Background

To streamline the procurement of recurring professional services, JB Marks Local Municipality intends to establish a pre-qualified panel of consultants in the built environment. This panel will include experts in fields such as Town Planning, Land Surveying, Environmental Science, Urban Design and Geotechnical Engineering.

For each specific project, a closed tender process will be initiated, inviting official offers exclusively from the appointed panel members. This system is designed to enhance efficiency while maintaining a competitive and compliant selection process.

The professional services category panel will thus streamline the procurement process to:

- Reduce the cycle time of procurement, facilitating timely project delivery.
- Reduce the total resource costs associated with the procurement of professional service providers.
- Reduce the number of touch points with tender committees, whilst still adhering to the JB Marks Local Municipality's procurement requirements. This ensures that procurement becomes more agile and flexible, allowing for projects to go to market more quickly and at reduced cost.

In terms of the Municipal Finance Management Act 23 of 2003 and the Supply Chain Management Policy adopted under the act, JB Marks Local Municipality is obliged to follow a competitive tendering process to appoint a supplier of services.

JB Marks Local Municipality invites professionally registered consulting firms in the built environment to submit Expressions of Interest for inclusion on its official service provider panel.

This initiative aims to create a centralised pool of pre-qualified expertise across various disciplines, ensuring equitable opportunity for all professionals to be considered for specialized municipal projects. This panel will be utilized on an as-and-when basis for future assignments.

Submissions are open to individual companies only; joint ventures or consortia formed specially for this call are not required or permitted at this stage.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38(1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract. .
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
