A weighted score-card approach is used to evaluate the technical compliance of tenders against the technical specification. Tenderers need to have a weighted score of 80% overall or more to technically qualify for further evaluating. The evaluation of the tender submission will be based on the tender's ability to meet the technical requirements.

Mandatory Technical Evaluation Criteria (gatekeepers) are 'must meet' criteria. These criteria shall not be weighted or point score but shall be assessed on a Yes/No basis as to whether or not the criteria are met. An assessment of 'No' against any criteria shall technically disqualify the tenderer and shall not be further evaluated against Qualitative Criteria.

Qualitative Technical Evaluation Criteria are weighted evaluation used to identify the highest technically ranked tenderer after determining that all the Mandatory Evaluation Criteria have been met. The Qualitative Evaluation Criteria are weighted to reflect the relevant importance of each criterion. The minimum weighted final score (threshold) required for the tender to be considered from the technical perspective is 80% to ensure credibility of the tenderer to provide the work required since Eskom is acting as the Design Authority (i.e. Eskom is accountable and responsible for the design work) on this project and the reviewers from the Design Review Committee has review and approved the design documentation to ensure that:

- the design or work to be supplied by the tenderer satisfies the design requirements.
- the design baseline that was approved for the technical specification is met.
- all relevant design standard, procedure and guidelines are adhered to.
- the design or work to be supplied by the tenderer is suitable and correct (technical specification, design drawings, design manuals and operating manuals, assembly dimension, voltage, and current ratings etc.).

Eskom as the Owners engineers has specified these items in schedules and thus requires a high degree of compliance with schedule A&B in order to reduce the project risk, comply with existing design and maintenance philosophies and to ensure a common asset base is maintained amongst Hydro and pump storage sites in Peaking. The scoring table for the Qualitative Technical Evaluation Criteria is as follows

Table 1: Qualitative Evaluation Criteria Scoring Guideline

5	90 – 100 Compliant
4	80 – 89 Compliant with associated qualification
2	50 – 79 non-compliant

3.15 Evaluation of price

Prices will be evaluated as follows:

1. Inclusive of VAT
2. Making the specified correction for arithmetical errors
3. Excluding contingencies in any bill of quantities or activity schedule.
4. Making an appropriate adjustment for any other acceptable variations, deviations, or alternative tenders submitted.
5. Making a comparison of the Net Present Value of each adjusted tender based on the tendered programme (if provided) and prices, on the estimated effect of Price Adjustment Factors and rate of exchange fluctuations (if applicable) and on other evaluation parameters relating to uncertainty and risk, where applicable.
1. Unconditional discounts must be taken into account for evaluation purposes;
2. Conditional discounts must not be taken into account for evaluation purposes but should be implemented when payment is affected.

Prices will be scored out of 80 or 90 points

3.17 Evaluation of Specific Goals

Specific goals will be scored out of 10 or 20 points in accordance with PPPFA. If a tenderer fails to meet Specific goals and submit proof, the tenderer will not be disqualified. However, be awarded 80/90 points for price and will score 0 points for Specific goals (out of 10/20)

PPPFA Price and Preference Points

For transactions up to R50M (inclusive of VAT) Price and Preferential Point Scoring will be based on the 80/20 allocation aligned to the PPPFA Regulations 2022.

(a) may only score points out of 90/80 for price

(b) scores 0 points out of 10/20 for specific goals.

Note:

Failure on the part of the supplier to submit supporting documents/proof of specific goals for purposes of evaluation and scoring by RFQ closing will not result in disqualification (if tenderer is otherwise deemed to be responsive/acceptable in all other aspects). The tenderer will, however, be scored zero for Specific goals for purposes of PPPFA scoring and ranking.
