1. PURPOSE

- 1.1. To appoint a service provider(s) to supply fruit and indigenous ornamental trees in the provinces of KwaZulu-Natal and Free State provinces for use in the Two Million Trees Programme of the Department of Forestry, Fisheries and the Environment for the period of 24 months as and when required.

2. INTRODUCTION AND BACKGROUND

- 2.1. The Department of Forestry, Fisheries and the Environment (DFFE) is the custodian of the forestry function in South Africa. Part of the function entails the implementation of those initiatives that result in the development of communities using forestry resources. One of the focus areas of community development using green the country for issues environmental concern, of food insecurity and poverty reduction. This is done in line with the principles of the National Forest Act, 1998, Section 32 which provides for community forestry, and the White Paper on Sustainable Forest Development, 1996, which realises that forestry, is not only about managing forests, but also about the relationship between forests as a resource and the people living in and around forests. Forests in this instance will include trees outside forests.
- 2.2. It is now a known fact that the world in general is starting to feel the effects of global warming and in particular climate change. This phenomenon is an environmental threat resulting from emissions of Green House Gases in the atmosphere. It is now crucial to face this phenomenon head on by adopting mitigation strategies and adapt our actions towards it. These changes in climate may have significant effects on various sectors globally. Tree planting which forms the basis for the departmental greening programme is one of the mitigating factors that are recommended towards the slowing down of this environmental threat. It is for this reason that the Department is pursuing the Two Million Trees Programme. The Two Million Trees Programme aims to emphasise the value of trees and forests in the lives of South Africans. This will not only bring beauty into the households but also promote the importance of trees and benefits for the environment.
- 2.3. The activities will include greening of Low-Income Cost Housing areas with the sole aim of creating sustainable settlements, addressing household food security by planting fruit trees into homestead gardens and creating employment opportunities, especially for the youth through the Expanded Public Works Programme. It is acknowledged that the tree-planting programmes will have to rely on other supporting programmes such as environmental education to inform

and educate society in general of the importance of the trees within the environment and their role in mitigating environmental threats.

- 2.4. The Departmental nurseries have not been able to propagate trees whilst Municipalities and other stakeholders have been involved in DFFE with the impacts of the covid 19 pandemic. It is important to note that in order to reach the set target of two the million trees per annum, the department will have to purchase the trees to and complement trees produced from its own nurseries and greening partners. The Branch: Forestry Management as the lead in the Greening of South Africa will work with other branches in the Department such as Chemical and Waste, Biodiversity and Conservation and Environmental Programmes.
- 2.5. The Branch: Forestry Management will take a leading role in the development of the plan, coordination of inputs and execution of the programme. The Branch will also lead the National Greening Forum whereby key role-players such as Metropolitan Municipalities, Non-Government Organisations and the corporate sector will present their plans and reports. The forum will help with the monitoring and evaluation of plans.

3. OBJECTIVES

- 3.1. The project is expected to achieve the following:
 - 3.1.1. To ensure the supply fruit and indigenous ornamental trees for use in The Two Million Trees Per Annum Programme of the Department in all nine provinces of the country.
 - 3.1.2. The secondary objectives include the following:
