2. TENDER SUBMISSION

Transnet has implemented a new electronic tender submission system, the e-Tender Submission Portal, in line with the overall Transnet digitalization strategy where suppliers can view advertised tenders, register their information, log their intent to respond to bids and upload their bid proposals/responses on to the system.

a) The Transnet e-Tender Submission Portal can be accessed as follows:

Log on to the Transnet eTenders management platform website

(<https://transnetetenders.azurewebsites.net>);

- Click on "ADVERTISED TENDERS" to view advertised tenders;
 - Click on "SIGN IN/REGISTER – for bidder to register their information (must fill in all mandatory information);
 - Click on "SIGN IN/REGISTER" - to sign in if already registered;
 - Toggle (click to switch) the "Log an Intent" button to submit a bid;
 - Submit bid documents by uploading them into the system against each tender selected.
 - **Tenderers are required to ensure that electronic bid submissions are done at least a day before the closing date to prevent issues which they may encounter due to their internet speed, bandwidth or the size of the number of uploads they are submitting. Transnet will not be held liable for any challenges experienced by bidders as a result of the technical challenges. Please do not wait for the last hour to submit. A Tenderer can upload 30mb per upload and multiple uploads are permitted.**
- b) Each company must register its profile using its company details and use the corresponding registered profile to log an intent to bid as well as submitting any bid.
- c) Transnet will not accept a bid or will disqualify a bidder who submits a bid in the Transnet e-tender submission through another bidders'/Company's profile. In other words, each bidder must register the intent to bid and submit its bid through its own profile under the same company name that will eventually bid for the tender. No company shall submit a bid on behalf of another company regardless of the company being a subsidiary or holding company.
- d) In case of a Joint Venture, any of the parties/companies to the Joint Venture may use its registered profile to submit a bid on behalf of the Joint Venture.
- e) The tender offers to this tender will be opened as soon as possible after the closing date and time. Transnet shall not, at the opening of tenders, disclose to any other company any confidential details pertaining to the Tender Offers / information received, i.e. pricing, delivery, etc. The names and locations of the Tenderers will be divulged to other Tenderers upon request.
- f) Submissions must not contain documents relating to any Tender other than that shown on the submission.

6 TRANSNET'S LIST OF EXCLUDED TENDERERS (BLACKLIST)

- 6.1 The process of restriction is used to exclude a company/person from conducting future business with Transnet and other organs of state for a specified period. No Tender shall be awarded to a Tenderer whose name (or any of its members, directors, partners or trustees) appear on the Register of Tender Defaulters kept by National Treasury, or who have been placed on National Treasury's List of Restricted Suppliers. Transnet reserves the right to withdraw an award, or cancel a contract concluded with a Tenderer should it be established, at any time, that a tenderer has been restricted with National Treasury by another government institution.
- 6.2 All the stipulations on Transnet's restriction process as laid down in Transnet's Supply Chain Policy and Procurement Procedures Manual (CPM included) are included herein by way of reference. Below follows a condensed summary of this restriction procedure.
- 6.3 On completion of the restriction procedure, Transnet will submit the restricted entity's details (including the identity number of the individuals and registration number of the entity) to National Treasury for placement on National Treasury's Database of Restricted Suppliers for the specified period of exclusion. National Treasury will make the final decision on whether to restrict an entity from doing business with any organ of state for a period not exceeding 10 years and place the entity concerned on the Database of Restricted Suppliers published on its official website.
- 6.4 The decision to restrict is based on one of the grounds for restriction. The standard of proof to commence the restriction process is whether a "*prima facie*" (i.e. on the face of it) case has been established.

- 6.6 A Service Provider or Contractor to Transnet may not subcontract any portion of the contract to a blacklisted company.

6.7 Grounds for blacklisting include: If any person/Enterprise which has submitted a Tender, concluded a contract, or, in the capacity of agent or subcontractor, has been associated with such Tender or contract:

- g) caused Transnet damage, or to incur costs in order to meet the contractor's requirements and which could not be recovered from the contractor;
- h) has litigated against Transnet in bad faith.

6.8 Grounds for blacklisting include a company/person recorded as being a company or person prohibited from doing business with the public sector on National Treasury's database of Restricted Service Providers or Register of Tender Defaulters.

6.9 Companies associated with the person/s guilty of misconduct (i.e. entities owned, controlled or managed by such persons), any companies subsequently formed by the person(s) guilty of the misconduct and/or an existing company where such person(s) acquires a controlling stake may be considered for

blacklisting. The decision to extend the blacklist to associated companies will be at the sole discretion of Transnet.

- 7.2 If it is found to be that the Tenderer/Service Provider/Contractor made an incorrect statement on this subject, the Tenderer/Service Provider/Contractor can be rejected from the registration process or removed from the Tenderer/Service Provider/Contractor database, if already registered, for such reason (refer to the Breach of Law Returnable Form contained in the document.)

Practice Guide (For Clients):

Implementation of the Standard for Indirect Targeting for Enterprise Development through Construction Works Contracts, published in Gazette Notice No.36190 of 25 February 2013

1. Introduction

This Practice Guide provides guidance to clients on the application of the cidb Standard for Indirect Targeting for Enterprise Development through Construction works Contracts (herein after referred to as the Standard) and is applicable to contracts in cidb Grades 7 to 9, in the General Building (GB) and Civil Engineering (CE).

The standard establishes Contract Participation Goals (CPGs) for development of targeted enterprises, to promote enterprise development by providing for a minimum of 5% of the total project value on selected contracts to be undertaken by joint-venture partners or to be sub-contracted to developing contractors. The standard requires employers to ensure that the lead partner or the main contractor dedicate a minimum of 5% of the total project value and to provide developmental support to a targeted sub-contractor/s and JV partners.

The standard is obtainable from the cidb's website www.cidb.org.za

2. Condition of Contract

Part T1: Tendering procedures

T1.1 Tender Notice and Invitation to Tender

Practice Guide (For Clients):

Implementation of the Standard for Developing Skills through Infrastructure Contracts, published in Gazette Notice 48491 of 28 April 2023

1. Introduction

This Practice Guide provides guidance to clients on the application of the cidb Standard for Developing Skills through Infrastructure Contracts, published in **Gazette Notice 48491 of 28 April 2023** (herein after referred to as the Standard).

This standard should be applied to a contract, or an order issued in terms of a framework that has a duration of 12 months or more and a contract amount exceeding R20 million in the case of an engineering and construction works, or design and build contract or an order issued in terms of such contract. The Standard is applicable to all cidb Classes of Works.

This standard establishes a minimum contract skills development goal to be achieved in the performance of a contract in relation to the provision of different types of workplace opportunities, linked to work associated with a contract culminating in or leading to:

- a) a part or full occupational qualification registered on the National Qualification Framework;
- b) a trade qualification leading to a listed trade (GG No. 35625, 31 August 2012)
- c) a national diploma registered on the National Qualification Framework; and
- d) registration in a professional category by one of the professional bodies listed in the standard

The Client shall ensure that the contractor achieves the contract skills development goals (CSDG) on the contract.

The standard is obtainable from the cidb's website www.cidb.org.za

2. Condition of Tender

Part T1: Tendering procedures

T1.1 Tender Notice and Invitation to Tender

Alerts prospective contractors to the nature of construction works required by the employer and should contain sufficient information to enable them to respond appropriately.

It is estimated that tenderers must have a cidb contractor grading designation of or or higher....

T1.2 Tender Data

Part T2: Returnable documents

T2.1 List of Returnable Documents

In the case of the Standard there are no returnable documents, notwithstanding this the Employer shall, after the award of the contract, provide the proforma documents that shall be completed by the contractors. (Refer to Annexure 1–5 Proforma documents, In the case of the Standard there are no returnable schedules)

T2.2 Returnable Schedules

Contains documents that the tenderer is required to complete for the purpose of evaluating tenders, and other schedules which upon acceptance become part of the contract. (In the case of the Standard there are no returnable schedules)

Part C1: Agreement and Contract Data

C1.1 Form of offer and Acceptance

Formalises the legal process of offer and acceptance

Note: Tenderer signs offer and employer signs acceptance to form the contract

C1.2 Contract data

States the applicable conditions of contract and associated contract specific data that collectively describe the risks, liabilities and obligations of the contracting parties and the procedures for the administration of the contract

It will be a condition of contract that:

The contractor shall, in the performance of the contract, achieve the Contract Skills Development Goal (CSDG) established in the Standard.

Part C2: Pricing data

C2.1 Pricing assumptions

Provides the criteria and assumptions (in the contract) that the tenderer has considered when developing his/her prices.

The employer shall include the following statement in the pricing assumptions:

The contractor shall determine the CSDG, expressed in Rand, which shall not be less than the sub-total multiplied by a percentage (%) factor given in **Table 2 of the Standard for the applicable class of construction works**. The Employer shall state the percentage (%) factor in the Final Tender Summary section dependant on the Class of Construction Works.

Table 2: Construction skills development goals for different classes of engineering and construction works contracts.

Class of construction works as identified in terms of the cidb regulation		Construction skills development goal (%)
Designation	Description	
CE	Civil Engineering	0.25
CE and GB	Civil Engineering and General Building	0.375
EB	Electrical Engineering work (buildings)	0.25
EP	Electrical Engineering works (infrastructure)	0.25
GB	General Building	0.5
ME	Mechanical Engineering	0.25
	Specialist works	0.25

The Final Tender Summary

The contractor’s attention is brought to the following:

The Employer shall include a line item under the Skills Development in the Final Tender Summary section described as “Minimum Contract Skills Development Goal (CSDG)” as illustrated in table 1.1 and 1.2 below:

To prevent a tender being non-responsive, the Employer shall bring to the Contractor’s attention the required CSDG percentage (%) as prescribed in the final tender summary section. The percentage (%) factor multiplied by the sub-total of the tender amount will determine the minimum CSDG that needs to be achieved on the contract.

Item 1 from Table 4 refers to the placement of one (1) unemployed learner that requires work placement in order to meet the P1 & P2 (Method 3) for the academic requirements to complete the qualification. The learner is placed for a period of 3 quarters (9 months) at R24 000 per quarter which will amount to R72 000.

Item 2 from Table 4 refers to the provision for mentorship of the P1 and P2 (Method 3) learners at R20 000 per quarter which amounts to R60 000 for 3 quarters (9 months).

Item 3 from Table 4 refers to the provision for additional cost as described in the Standard this amounts to R4 500 per quarter which amounts to R13 500 for 3 quarters (9 months).

Item 4 from Table 4 refers to the placement of one (1) employed learner in a skills programme (Method 1) for a period of 1 quarter (3 months) which makes provision for additional cost as described in the Standard this amounts to R9000 per quarter.

Item 16 from Table 4 refers to the total cost of placement of learners employing Methods 1 and 3 in the Standard which amounts to R154 000. In this example the planned CSDG amount is higher than the minimum CSDG of R150 000 as outline in Item 16 which complies with the requirements of the standard. In this case the employer shall agree with the contractor to the planned CSDG and pay the contractor accordingly.

The Employer shall use the same approach as above when determining the CSDG for other Methods as per the Standard.

Introduction

Procurement may be defined as the process which creates, manages and fulfils contracts. Procurement accordingly commences once a need for goods, services or works has been identified and it ends when the goods are received, or the services or construction works are completed. Public procurement can have a significant impact on social and economic development, if it is used to leverage social and development objectives.

The South African government requires that its considerable expenditure on the delivery, maintenance and operation of infrastructure (fixed assets that are constructed or result from construction operations) contribute to an increase in the number of people who have part or full occupational qualifications registered on the NQF or professional designations awarded by professional bodies or statutory councils. This standard has been prepared to leverage contributions towards the increase of the pool of qualified skilled people, and where required professionally registered, through training on professional services, design and build or engineering and construction works contracts associated with such expenditure. This Standard for developing skills through infrastructure contracts, establishes the minimum contract skills development goals to be achieved in the performance of such contracts relating to the provision of workplace opportunities, linked to or leading to:

- a) a part- or full occupational qualification registered on the National Qualification Framework.
- b) a trade qualification leading to a listed trade (GG No. 35625, 31 August 2012);
- c) a national diploma registered on the National Qualification Framework; and
- d) registration in a professional category by one of the professional bodies listed in Table 1 of this standard.

Contractors are responsible for achieving the contract skills development goals and are provided with a number of methods for measuring their achievements. They may, if need be, devolve their obligations onto subcontractors.

This standard should be applied to;

A contract or an order issued in terms of a framework agreement that has a duration of 12 months or more, and:

- a) a contract of R5 million or more, in the case of a professional service or service contract or an order issued in terms of such a contract; or
- b) a cidb grading designation of grade 7 or higher, in case of an engineering and construction works, or design and build contract or an order issued in terms of such a contract.

This Standard will be subject to review every five years, or sooner if required.

Standard for developing skills through infrastructure contracts

1 Scope

This standard establishes a key performance indicator;

- a) in the form of a contract skills development goal (CSDG) relating to the structured workplace learning of occupational or professional learning, which enables learners to make measurable progress towards the attainment of:
 - (i) a part- or full occupational qualification registered on the National Qualification Framework; or
 - (ii) a trade qualification leading to a listed trade (GG No. 35625, 31 August 2012); or
 - (iii) a national diploma registered on the National Qualification Framework; or
 - (iv) registration in a professional category by a statutory council listed in Table 1.
- b) in the delivery, maintenance and operation of infrastructure through the performance of professional service, engineering and construction works, or design and build contracts or an order associated with such a contract and
- c) sets out the methods by which the key performance indicator is established, measured, quantified and verified in the performance of the contract or the execution of an order.

NOTE 1: Guidance on the manner in which this standard should be incorporated into procurement documents is provided in Annex A.

NOTE 2: This standard can be applied to contracts or to orders (call-offs) issued in terms of framework agreements. Framework agreements are well suited to situations in which long term relationships are entered into. They offer flexibility in attaining contract skills development goals as requirements can be adjusted from one order to another, thus allowing key performance indicators to be improved upon over time.

2 Terms and definitions

For the purposes of this document, the following terms and definitions apply:

allowance

- c) provision for price adjustment for inflation; or
- d) other budgetary provisions intended to cover the employer's contractual risks
