerbosch Main Store
3	Vereeniging Water Treatment Plant	Vereeniging Main Store
