PAYMENT OF FOREIGN COMMITMENTS

PART 1: The application of importation payment requirements to tender submissions.

Where foreign exchange is involved, Eskom will take measures to mitigate any exposure to foreign currency exposure or exchange rate risk.

Tenderers: -

- Who wish to submit tenders with pricing in foreign currency for imported goods/services must establish **prior** to tender close (via the Procurement Practitioner), that the foreign currency that is being priced in the submission, is an acceptable foreign currency to Eskom.
- Who are pricing for imported goods/services in a foreign currency or linking their pricing of goods to a foreign currency exchange rate, **must be the direct importers** of the goods/services. For payment purposes, Eskom will require proof of importation.
- Who import goods into stock, for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases, Eskom will not undertake any foreign exchange commitment or arrange forward cover.
- Who have submissions where pricing for imported goods/services in a foreign currency or linked to a foreign currency exchange rate, must ensure that their pricing indicates the foreign currency and the foreign currency values.

Where the supplier, previously imported goods into stock for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases, Eskom will not undertake any foreign exchange commitment or arrange forward cover.

Take note of the following:

Service-related payment:

When specialist skills are required in South Africa, the local supplier will source the appropriate talent from their network of specialist companies overseas. The specialist is then brought into the country (South Africa) on one of two possible methodologies.

1) Secondment

In this approach, the foreign specialist retains their employment contract with their home unit (Employer overseas) but are seconded to the local company that has a contract with Eskom to work under the direction and control of the local management. Their salaries are paid to the foreign specialist by their home country and that foreign entity then invoices the local supplier (South Africa) in foreign currency for the cost relating to such employees. The invoices would typically be in Euro or GBP, this methodology is usually for short to medium term engagements.

Documents to be attached for payment:

- Commercial invoice from the specialist company
- Local invoice (South African company making use of the specialist services)
- Passport of the specialist and valid work permit
- Activity schedule signed by the contract manager.

2) Payroll Transfer

In this approach, the employee's contract with the overseas employer will be suspended and the specialist takes up a local contract with the local company. The remuneration is then **ZAR** based, the overseas employer is unable to provide the foreign invoice because the employment with the specialist is suspended this methodology is usually favoured for long term engagement. There is no foreign commitment, and the contract will be in ZAR.

PART 2: EXCHANGE RATES

The tenderer shall use the exchange rate as at 12H00 on the date of the advertisement of the tender. The source of the exchange rates shall be the South African Reserve Bank (www.resbank.co.za) Please note that the tenderer is required to submit proof of the SARB rate/s used.
