PART B TERMS AND CONDITIONS FOR BIDDING

1. BID SUBMISSION:										
1.1. BIDS MUST BE DELIVERED BY THE STIPULATED TIME TO THE CORRECT ADDRESS. LATE BIDS WILL NOT BE ACCEPTED FOR CONSIDERATION. 1.2. ALL BIDS MUST BE SUBMITTED ON THE OFFICIAL FORMS PROVIDED–(NOT TO BE RE-TYPED) OR ONLINE 1.3. THIS BID IS SUBJECT TO THE PREFERENTIAL PROCUREMENT POLICY FRAMEWORK ACT AND THE PREFERENTIAL PROCUREMENT REGULATIONS, 2017, THE GENERAL CONDITIONS OF CONTRACT (GCC) AND SPECIAL CONDITIONS OF CONTRACT.										
2. TAX COMPLIANCE REQUIREMENTS										
2.1 BIDDERS MUST ENSURE COMPLIANCE WITH THEIR TAX OBLIGATIONS. 2.2 BIDDERS ARE REQUIRED TO SUBMIT THEIR UNIQUE PERSONAL IDENTIFICATION NUMBER (PIN) ISSUED BY SARS TO ENABLE THE ORGAN OF STATE TO VIEW THE TAXPAYER'S PROFILE AND TAX STATUS. 2.3 APPLICATION FOR THE TAX COMPLIANCE STATUS (TCS) PIN MAY BE MADE VIA E-FILING THROUGH THE SARS WEBSITE WWW.SARS.GOV.ZA. 2.4 FOREIGN SUPPLIERS MUST COMPLETE THE PRE-AWARD QUESTIONNAIRE IN PART B:3. 2.5 BIDDERS MAY ALSO SUBMIT A PRINTED TCS CERTIFICATE TOGETHER WITH THE BID. 2.6 IN BIDS WHERE CONSORTIA / JOINT VENTURES / SUB-CONTRACTORS ARE INVOLVED, EACH PARTY MUST SUBMIT A SEPARATE TCS CERTIFICATE / PIN / CSD NUMBER. 2.7 WHERE NO TCS IS AVAILABLE BUT THE BIDDER IS REGISTERED ON THE CENTRAL SUPPLIER DATABASE (CSD), A CSD NUMBER MUST BE PROVIDED.										
3. QUESTIONNAIRE TO BIDDING FOREIGN SUPPLIERS										
<table style="width: 100%; border: none;"> <tr> <td style="width: 70%;">3.1. IS THE ENTITY A RESIDENT OF THE REPUBLIC OF SOUTH AFRICA (RSA)?</td> <td style="width: 30%; text-align: right;"><input type="checkbox"/> YES <input type="checkbox"/> NO</td> </tr> <tr> <td>3.2. DOES THE ENTITY HAVE A BRANCH IN THE RSA?</td> <td style="text-align: right;"><input type="checkbox"/> YES <input type="checkbox"/> NO</td> </tr> <tr> <td>3.3. BIDDER'S DISCLOSURE

1. PURPOSE OF THE FORM

Any person (natural or juristic) may make an offer or offers in terms of this invitation to bid. In line with the principles of transparency, accountability, impartiality, and ethics as enshrined in the Constitution of the Republic of South Africa and further expressed in various pieces of legislation, it is required for the bidder to make this declaration in respect of the details required hereunder.

Where a person/s are listed in the Register for Tender Defaulters and / or the List of Restricted Suppliers, that person will automatically be disqualified from the bid process.

2. BIDDERS' DECLARATION

- 2.1 Is the bidder, or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest¹ in the enterprise, employed by the state? YES/NO

- 2.1.1 If so, furnish particulars of the names, individual identity numbers, and, if applicable, state employee numbers of sole proprietor/ directors / trustees / shareholders / members/ partners or any person having a controlling interest in the enterprise, in table below.

Full Name	Identity Number	Name of State institution

- 2.2 Do you, or any person connected with the bidder, have a relationship with any person who is employed by the procuring institution? YES/NO

- 2.2.1 If so, furnish particulars:

.....

¹ the power, by one person or a group of persons holding the majority of the equity of an enterprise, alternatively, the person/s having the deciding vote or power to influence or to direct the course and decisions of the enterprise.

- 2.3 Does the bidder or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest in the enterprise have any interest in any other related enterprise whether or not they are bidding for this contract?
YES/NO

- 2.3.1 If so, furnish particulars:

.....
.....

3 DECLARATION

I, the undersigned, (name) In submitting the accompanying bid, do hereby make the following statements that I certify to be true and complete in every respect:

- 3.1 I have read and I understand the contents of this disclosure;
- 3.2 I understand that the accompanying bid will be disqualified if this disclosure is found not to be true and complete in every respect;
- 3.3 The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium² will not be construed as collusive bidding.
- 3.4 In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications, prices, including methods, factors or formulas used to calculate prices, market allocation, the intention or decision to submit or not to submit the bid, bidding with the intention not to win the bid and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 3.5 The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
- 3.6 There have been no consultations, communications, agreements or arrangements made by the bidder with any official of the procuring institution in relation to this procurement process prior to and during the bidding process except to provide clarification on the bid submitted where so required by the institution; and the bidder was not involved in the drafting of the specifications or terms of reference for this bid.
- 3.7 I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be

² Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

SBD4

restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

I CERTIFY THAT THE INFORMATION FURNISHED IN PARAGRAPHS 1, 2 and 3 ABOVE IS CORRECT.

I ACCEPT THAT THE STATE MAY REJECT THE BID OR ACT AGAINST ME IN TERMS OF PARAGRAPH 6 OF PFMA SCM INSTRUCTION 03 OF 2021/22 ON PREVENTING AND COMBATING ABUSE IN THE SUPPLY CHAIN MANAGEMENT SYSTEM SHOULD THIS DECLARATION PROVE TO BE FALSE.

**THE SUPPLY AND DELIVERY OF PATIENT SIMULATION
TRAINING HARDWARE, CONSUMABLES, AND
MAINTENANCE FOR THE FREE STATE DEPARTMENT OF
HEALTH**

PERIOD: DATE OF SIGNING OF CONTRACT FOR THREE YEARS

Mr STI Dywili
Tel: 051-4921376
mail-address: DywiliSTI@fshealth.gov.za

1. INTRODUCTION

- a. This bid is for the supply and delivery of patient simulation training hardware, software, consumables, and maintenance, to the Free State Department of Health.
- b. The contract has a tenure of 3 years.
- c. Receipt of the invitation to bid does not confer any right on any party in respect of the services or in respect of, or against, The Free State Department of Health reserves the right, in its sole discretion:
 - To withdraw any services from the bid process, to terminate any party's participation in the bid process or to accept or reject any response to this invitation to bid on notice to the bidders without liability to any party; accordingly, parties have no rights, expressed or implied, with respect to any of the services as a result of their participation in the bid process.
 - To amend the bid process, closing date or any other date at its sole discretion, to cancel the bid or any part of the bid before the bid has been awarded,
- d. No quantities will be reflected in the bid and no guarantee will be given or implied as to the actual quantity which will be procured during the contract period
- e. Supplier must submit proof for each product of which they are the Sole Supplier in South Africa as specified in the bid document.
- f. Descriptive literature, technical specifications, brochures or pamphlets must be provided with the Bid document with sample evaluation. Failure to submit will invalidate the item.

2 LEGISLATIVE AND REGULATORY FRAMEWORK

This bid and all contracts emanating from it will be subject to the General Conditions of Contract (GCC) issued in accordance with Treasury Regulation 16A published in terms of the Public Finance Management Act (PFMA), 1999 (Act 1 of 1999) as well as the Preferential Procurement Policy Framework Act 2000 (PPFPA) with its latest 2017 Regulations. The Special Conditions of Contract (SCC) are supplementary to that of General Conditions of Contract. However, where the Special Conditions of Contract conflict with the General Conditions of Contract, the Special Conditions of Contract prevail.

3. SPECIFICATIONS AND SCOPE OF WORK

The detailed item specification is as per the attached Technical Specification read in conjunction with the schedule of requirements.

4. MANDATORY AND OTHER STANDARD BIDDING DOCUMENTS REQUIREMENTS

Bidders must submit all required documents indicated hereunder with the bid documents at the closing date and time of the bid. During this evaluation phase, bidder's responses will be evaluated based on the documents submitted under mandatory requirements. Bidders who fail to comply with any of the mandatory criteria will be disqualified.

4.1.1 Standard Bidding Documents

The following standard bidding documents must be submitted with the bid at the closing date and time of bid.

- SBD 1 – Invitation to bid
- SBD 4 – Declaration of interest

- SBD 6.1 – Preference Points Claimed (BBBEE)
- SBD 3.2 - Pricing Structure

5. AUTHORISATION DECLARATION / MANUFACTURER

It will be required from the bidders who are not original suppliers to supply a guarantee from the original suppliers of the equipment that all parts used be compatible with the equipment. For this reason, bidders must include proof from the original suppliers of the equipment that the original suppliers are willing to supply parts used by the bidder.

6. PRICING STRUCTURE AND SCHEDULE

- a) One price is required, and prices quoted must be furnished on the basis of supply and delivery to the ordering institution including VAT. Prices submitted will be only for the first year, following years will be submitted annually as an addendum for price adjustments, based on the average CPI.
- b) The pricing schedule provided in this bid forms an integral part of the bid document and bidders must ensure that it is completed without changing the structure thereof.
- c) Prices submitted for this bid must be filled in on the field provided on the pricing schedules supplied with the bid.
- d) The SBD3.2 will be the hard copy version of the pricing schedule and will be the legal document.

7. TAX COMPLIANCE REQUIREMENTS

- a) It is a condition of this bid that the tax matters of the successful bidder(s) are in order, or that satisfactory arrangements have been made with South African Revenue Service (SARS) to meet the bidder's tax obligations.
- b) Bidders are required to be registered on the Central Supplier Database (CSD) and Bid Management shall verify the bidder's tax compliance status through the CSD or through SARS.

8. TECHNICAL EVALUATION

8.1.1 Standards/Specifications

- a) When evaluating the offers, the evaluation committee will primarily be responsible to ensure that the offers comply to the specification in respect of the various Standards, that they are of a high quality and that the bidder will have the capacity to render an effective and efficient service
- b) It may therefore be required that bidders provide a demonstration to the evaluation committee to highlight functionality or user friendliness for example.

8.1.2 Samples Submitted

- a) Bidders must submit samples, for the purpose of evaluation, and to verify compliance to specification during the evaluation phase. Non-compliance with this requirement will invalidate the bid for the item which samples is not submitted. Sample to be submitted on or before closing date is for item 15 and item 18.
- b) Samples offered must be submitted on or before:

- b) Samples offered must be submitted on or before:

Date: 28 October 2022

Time: 11H00

Venue: Free State College of Emergency Care Boardroom

Contact Person: Mr. STI Dywili

8.1.3 Marking of Samples

- a) Samples must be clearly marked with the bid number, item number(s), and the bidder's name. These details must appear on an outer package of the product to make it easier to identify the product.
- b) Samples must be placed in suitable containers and be clearly marked on the outside with the bid number, item number(s), and the bidder's name. This detail must appear on a label attached to each individual item package.
- c) Samples must not be expired for sample evaluation / testing. **Expired samples will invalidate item.**

9. RIGHT OF AWARD

The Free State Department of Health reserves its following rights:

- a) Request further technical information from any bidder after the closing date.
- b) Verify information and documentation of the service provider.
- c) To withdraw or amend any of the bid conditions by notice in writing to all bidders prior to closing of the bid and post award; and
- d) In the event that an incorrect award has been made to remedy the matter in any lawful manner it may deem fit.

10. LATE BIDS

Bids received after the closing date and time by the Bid Management will NOT be accepted for consideration and where practicable, be returned unopened to the bidder.

11. COMMUNICATION AND CONFIDENTIALITY

- a) The accounting officer may give permission to communicate with bidders where clarity is sought after the closing date and time of the bid and prior to the award of the contract, or to extend the validity period of the bid, if necessary.
- b) If a bidder finds or reasonably believes it has found any discrepancy, ambiguity, error or inconsistency in this bid or any other information provided by the Bid Management (other than minor clerical matters), the bidder must promptly notify the Bid Management in writing of such discrepancy, ambiguity, error or inconsistency in order to afford the Bid Management an opportunity to consider what corrective action is necessary (if any).
- c) Any actual discrepancy, ambiguity, error or inconsistency in this bid or any other information provided by the Bid Management will, if possible, be corrected and provided to all bidders without attribution to the bidder who provided the written notice.
- c) All communication between the bidder and the Bid Management office must be done in writing.

12. TRAINING/EDUCATION

- a. It will be required of the successful bidder/s to provide training as well as on-going support to Lectures relating to their item.
- b. The company must include certificates of training or experience in serving patient simulation training hardware / equipment
- c. The training should be provided by experienced and qualified personnel who's resume must be attached. **Failure to attach will invalidate the offer.**

13. WARRANTY

- a) The contract must have a minimum warranty period of 12 months for patient simulation training hardware / equipment

SPECIFICATION: TRAINING HARDWARE		BIDDERS RESPONSE	
ITEM	DESCRIPTION	Yes comply	No, does not comply (state deviation).
ITEM 1 : Advanced Training/ Simulation Manikin	<p>The manikin must be full human size and anatomically correct. The limbs of the manikin must be fully articulating on both shoulders, elbows, wrists, hips, knees, and ankles. The "skin" of the manikin must be made of high durability silicone that allows for multiple needle piercings and minimal damage to skin. A minimum of 500 piercings must occur before replacement of any skin is required. The manikin must have dedicated sites for the insertion of Intra Osseous needles on the leg, shoulders and, if possible, the chest with dedicated drainage bags that can attach to these systems. The "bones" that is used to drill into must be replaceable. The arms must have dedicated intravenous insertion sites which must be able to accommodate all sizes of intravenous needles. The intravenous sites must have drainage sites where a collection bag can be connected to. The trachea of the manikin must be able to accommodate surgical airway techniques with accurate anatomical landmarks with a replaceable neck skin. The facial structure of the manikin must allow for manual airway manoeuvres to be done as well as being realistic to include blinking eyes, pupils which can dilate and constrict, sweat glands on face and open nostrils.</p> <p>The following items must be standard on the manikin:</p> <ul style="list-style-type: none"> > Have internal batteries to operate when not plugged into power. > Have internal mechanisms to realistically simulate respirations. > Have speakers on the chest and abdomen to use for auscultating lung, heart and abdominal sounds. > Have the ability to inflate the abdomen. > Must have a mechanism for urine catheterisation with simulated urine. > Must have central and peripheral pulses that link with software. > Must have a mechanism to insert a needle into its chest for pneumothorax management. > The upper skin of the manikin must be ready for conversion of Sonography if so required. > The manikin must have ports where bleeding can be simulated. > The teeth of the manikin must be removable to simulated denture airway management during advanced airway techniques. > The manikin must be able to provide accurate vital signs which include ECG monitoring, Saturation, EtCO2 monitoring, Defibrillation techniques (use of both pads 		

	<p>and paddles).</p> <ul style="list-style-type: none"> > The manikin must be able to accommodate both basic and advanced airway procedures (invasive) as well as nasal intubation. > The manikin must include both the hardware and software licensing required to make the manikin function fully. > The company must be able to provide us (the college) with maintenance and service assistance whenever needed. > The chest and arm skins must be removable for cleaning and maintenance procedures. 		
<p>ITEM 2 : Standard Birthing Simulator</p>	<p>The birthing simulator should be made of high-quality silicone and plastic to reliably withstand the training requirements. The skin or silicone must be able to stretch, without tearing, to realistically simulate new-born delivery. The birthing simulator must be anatomically correct and be able to accommodate a module that simulates post-partum haemorrhage. The upper legs of this simulator must have pads on both legs to simulate the injection of medications required during labour. The abdominal skin must be removable and held in place by strong clips/buttons. The leg section on this trainer must be able to move, realistically, to the positions simulated during labour. The leg sections must have the option to install the full leg segments if so required. The trainer must include a cervix opening for realistic birthing processes, which must be removable. The birthing trunk of this trainer must be anatomically correct to allow for realistic simulated birthing sessions to occur. The trainer must include a new-born sized baby which must be fully articulating on arms and legs. The new-born must have anatomically correct facial features and include an umbilicus. The trainer must come standard with the following items:</p> <ul style="list-style-type: none"> > Straps to hold the trainer in place during training. > Lubricant, with a gel-like consistency, to allow for smooth passing of the new-born through all areas requiring lubrication. > A placenta with umbilical cord that can be attached and detach to the new-born. > A removable and stretchable cervix. > Must be able to complete urine catheterization on this trainer. 		
<p>ITEM 3 : Post Partum Haemorrhage Adapter for Standard Birthing Simulator</p>	<p>The post partum haemorrhage (PPH) simulator must be compatible with the birthing simulator/trainer as discussed above. The PPH trainer must be made of high quality silicone/plastic to withstand high usage during training. The PPH trainer must be able to fit onto the simulator and must be able to lock into place using a locking mechanism to prevent movement during training. The PPH trainer must realistically be able to bleed and have a mechanism to simulate medical procedures to stop the bleeding. The PPH trainer must include the following:</p> <ul style="list-style-type: none"> > All tubing required to simulate bleeding. 		

	> A container and artificial blood to prepare the trainer for bleeding		
ITEM 4: Urine Catheterization training/simulation set	<p>The urine catheterization simulator/trainer must be made from a high quality silicone/plastic to withstand high demand training. The trainer must be anatomically correct to simulate urine catheterization in both male and female patients. The genitals of this trainer must be removable to allow for easy maintenance and cleaning. One "pelvis" or trainer must have the option of using both male and female genitalia, interchangeably. The urine catheterization trainer must include the following:</p> <ul style="list-style-type: none"> > Removable male and female genitalia. > Simulated structures of a human bladder with the option to expel urine if so required. > Be able to adjust in simulating various difficulties in catheter insertion. > Include a container which holds the simulated urine/water. > Include all the tubing required to simulate urine withdrawal. > If possible, include a stand to hold the container with simulated urine. 		
ITEM 5: Chest drain and Needle decompression trainer	<p>The chest drain and needle decompression simulator/trainer must be made from a high-quality silicone/plastic to withstand high demand training. The silicone construction must be removable for ease of cleaning, repair and preparation for training. The trainer must be anatomically correct to simulate the correct landmarks required for training purposes. The trainer must include needle insertion sites on top and on the sides of the trainer to simulate various procedures. The areas/modules used for insertion of needles must be easily replaceable and durable enough to withstand a large amount training requirement. The modules where needles are inserted into, must include a mechanism to inflate them to realistically simulate the various medical interventions.</p>		
ITEM 6: Training AED	<p>The training AED must be clearly marked for training. All components for this AED must be enclosed in a durable plastic case to prevent damage. The AED must have voice commands when switched on, as well as lights in the buttons; as per realistic AEDs. The AED must be able to take either rechargeable or non-rechargeable batteries to function. The AED system must include the following:</p> <ul style="list-style-type: none"> > Different scenarios of cardiac arrest. > The system must include a remote control where the instructor can switch between the various scenarios of cardiac arrest. > Training defibrillation pads for both adult and paediatric patients. > Connections on the defibrillation pads which are compatible with this system, and colour coded for adult and paediatric. 		

	> A system to easily switch between simulated adult patients and paediatric/neonatal patients.		
ITEM 7: Simulated ECG and defibrillator	The simulated ECG and Defibrillator machine must include a rugged tablet that is secured inside a rugged ECG bag. The ECG bag must simulate a real ECG bag and have pouches where various medical connections can be stored. These connections include: An SpO2 probe, ECG wires for both 3/4 lead and 12 lead adaptors, EtCO2 connections, Defibrillation paddles and other connections, ECG dots, pacing pads, and more as required. The simulated ECG bag must include a WIFI router built into the bag that can draw power from the tablet. The software installed on the tablet must be compatible with, and be able to communicate with the Laerdal SimPad PLUS tablet which controls various Laerdal Manikins. The software on the tablet must be able to show all vital sign parameters of an ECG. The tablet must be touch screen so that parameters can be changed on the tablet itself and must include a charger for each unit.		
ITEM 8: Simulation Tablet	The simulation tablet must be compatible with use on various Laerdal simulation manikins and connected equipment. The simulation tablet must come with a storage pouch and a safety wrist band along with a charger for each unit.		

Descriptive literature, technical specifications, brochures or pamphlets must be provided with the Bid document for sample evaluation. Failure to submit for the abovementioned will invalidate the item.

SPECIFICATION: CONSUMABLES		BIDDERS REPONSE	
ITEM	DESCRIPTION	Yes Comply	No, does not comply (state deviation)
ITEM 9: ECG/Defibrillation post sets	The ECG/Defibrillation post set must be compatible with Laerdal simulation manikins, currently being used by the college. The set must include the following pieces: 4 connectors for ECG rhythm monitoring. 2 defibrillation rings for use of paddle defibrillation. 2 defibrillation connectors for use during hands free defibrillation.		
ITEM 10: Intra-osseous replacement skins for leg trainer	The intra-osseous (IO) skins must be compatible with the Life/Form paediatric leg used for IO insertion techniques. The skins must have Velcro on both sides, at the back, to secure it in place for training. The skins must be made of durable and stretchable silicone for a snug fit on top of the leg.		
ITEM 11: Intra-osseous replacement bones/tubes for leg trainer	The intra-osseous (IO) tubes/bones must be compatible with the Life/Form pediatric leg used for IO insertion techniques. The bone/tube must be made of plastic soft enough not to damage the intra-osseous needle being used for training. The bone/tube must have a drainage port on the bottom to collect fluid once the IO is inserted. The tube must be hollow inside to be filled with blood for simulation purposes.		
ITEM 12: External jugular manikin training set	The external jugular module must be compatible with Laerdal training manikins, currently being used by the college. The module must be anatomically correct when placed on the manikin's neck. The module must include tubing for insertion of an intravenous cannula, where blood backflow can be noted. The module should also have tubing for the collection of fluid once the needle is inserted and secured.		
ITEM 13: Pneumothorax replacement pads Left & Right	The replacement pads must be compatible with the Limbs and Things - Needle chest decompression trainer currently being used by the college. The replacement pads must be made from durable and soft silicone that perfectly fits into the trainer. The pads must come with tubing that connects to the trainer for inflation. The replacement pads must be the same color as the trainer skin.		
ITEM 14: Intravenous IV arm skin replacement with veins	The intravenous (IV) skin must be compatible with the Laerdal Multi venous IV arm trainer currently being used by the college. The IV skin must include the tubing or veins that is inserted below the skin. The IV tubing must allow for palpable veins in preparation for IV insertion. The IV skin must be compatible in using a 20g IV cannula		

	and must be able to maintain a sealed compartment to infuse fluids. The tubing must be made to connect to drainage bags during fluid administration.		
ITEM 15: Lubrication gel – samples to be submitted	The lubrication gel must be specifically made for use on the Limbs and Things maternity trainers currently being used at the college. The lubricant must have a thicker consistency to be in gel form. The bottle must include a hand pressing mechanism to provide a single amount of gel to prevent wastage. The bottle volume must be 500ml		
ITEM 16: Adult training AED pads for AED trainer	The training AED pads must be compatible with the Laerdal AED trainer 3, which is being used by the college. The pads must contain a picture of where it should be placed on the chest. The pads must come on a plastic sleeve to enable reusing them multiple times. The pads must have an electrical wire running from them, connecting to an adapter that specifically fits into the Training AED machine. The pads must be for use in ADULT patients.		
ITEM 17: Paediatric training AED pads for AED trainer	The training AED pads must be compatible with the Laerdal AED trainer 3, which is being used by the college. The pads must contain a picture of where it should be placed on the chest. The pads must come on a plastic sleeve to enable reusing them multiple times. The pads must have an electrical wire running from them, connecting to an adapter that specifically fits into the Training AED machine. The pads must be for use in PAEDIATRIC patients.		
ITEM 18: Intramuscular injection foam and skin for simulation manikin Sample must be submitted	The intramuscular (IM) injection foam and skin must be compatible with the Laerdal SimMan 3G PLUS manikin currently being used by the college. The IM foam piece must be able to be rinsed after usage and made from durable foam that fits over the intra osseous bone on the shoulders of the manikin.		
ITEM 19: Intra osseous replacement bone for simulation manikin	The intra osseous (IO) bone must be compatible with the Laerdal SimMan 3G PLUS currently being used at the college. The IO bone must be made from soft enough plastic not to damage the IO needle when drilling into it. The IO bone must come with a drainage port that connects to the manikin for the purpose of fluid administration.		
ITEM 20: Manikin carrying bags/cases	These bags must be able to have a full-length zipper to open the bag completely. The inside of the bag must have Velcro strapping to secure the Laerdal manikin in place thus preventing or limiting movement of the manikin inside the bag. The bag must have a built-in large pouch on the outside where other equipment or consumables can be placed in. The bag must have to carry handles and a carrying sling. The manikin bag must be padded to prevent damage to the equipment if stored.		
ITEM 21: Manikin pulses.	Pulses include the Carotid and Peripheral pulses specific to the Laerdal simulation manikins. the pulse modules		

	functionality must comply to the original condition of the Laerdal manikin.		
ITEM 22: manikin pulse covers.	The pulse covers need to be replaced. The pulse cover colour must match the original colour of the Laerdal simulation manikin.		
ITEM 23: SimMan Essential upper body skin cover	The new chest skin must be upgraded to include sonography capabilities, including the hardware, software and additional training bundles for college clinical staff. The SimMan chest skin must also include the Sternal Intraosseous system.		
ITEM 24: SimMan Essential intravenous arm - Right.	The company should maintain, repair or replace the arm for this manikin with the same color as the rest of the manikin. The arm must have intravenous cannulation capabilities.		

SPECIFICATION: MAINTENANCE		BIDDERS RESPONSE	
ITEM	DESCRIPTION	YES comply	No, does not comply (state deviation).
Service, Maintenance, Repair or Upgrade of the Simulation software and accompanying Hardware.	The college has five SimPad systems which are specifically programmed to synchronise with the Laerdal simulation manikins. The company needs to inspect the functionality of the SimPad, Linkbox and battery components. If the company is not able to repair this equipment, an upgrade as maintenance must be done to the latest version of SimPad, Linkbox and battery with accompanying software to all FIVE units, which includes the vital signs monitoring equipment with attachments and built in dedicated internal router, that specifically links to the Laerdal SimPad/Linkbox and Laerdal Simulation manikins.		
Service, Maintenance, Repair or Upgrade of the Laerdal SimMan Essential upper body skin cover.	The company needs to inspect and repair the Laerdal SimMan Essential upper body chest skin. If the upper body chest skin cannot be repaired, the chest skin must be upgraded. The new chest skin must be upgraded to include sonography capabilities, including the hardware, software and additional training bundles for college clinical staff. The SimMan chest skin must also include the Sternal Intraosseous system.		
Service, Maintenance, repair or upgrade on all the Laerdal Advanced Life Support simulation manikins	The company needs to inspect all the Laerdal simulation manikins and repair or replace the supporting hardware of the legs and shoulders. This hardware must include a set of tools to accompany the equipment for easy replacement, specific to the Laerdal advanced life support simulation manikins		
Service, maintenance, repair or upgrade of the resuscitation simulation equipment	The company needs to inspect, replace and upgrade the chest skins of both the Laerdal Little Anne and Laerdal Little Junior CPR equipment. The upgrade must include an electronic feedback solution on how CPR is done on each simulation manikin and must be compatible with using the above-named equipment. The replacement chest skin must be the matching colour of the manikins we currently have.		
Service, maintenance, repair or upgrade of the Training Automated External Defibrillators (AED)	The company needs to inspect the AEDs and if it is not possible to repair the AEDs, the AEDs must be upgraded to a new version of training hardware.		
Service, Maintenance, Repair and upgrade on patient simulation equipment.	The company needs to, on an ongoing basis, provide support in the event where simulation equipment requires service, maintenance, repair, or upgrades. An hourly rate should be charged to comply with the above specifications.		

Maintenance conditions	The company must include certificates of training or experience in servicing equipment.		
	The company must be able to include service certificates for the equipment serviced		
	The company must provide with a warrantee for the equipment repaired.
