**MUNICIPAL MANAGER**

## **SPECIFICATION**

Ablution Facilities at Durnacoal Cemeteries:

The Dannhauser Local Municipality requires ablution facilities for the new cemeteries in Durnacoal, catering to males, females, and people with disabilities. The facilities must include both flushing and pit toilets.

Scope for work:

The scope for work includes the approved design, construction, and installation of ablution facilities, including:

Toilets:

Male and female toilets with flushing and pit options

- 2 Female toilets flushable, 2 pit toilet and 1 pit toilet for disabled people
- 2 Male toilets flushable, 2 pit toilet and 1 pit toilet for disabled people.
- Septic tank depth to be adjusted to approximately 6m going down.
- Pit toilet to be approximately 6m deep (3,5x6).
- All toilet drawings must be clear and attached with the RFQ.

Water Tanks:

- 2x 5000Lt water tanks

Handwashing Basins:

- With soap dispensers and paper towel dispensers

Water Supply:

- Connection to a reliable water source for flushing toilets
- Water storage tanks for flushing toilets

Sanitation:

- Connection to a sewerage system or septic tank for flushing toilets
- Pit latrine emptying and maintenance services

Accessibility:

- Ramps and pathways for easy access
