## **2. CLARIFICATION MEETING AND PRESENTATION**

### **2.1      *Opening and Welcome***

Mr S Langa opened the meeting and welcomed all virtual attendees, followed by introduction of the SANRAL team.

### **2.2      *Attendance and Introduction***

Mr G Machethe requested attendees to introduce themselves and the entity they represent, after which attendees introduced themselves.

### **2.3      *Presentation***

Mr M Niemand introduced himself, as well as the Bridge Engineer, Mr H Niehaus. He then shared and presented the tender clarification briefing presentation, which covered the following pertinent sections and information;

- Part T1: Tender Procedures
- Part T2: Returnable Schedules
- Part C1: Agreements and Contract Data
- Part C2: Pricing Data
- Part C3: Scope of Works and Specifications

Mr H Niehaus gave a brief overview of the works associated with Bridge B1252, the deck of which require lifting / jacking in order to replace its bearings. Indicative jacking values have been provided in Volume 5: Drawings for Structures, which values and loads require verification by the successful tenderer prior to lifting the deck.

In the case of Bridges B1244 and B1264, provision has been made for scanning the bridge decks using Ground Penetrating Radar (GPR) equipment or alternative detection device, in order to determine the presence and location of deck voids, and provide drainage to voids if present.

Enclosed find the tender clarification briefing presentation, which is considered a formal record of the meeting and as such, will not be duplicated for the purpose of minutes.

Following the tender clarification briefing presentation, attendees were given the opportunity to ask questions, which questions and answers are summarized under Item 3 here below.

Prospective tenderers were, however, requested to send their questions and requests for clarification to [ProcurementSR6@sanral.co.za](mailto:ProcurementSR6@sanral.co.za) at least 12 (twelve) working days before the tender closing date.

**3. CLARIFICATION TO QUESTIONS FROM TENDERERS**

<b>QUESTIONS BY TENDERERS</b>	<b>ANSWERS</b>
1. How many Project Liaison Committees (PLC) will be established for the purposes of this project?	1. One (1) PLC will be established, representing the project target areas.
2. If a single entity completed and returned Form A1.1, and the entity subsequently decided to tender as a JV, will the JV be permitted to submit a tender?	2. Yes, the JV will be permitted to submit a tender. The Form A1.1 information is used to communicate with prospective tenderers, and SANRAL does not accept responsibility for any communication not received by the tenderers timeously.
3. Has a construction site area been identified? Who will provide services to the construction site office / site camp?	3. No construction site office / site camp area(s) have been identified. It is the successful tenderer's prerogative and responsibility to establish his site facilities, including facilities for the Engineer at a suitable location given the locality of the respective bridge sites. It is further the successful tenderers responsibility to maintain such facilities, including the provision of utilities / services for the duration of the project execution phase.
4. Will the successful tenderer be able to work on more than one (1) bridge structure at a time?	4. Yes, however, Bridges B4084 & B1264 may not be worked on concurrently, as well as Bridges B910 & B1265 due to their close proximity.
5. Will a traffic safety vehicle with rear-mounted impact attenuation device be required?	5. No, a traffic safety vehicle with rear-mounted impact attenuation device will not be required. However, a traffic safety officer's vehicle will be required. Refer Pricing Schedule, Item C1.5.8, which shall include full compensation for the provision, operation and maintenance of a vehicle provided for the sole use of the traffic safety officer in accordance with Clause A1.5.6.4.
