ETHEKWINI MUNICIPALITY Occupational Health & Safety Unit

COVID 19 Health and Safety Specification

Document Title	COVID 19 Health & Safety Specification	
Client	eThekwini Municipality – Water & Sanitation Unit	
Project Name	Provision of Professional Service for the Development of eThekwini Water and Sanitation Master Plan for 24 months	
Contract Number	PSC 2021/010	
Revision	01	
Date	15/02/2022	
Internal Reference no.	COVID 19/004/02/2022	
Compiled by (Client Construction	Name and surname: Siya Nkosi	
Health and Safety Agent)	Signature: Date: 15 February 2022	
Reviewed by (Manager: Safety & Risk)	Name and surname: Arty Zondi Signature: Date: 15 February 2022	

COVID 19 HEALTH AND SAFETY SPECIFICATION

Background:

Corona viruses are a large family of viruses that are found both in humans and animals. Some of these viruses are known to cause illnesses ranging from common cold to severe respiratory diseases. Corona virus (COVID-19) was identified in December 2019 in China. COVID-19 infections have spread to other countries in the world. Exposure to Covid-19 may cause flue like symptoms such as coughing, sneezing, headaches, fever, sore throat and at times affect the lungs and airways of employees. Symptoms can be mild, moderate, severe or fatal.

Coronavirus Disease 2019 (COVID-19) is a respiratory disease caused by the SARS-CoV-2 virus. To reduce the impact of COVID-19 outbreak conditions on businesses, workers, customers, and the public, it is important for all employers to plan now for COVID-19. For employers who have already planned for influenza outbreaks involving many staff members, planning for COVID-19 may involve updating plans to address the specific sources of exposure, routes of transmission, and other unique characteristics of SARS-CoV-2 (i.e. compared to influenza virus outbreaks).

Introduction

The legislation governing workplaces in relation to COVID-19 is the Occupational Health and Safety Act, Act 85 of 1993, as amended, read with the Hazardous Biological Agents Regulations. Section 8 (1) of the Occupational Health and Safety (OHS) Act, Act 85 of 1993,

as amended, requires the employer to provide and maintain as far as is reasonably practicable a working environment that is safe and without risks to the health of employees. Specifically, section 8(2)(b) requires steps such as may be reasonably practicable to eliminate or mitigate any hazard or potential hazard before resorting to Personal Protective Equipment (PPE). However, in the case of COVID-19, a combination of controls is required, although the main principle is to follow the hierarchy of controls.

While engineering and administrative controls are considered more effective in minimizing exposure to SARS-cov-2, PPE may also be needed to prevent certain exposures. While correctly using PPE can help prevent some exposures, it should not take the place of other prevention strategies

This is a risk assessment for dealing with the current COVID-19 situation in the construction site. It may not likely to cover all scenarios therefore Construction Management should develop Standard Operating Procedures as there may be unique circumstances and make a necessary call in the interest of the health and safety of employees

This is a risk assessment for dealing with the current COVID-19 situation in the construction site. It may not likely to cover all scenarios therefore management should develop SOP's as there may be unique circumstances and make a necessary call in the interest of the health and safety of Contractor employees

Definitions

"BCEA" means the Basic Conditions of Employment Act, 1997 (Act No.75 of 1997)

"COVID-19" means Coronavirus Disease 2019

"Disaster Management Act" means the Disaster Management Act, 2002 (Act No.57 of 2002)

"OHSA"means the Occupational Health and Safety Act, 1993 (Act No.85 of 1993)

"PPE" means personal protective equipment

"virus" means SARS-Cov-2 virus

"Worker" means any person who works in an employer's workplace including an employee of the employer or contractor, a self-employed person or volunteer

"workplace" means any premises or place where a person performs work

"NICD" means National Institute for Communicable Diseases

"OMP" means Occupational Medical Practitioner

Hand Hygiene:

➤ The Professional Organisation must provide 70% alcohol-based hand sanitizers to his/her employees.

Social Distancing:

➤ The Professional Organisation must ensure social distancing when supplying and delivering of the equipment between workers and as far as practicable that there is a minimum of 1,5meter distance between workers.

Personal Protective Equipment (PPE)

➤ The Professional Organisation must ensure that every worker is provided with cloth masks to be worn when in workplace or public.

Point of entry screening

> The Professional Organisation must ensure that the daily point of entry screening is completed when entering eThekwini Municipality premises.

Symptomatic employees

➤ The Professional Organisation must ensure that employees who are sick with continuous cough, sore throat, difficulty breathing, or a high temperature in the workplace will be encouraged to stay home.
