

## **TECHNICAL EVALUATION OF TENDERS**

The process applied for conduction technical evaluation on the supply and delivery of hut (Technical score-100%)

Submission of brochure and pictures with monitoring hut specifications	60%
Guarantee/warranty	15%
References	25%

## The qualifying threshold for all the suppliers is 70%.

<ul> <li>containing the specifications as per below:</li> <li>Brand new build AQM hut {3m (breadth) x 4m (length) x 2.5m (Height)} and a door.</li> <li>Fully electrified hut with UPS Distribution board (DB board) (10 plugs) and RAW/MAINS Distribution board (DB board) (10 plugs) with Certificate of Compliance (COC). Output power for plugs must be 220Vac.</li> <li>Two outside sport lights (one in front and one at the back) and inside fluorescent tube lights.</li> <li>Two Bench tops for air quality monitoring instruments (No rack mount).</li> <li>Fully installed and functional tests done, 24000Btu Air conditioner (work to be completed when the hut is sited)</li> <li>Portable fire extinguisher suitable for the hut</li> <li>Step ladder and fall protection roof racks</li> <li>The hut must be delivered fully completed with the components (complete sample manifold with six ¼ inch inlets) and equipment required installed. Therefore, ready to use shelter.</li> <li>Submission of the brochure/brochures and pictures which include all the specification- 60%</li> <li>No submission of the brochure/brochures and pictures which include all the specification- 0%</li> <li>Guarantee/Warranty</li> </ul>	TECHNICAL CRITERIA	RATING
