SECTION 2

INTRODUCTION AND BACKGROUND INFORMATION

1. INTRODUCTION

During the lockdown as was declared by the President of South Africa on 26 March 2020, thieves saw an opportunity to steal the overhead wires, structures, and the small part steelwork. This led to the decision by the region to suspend train services between Durban and Pinetown due to unavailability of electrical infrastructure. PRASA is unable to collect revenue and to deliver on the primary mandate of providing reliable and affordable public transport. The overhead wires provide a path for continuous supply of 3KV DC supply for train movement. These overhead wires are supported by small part steelwork and concrete structures.

Therefore, the 3kV DC infrastructure requires urgent restoration, this will allow PRASA to resume rail transportation services using electrical locomotives.

2. BACKGROUND INFORMATION

2.1 STATUS QUO

About 21 km of overhead (3kv DC) and 21km of 6.6kv transmission wires were stolen and vandalised between Rossburg and Pinetown as a result Prasa has lost a lot of revenue. Even though the structures and small part steel work in this corridor are new, some are showing cracks because of recent floods and vandalism respectively. Since the line was closed in 2020 the vegetation has grown up to an extent that is impossible to install wires without having to cut it off first.

The damages that occurred to 6.6kv transmission line resulted in loss of power supply for the signal relay room on the A corridor particularly Rossburg which is the main junction of the network. The 3kv DC network between Pinetown and Rossburg was stolen and vandalised and there is currently no contract in place to do replacement work.

2.2 PROBLEM STATEMENT

The OHTE equipment was stolen and vandalised as a result the service got disrupted and business is losing revenue. Electrical department does not have sufficient resources to urgently do replacement when there are service disruptions of such magnitude, hence the need to have contract.

Closure of this line means a loss of revenue as well as expenses incurred to PRASA. Should the line remain closed encroachment might start and Prasa may not be able to remove the residents.
